

Russian Constructivism Art Movement

David W. Bernstein,Christopher Hatch

Russian Constructivism Christina Lodder,1983 One of the most exciting movements in 20th century art, Russian constructivism radically reassessed the role of the artist and his work. Here, Lodder provides a detailed account of this complex movement and the reverberations it had on Western culture.

The Artist as Producer Maria Gough,2005-05-02 The Artist as Producer confronts the problem of making a politics with art. Gough's balanced rigor in mining obscure archives on the one hand, while performing brilliant readings of recalcitrant artworks on the other gives her account of Constructivism's utopian promise and less-than-utopian outcome great texture. She has produced something very rare: an art-historical study that not only adds to our knowledge but captures the intense poignancy of modern art's serious ambition to undertake a revolution of—and with—form.—David Joselit, Professor, History of Art, Yale University To see a sculptor plunging into the politics and the cultural politics of the factory floor is a rare sight indeed in art history. It takes immense historical discipline to do it justice. Maria Gough takes the 'author as producer' question dear to Marxist aesthetics (think of Walter Benjamin, but think also of Trotsky, of Gramsci) and raises it into new relevance. The question always was and is a motor. This book shows us, beautifully, how and why.—Molly Nesbit, Professor of Art, Vassar College The Artist as Producer is a remarkable and impressive piece of scholarship, which challenges existing assumptions about Soviet Constructivism and demands that we rethink the movement in its entirety.—Christina Lodder, author of Russian Constructivism

Writings through John Cage's Music, Poetry, and Art David W. Bernstein,Christopher Hatch,2010-06-15 This volume looks at the creative work of the great avant-gardist John Cage from an exciting interdisciplinary perspective, exploring his activities as a composer, performer, thinker, and artist. The essays in this collection grew out of a pivotal gathering during which a spectrum of participants including composers, music scholars, and visual artists, literary critics, poets, and filmmakers convened to examine Cage's extraordinary artistic legacy. Beginning with David Bernstein's introductory essay on the reception of Cage's music, the volume addresses topics ranging from Cage's reluctance to discuss his homosexuality, to his work as a performer and musician, and his forward-looking, provocative experimentation with electronic and other media. Several of the essays draw upon previously unseen sketches and other source materials. Also included are transcripts of lively panel discussions among some of Cage's former colleagues. Taken together, this collection is a much-needed

contribution to the study of one of the most significant American artists of the twentieth century.

Russian and Soviet Views of Modern Western Art, 1890s to Mid-1930s Ilia Dorontchenkov,2009-06-10 From the first Modernist exhibitions in the late 1890s to the Soviet rupture with the West in the mid-1930s, Russian artists and writers came into wide contact with modern European art and ideas. Introducing a wealth of little-known material set in an illuminating interpretive context, this sourcebook presents Russian and Soviet views of Western art during this critical period of cultural transformation. The writings document complex responses to these works and ideas before the Russians lost contact with them almost entirely. Many of these writings have been unavailable to foreign readers and, until recently, were not widely known even to Russian scholars. Both an important reference and a valuable resource for classrooms, the book includes an introductory essay and shorter introductions to the individual sections.

With few books on modern art in Korea available in English, this book is an authoritative volume on the topic and provides a comparative perspective on Asian modernism including Japan, China, and India. Esfir Shub Ilana Shub Sharp,2021-12-30 Esfir Shub was the only prominent female director of nonfiction film present at the dawning of the Soviet film industry. She was, in fact, the first woman both to write critical texts on cinema and then practically apply these theorisations in her own films. As such, her syncretism of cinema theory and praxis inspired her to ask questions regarding both the nature of nonfiction film, such as the problem of authenticity and reality, and the function of the artist in society; issues which are still relevant in contemporary discussions about the documentary. Accordingly, this book demonstrates Shub's position not only as a significant filmmaker and recognised member of the early Soviet avant-garde but also as a key figure in global cinema history. Shub deserves recognition both as the founder and ardent promoter of the compilation film genre and as a pioneer of the theory and practice of documentary filmmaking.

