**The Bhagavadgita in the Mahabharata**, 2013-07-26 No other Sanskrit work approaches the Bhagavadgita in the influence it has exerted in the West. Philosophers such as Emerson and the other New England Transcendentalists were deeply affected by its insights, a dozen or more scholars, including Annie Besant and Mahatma Gandhi, have attempted its translation, and thousands of individuals struggling with the problems divided loyalties have found comfort and wisdom in its pages. The Bhagavadgita (Song of the Lord) tells of the young and virtuous Prince Arjuna who is driven to lead his forces into

battle against an opposing army composed of close relatives and others whom he loves. The Lord Krsna, appearing in the poem as Arjuna's friend and charioteer, persuades him that he must do battle, and we see Arjuna changing from revulsion at the thought of killing members of his family to resignation and awareness of duty, to manly acceptance of his role as warrior and defender of his kingdom. The Bhagavadgita is a self-contained episode in the Mahabharata, a vast collection of epics, legends, romances, theology, and metaphysical doctrine that reflects the history and culture of the whole of Hindu civilization. The present edition forms a part of J. A. B. van Buitenen's widely acclaimed translation of this great work. Here English and Sanskrit are printed on facing pages, enabling those with some knowledge of Sanskrit to appreciate van Buitenen's accurate rendering of the intimate, familial tone and directness of the original poem.

**Appeal and Attitude** Steven G. Smith, 2005-11-16 In *Appeal and Attitude*, Steven G. Smith offers a multicultural view into issues at the heart of existentialism, hermeneutics, and the phenomenology of religion. By looking closely at the concepts of appeal, or what commands our attention, and attitude, or the quality of the attention we pay, Smith probes into the core of

religious ideals to answer questions such as why faith and rationality are compelling and how religious experience becomes meaningful. Smith turns to philosophical and religious texts from Eastern and Western religious and philosophical traditions including Kant, Hegel, Heidegger, Levinas, Derrida, Confucius, and the Bhagavad-Gita. He also engages everyday objects such as stones, birds, boats, and minnows to arrive at normative definitions of supreme appeal and sovereign attitude. This book provides readers at all levels with a thoughtful and widely comparative window into idealism, community, responsibility, piety, faith, and love.

**River of Love in an Age of Pollution** David Haberman, 2023-09-01 Celebrated as an aquatic form of divinity for thousands of years, the Yamuna is one of India's most sacred rivers. A prominent feature of north Indian culture, the Yamuna is conceptualized as a goddess flowing with liquid love—yet today it is severely polluted, the victim of fast-paced industrial development. This fascinating and beautifully written book investigates the stories, theology, and religious practices connected with this river goddess collected from texts written over several millennia, as well as from talks with pilgrims, priests, and worshippers who frequent the pilgrimage sites and temples located on her banks. David L. Haberman offers a detailed analysis of the environmental condition of the river and examines how religious practices are affected by its current pollution. He introduces Indian river environmentalism, a form of activism that is different in many ways from its western counterpart. *River of Love in an Age of Pollution* concludes with a consideration of the broader implications of the Yamuna's plight and its effect on worldwide efforts to preserve our environment. Celebrated as an aquatic form of divinity for thousands of years, the Yamuna is one of India's most sacred rivers. A prominent feature of north Indian culture, the Yamuna is conceptualized as a goddess flowing with liquid love—yet today it is severely polluted

*Black Terror White Soldiers* David Livingstone, 2013-06-16 Far too ignorant of the histories of the rest of the world, being aware of only the accomplishments of Greece, Rome and Europe, Westerners have been made to believe that their societies represent the most superior examples of civilization. However, the Western value system stems from a misconception that, as in nature, human society too is evolving. The idea derives from the hidden influence of secret societies, who followed the belief in spiritual evolution of the Kabbalah, which taught that history would attain its fulfillment when man would become God, and make his own laws. Therefore, the infamous Illuminati gave its name to the Enlightenment of the eighteenth century, which claimed that human progress must abandon superstition, meaning Christianity, in favor of reason. Thus the Illuminati succeeded in bringing about the French and American revolutions, which instituted the separation of Church and State, and from that point forward, the Western values of Humanism, seen to include secularism, human rights, democracy and capitalism, have been celebrated as the culmination of centuries of human intellectual evolution. This is the basis of the propaganda which has been used to foster a Clash of Civilizations, where the Islamic world is presented as stubbornly adhering to the anachronistic idea of theocracy. Where once the spread of Christianity and civilizing the world were used as

