Annalisa Berta,Susan Turner

KING S.J. Tilly,2026-02-17 Okay, so, my bad for assuming the guy I was going on a date with wasn't married. And my bad for taking him to a friend's house for dinner, only to find out my friend is also friends with his wife. Because, in fact, he is married. And she happens to be at my friend's house because her husband was busy working. Confused? So am I. Unsurprisingly, my date's wife is super angry about finding out that her husband is a cheating asshole. Girl, I get it. Then, to make matters more convoluted, there is the man sitting next to my date's wife. A man named King, who is apparently her brother, and who lives up to his name. And since my "date" is a two-timing prick, I'm not going to feel bad about drooling over King, especially since I'll never see him again. Or at least I don't plan to. I plan to take an Uber to the cheater's apartment to get my car keys. I plan for it to be quick. And if I had to list a thousand possible outcomes... witnessing my date's murder, being kidnapped by his killer, and then being forced to marry the super attractive but clearly deranged crime lord, would not have been on my Bingo card. But alas, here I am.

Blount County, Alabama Marriages, 1866 - 1919 Robin Sterling,2014-12-24 This book contains all the marriages which took place in Blount County, Alabama between the years 1866 and 1919. Images of the original documents from the Blount County Court House were examined page by page and transcribed. Not only was the primary information recorded, but other significant details were gathered such as names of bondsmen, names of officials performing the ceremony, names and

relationships of those granting permission, and the location of the ceremony. Plus, volumes and page numbers were recorded to provide for better documentation. Additionally, details of all licenses returned unexecuted were recorded. This book also contains those marriages recorded at the satellite Blount County court house at Bangor covering the years 1893 to 1901. This book is a handy tool for those with ancestors in Blount County, or those with ancestors in sections of Blount which became Cullman County.

Rebels, Scholars, Explorers Annalisa Berta,Susan Turner,2020-10-27 Unearthing the amazing hidden stories of women who changed paleontology forever. For centuries, women have played key roles in defining and developing the field of vertebrate paleontology. Yet very little is known about these important paleontologists, and the true impacts of their contributions have remained obscure. In *Rebels, Scholars, Explorers*, Annalisa Berta and Susan Turner celebrate the history of women bone hunters, delving into their fascinating lives and work. At the same time, they explore how the discipline has shaped our understanding of the history of life on Earth. Berta and Turner begin by presenting readers with a review of the emergence of vertebrate paleontology as a science, emphasizing the contributions of women to research topics and employment. This is followed by brief biographical sketches and explanations of early discoveries by women around the world over the past 200 years, including those who held roles as researchers, educators, curators, artists, and preparators. Forging new territory, Berta and Turner highlight the barriers and challenges faced by women paleontologists, describing how some managed to overcome those obstacles in order to build careers in the field. Finally, drawing on interviews with a diverse group of contemporary paleontologists, who share their experiences and offer recommendations to aspiring fossil hunters, they provide perspectives on what work still needs to be done in order to ensure that women's contributions to the field are encouraged and celebrated. Uncovering and relating lost stories about the pivotal contributions of women in vertebrate paleontology doesn't just make for enthralling storytelling, but also helps ensure a richer and more diverse future

for this vibrant field. Illuminating the discoveries, collections, and studies of fossil vertebrates conducted by women in vertebrate paleontology, *Rebels, Scholars, Explorers* will be on every paleontologist's most-wanted list and should find a broader audience in the burgeoning sector of readers from all backgrounds eager to learn about women in the sciences.