Russian Fractals in Indigenous Artifacts Abdul Karim Bangura,Leonid A. Zhigun,2025-06-22 This book is the first comprehensive work on Russian Fractals in indigenous artifacts. While existing works focus on universal phenomena, such as liquid crystal or finance, none explore the intersection between Fractals and Russia. 'Russian Fractals in Indigenous Artifacts' therefore investigates how indigenous Russian cultures have a wonderful Fractal heritage that was originally tied to socially just and ecologically sustainable social practices, including those of indigenous northern groups such as the Yakut. Fractal designs originally allowed unalienated value, both human and nonhuman, to be visible, thereby enabling just and sustainable living. This book also examines how the tsarist elite encouraged the creation of unique creative masterpieces, developing and strengthening traditional crafts and art of indigenous people—hence, Fabergé, or imperial architecture. Today, the challenge for contemporary Russia is to reestablish the relationship between the social and ecological sustainability of indigenous cultures and practices, for which we can now provide modeling and analysis. Lay attempts at this have only limited success, as they have based the attempts on a purely religious basis, which recognizes the ecological aspects but often succumbs to authoritarian nationalism. However, the freely accession of indigenous peoples to Russia for the sake of national liberation has had a positive effect on enriching them with spirituality and creativity by Fractal artifacts through friendly exchanges with one another. In 'Russian Fractals in Indigenous Artifacts,' Bangura and Zhigun express why there is a need for a forward-thinking Fractal renaissance in Russia, bringing together contemporary computational and scientific analyses with these ecologically and socially sustainable traditions.

Graphic Design Stephen J. Eskilson,2019-05-21 A classic and indispensable account of graphic design history from the Industrial Revolution to the present Now in its third edition, this acclaimed survey explores the evolution of graphic design from the 19th century to the present day. Following an exploration of design's prehistory in ancient civilizations through the Industrial Revolution, author Stephen J. Eskilson argues that modern design as we know it grew out of the influence of Victorian-age reformers. He traces the emergence of modernist design styles in the early 20th century, examining the wartime politicization of regional styles. Richly contextualized chapters chronicle the history of the Bauhaus and the rise of the International Style in the 1950s and '60s, and the postmodern movement of the 1970s and '80s. Contemporary considerations bring the third edition up to date, with discussions of app design, social media, emojis, big data visualization, and the use of animated graphics in film and television. The contemporary phenomenon of the citizen designer, professionals who address societal issues either through or in addition to their commercial work, is also addressed, highlighting protagonists like Bruce Mau and the Center for Urban Pedagogy. This edition also features 45 additional images, an expanded introduction and epilogue, and revised text throughout. A newly redesigned interior reinforces the fresh contents of this now-classic volume.

As such, it explores elements that make evident customs and cultural beliefs that have influenced behavior in these regions. Most societies in these areas have flourished in an uneven and often unequal manner. However, this book will serve to reconcile such cultural groups and create bonds of shared responsibility.

Land of Stone Roger Emmerson, 2022-12-06 'Welcome to a journey of remarkable buildings and remarkable thoughts about these buildings, shaped as they are by deep time, modern ideas and Scottish culture. Readers are sure to see new vistas in the land of stone open before them' From the Foreword by PROFESSOR ANDREW PATRIZIO What makes Scottish architecture Scottish? What ideas drive Scottish architecture? What has modern architecture in Scotland meant to the Scots? Ever since the 'granny-tops', rattling and clanking in the wind to draw smoke up the tenemental flues from open coal fires, caught my attention as a three-year-old, architecture and its many parts, purposes, processes and procedures has fascinated me. For me, architecture has always had profound significance. 'Land of Stone' seeks to disengage widely-held conceptions of what a Scottish architecture superficially looks like and to focus on the ideas and events – philosophical, political, practical and personal – that inspired architects and their clients to create the cities, towns, villages and buildings we cherish today.