pretexts for colonization, today a new White Man's Burden makes use of human rights and democracy to justify imperial aggression. However, because, after centuries of decline, the Islamic world is incapable of mobilizing a defense, the Western powers, as part of their age-old strategy of Divide and Conquer, have fostered the rise of Islamic fundamentalism, to both serve as agent-provocateurs and to malign the image of Islam. These sects, known to scholars as Revivalists, opposed the traditions of classical Islamic scholarship in order to create the opportunity to rewrite the laws of the religion to better serve their sponsors. Thus were created the Wahhabi and Salafi sects of Islam, from which were derived the Muslim Brotherhood, which has been in the service of the West ever since. But, the story of the development of these Islamic sects involves the bizarre doctrines and hidden networks of occult secret societies, being based on a Rosicrucian myth of Egyptian Freemasonry, which see the Muslim radicals as inheritors of an ancient mystery tradition of the Middle East which was passed on to the Knights Templar during the Crusades, thus forming the foundation of the legends of the Holy Grail. These beliefs would not only form the cause for the association of Western intelligence agencies with Islamic fundamentalists, but would fundamentally shape much of twentieth century history.

*Asceticism and Its Critics* Oliver Freiberger, 2006-10-19 Scholars of religion have always been fascinated by asceticism. Some have even regarded this radical way of life-- the withdrawal from the world, combined with practices that seriously affect basic bodily needs, up to extreme forms of self-mortification --as the ultimate form of a true religious quest. This view is rooted in hagiographic descriptions of prominent ascetics and in other literary accounts that praise the ascetic life-style. Scholars have often overlooked, however, that in the history of religions ascetic beliefs and practices have also been strongly criticized, by followers of the same religious tradition as well as by outsiders. The respective sources provide sufficient evidence of such critical strands but surprisingly as yet no attempt has been made to analyze this criticism of asceticism

systematically. This book is a first attempt of filling this gap. Ten studies present cases from both Asian and European traditions: classical and medieval Hinduism, early and contemporary Buddhism in South and East Asia, European antiquity, early and medieval Christianity, and 19th/20th century Aryan religion. Focusing on the critics of asceticism, their motives, their arguments, and the targets of their critique, these studies provide a broad range of issues for comparison. They suggest that the critique of asceticism is based on a worldview differing from and competing with the ascetic worldview, often in one and the same historical context. The book demonstrates that examining the critics of asceticism helps understand better the complexity of religious traditions and their cultural contexts. The comparative analysis, moreover, shows that the criticism of asceticism reflects a religious worldview as significant and widespread in the history of religions as asceticism itself is.

**Entering on Life** Cunningham Geikie, 1887

Nectar #22 Babaji Bob Kindler, DS Lokanath, Swami Areshananda, Swami Brahmeshananda, Nan Huai Chin, S Jagadishan, Annapurna Sarada, 2007-02-12 With open arms and open minds we welcome the contemporary reader and lover of Truth to another feast for the soul, some Amrita, Nectar for the aspiring mind of the devout and avid practitioner. This open invitation is extended not only to those who have already grounded themselves in the search for Freedom via authentic spiritual traditions, but also to those who show a keen interest and feel drawn to those subtle visions and revelations of spiritual life which otherwise get obscured by the everyday goings-on of the secularized world and its conventionalized religion. Even a basic curiosity about mystical paths and ways and the esoteric wisdom they contain is apt excuse to embark upon this compelling journey which will turn the confused and restless soul, now enjoying and suffering in turns at the hands of fragmented mind and insentient matter, towards all the answers it requires and has been searching for over many lifetimes. So come, say the sages and seers, and find the highest refection of the soul possible at this sublime wisdom retreat in the isolated mountain ranges of varied spiritual experiences. Any of the tried and true pathways called authentic religions, rightly comprehended, will lead one there. The life-giving waters of Vedanta, Jainism, Vajrayana Buddhism, Chinese Buddhism, and Bhakti and Karma Yogas all flow predominantly through the pages of this enlightening issue of Advaita-satya-amritam. Book reviews inclusive of world religions such as Christianity and Tibetan Buddhism also form little liquid pools of its conscious content, while eddies of Sufism, Yoga, Tantra, and Western Philosophy also play with in it — all carried on the powerful but unseen Truth-tide of Nonduality. Read on, dear soul, read on. Get immersed in the Waters of Eternal Life which, like a well-spring appearing near the thirst-filled road of embodiment, brings both peace and Self-realization to the transmigrating soul.

*War Wisdom* Christian P. Potholm, 2015-10-16 War Wisdom: A Cross Cultural Sampling is a unique combination of directory and analysis. It provides a relevant “universe” of quotations, together with their authors, about war from various ages and across a large number of societies including those found in China, Japan, Persia, Mongolia, Europe, and America

(both North and South), as well as Native American nations and Africa. A lengthy introductory essay presents and analyzes a dozen relevant themes found throughout those cultures, themes which show a pattern of very widespread, if not universal, appeal. Of particular relevance is the author's engagement with the conflicting wisdom pertaining to war found within the same society as well as common themes appearing across cultures, societies, and time frames.

**Vedic Evolution** Chandra Mouli M S, 2018-10-25 Evolution in general means a process of change or transformation. Evolution commonly used to refer to biological, genetic or organic evolution. Evolution is change in the heritable characteristics of biological populations over successive generation. History of evolutionary theory refers to Overview, Renaissance, Before Darwin, Darwin, Origin of Species, Before synthesis, Modern synthesis, Molecular evolution, Evo-devo, Current research, History of speciation, History of paleontology, etc. Modern synthesis theory of evolution shed light on population genetics, genetic variation, natural selection, eclipse of Darwinism and non-Darwinian theories of evolution. Malthusian completion and variation lead to Natural selection. Mutation lead to Genetic variation and Mendelian inheritance. All these together ended in Modern synthesis. Vedic evolution refers to the philosophy and science of evolution according to Vedas. Hinduism sheds light of the Origin of life, creation and evolution based on Vedas, Brahmanas and Puranas. The Rigveda mentions the Hiranyagarbha ("golden embryo") as the source of the Personal and Impersonal Universe, similar to the "world egg" motif found in the creation myths of many other civilizations. Hindus find support for evolution in scriptures. Dashavatara has similarities to Charles Darwin's theory of evolution. The Shatapatha Brahmana states that the current human generation descends from Manu, the only man who survived is comparable to the other flood legends, such as the story of the Noah's Ark mentioned in the Bible and the Quran. Hindu Dharma believes in the evolution and involution of forms of lives according to Karma of individuals. In every form of species exists the soul that stands as eternal witness of thoughts of mind that becomes actions. Author of this book, exhibits his findings of serious research about "Evolution according to Vedas, in relation to that of contemporary modern synthesis theory of evolution, that the origin of man is time immemorial. The end of man is the climax of human evolution i.e., Suddha Prajñe, i.e., Pure Consciousness, which is the embodiment of "Sat Chit Ananda i.e., Eternal Truth - Eternal Knowledge - Eternal Bliss." The book "Vedic Evolution : Its Philosophy and Science" may become a source book for finding solutions to Global Harmony, Happiness and Peace. Human life lead naturally leads to Pure Consciousness. Vedic Evolution is the evolution of human life from: "Falsity to Truth; from

Ignorance to Wisdom; from Death to Immortality.” Vedic message to humanity is: “O Man, you have to live hundred years, evolving healthily-happily and spiritually, until you become one with THAT SUPREME PURE CONSCIOUSNESS WHICH IS ALL PERVASIVE, BOTH IN THE SEEN AND UNSEEN COSMIC EGG OR BRAHMANADA.”

*The Culturalization of Caste in India* Balmurli Natrajan, 2011-07-20 In India, caste groups ensure their durability in an era of multiculturalism by officially representing caste as cultural difference or ethnicity rather than as unequal descent-based relations. Challenging dominant social theories of caste, this book addresses questions of how caste survives the system that gave rise to it and adapts to new demands of capitalism and democracy. Based on original fieldwork, the book shows how the terrain of culture captured by a new grammar of caste revitalizes castes as cultural communities so that the culture of a caste is produced, organized and naturalized in the process of transforming jati (fetishized blood and kinship) into samaj (fetishized culture). Castes are shown to not be homogenous cultural wholes but sites of hegemony where class, gender and hierarchy over-determine the meanings and materiality of caste. Arguing that there exists a new casteism in India akin to a new racism in the USA, built less on biology and descent and more on purported cultural differences and their rights to exist, the book presents an extended critique and a search for an alternative view of caste and anti-casteist politics. It is of interest to students and scholars of South Asian culture and society.
