Coffee Culture Catherine M. Tucker,2017-01-20 *Coffee Culture: Local experiences, Global Connections* explores coffee as (1) a major commodity that shapes the lives of millions of people; (2) a product with a dramatic history; (3) a beverage with multiple meanings and uses (energizer, comfort food, addiction, flavouring, and confection); (4) an inspiration for humor and cultural critique; (5) a crop that can help protect biodiversity yet also threaten the environment; (6) a health risk and a health food; and (7) a focus of alternative trade efforts. This book presents coffee as a commodity that ties the world together, from the coffee producers and pickers who tend the plantations in tropical nations, to the middlemen and processors, to the consumers who drink coffee without ever having to think about how the drink reached their hands.

mmm... Manitoba Kimberley Moore,Janis Thiessen,2024-04-05 A tasty oral history In 2018, Janis Thiessen, Kimberley Moore, and collaborator Kent Davies refashioned a used food truck into a mobile oral history lab. Together they embarked on a journey around Manitoba, gathering stories about the province's food and the people who make, sell, and eat it. Along the way, they visited restaurant owners, beer brewers, grocers, farmers, scholars, and chefs in their kitchens and businesses, online, and on board the food truck. The team conducted nearly seventy interviews and indulged in a bounty of prairie delicacies, from Winnipeg's "Fat Boys" to Steinbach's perogies to Churchill's cloudberry jam. Thiessen and Moore serve up the results of this research in *mmm... Manitoba*. Mixing recipes, maps, archival records, biographies, and full-colour photographs with fascinating stories, they showcase the province's diverse food histories. Through the sharing and preparing of food, the authors investigate food security and regulation, Indigenous foodways and agriculture, capitalism's impact on the agri-food industry, and the networks between Manitoban food producers and retailers. The book also explores the roles of gender, ethnicity, migration, and colonialism in Manitoba's food history. Hop on the Manitoba Food History Truck and journey into the province's past with engaging essays and easy-to-follow recipes for kjielkje and schmauntfat, snow goose tidbits, chicken karaage, the Salisbury House flapper pie, duck fat smashed potatoes, Ichi Ban cocktails, pork inihaw, and more. *mmm... Manitoba* offers a thoughtfully nuanced, deliciously digestible, and wholly unique regional history that is sure to satisfy.

Towards an Eliasian Understanding of Food in the 21st Century John Lever,Jennifer Smith Maguire,Adrianna Kapek-Goodridge,2024-11-15 This edited volume serves as an overview and introduction to the conceptual apparatus of

Norbert Elias for newcomers, while also outlining current research within the Eliasian school of sociology. An Eliasian or figurational approach foregrounds process, is sensitive to long-term historical development and changing power relations and is methodologically diverse. Elias's work is now found across academic disciplines and this volume contains contributions by sociologists, anthropologists, business and management scholars, and those working at the interface of sociology and human geography. Instead of simply highlighting the distinctiveness of the school vis-à-vis other theoretical traditions, this volume outlines how Eliasian inspired work can contribute to important debates on the future of food across academic disciplines.

Proceedings of the 2nd Lawang Sewu International Symposium on Health Sciences: Nutrition (LSISHSN 2023) Kartika Nugraheni, Zahra Maharani Latrobdiba, Hersanti Sulistyaningrum, 2024-10-24 This is an open access book. Diet has a profound impact on human health especially in the development of diet-associated metabolic diseases, such as obesity, type 2 diabetes mellitus, dyslipidemia, and cardiovascular disease. Lifestyle modification, especially dietary managements, are the main therapeutic strategy for the prevention and treatment of metabolic diseases. The 2nd Lawang Sewu International Symposium 2023 on Health Science: Nutrition (LEWIS: Nutrition 2023) is an annual international symposium curated by the Institute of Research and Community Service, University of Muhammadiyah Semarang (UNIMUS). This year's symposium will be held virtually on the 30th November 2023 in UNIMUS, Semarang, Central java, Indonesia. LEWIS: Nutrition 2023 will bring together the expertise from academia, nutritionist, dietitian, under-and post graduate students to present and discuss the most recent development in the nutritional support in metabolic diseases and nutritional implications of dietary interventions. The conference program will feature main speakers, invitees, and oral presenters. Main symposium participants will be given certificates with credit points (SKP) from PERSATUAN AHLI GIZI INDONESIA (PERSAGI).

The Design Imperative Steven Chen, 2018-05-26 This book examines how to optimize design management processes in order to produce innovation within organizations. It first looks at how to harvest a culture of design and then examines topics specific to product and service design. Individual chapters provide anecdotes drawn from leading design-oriented firms, and best practices based on cutting-edge, scientific research. This book's unique blend of theory and application will offer students, scholars, and managers valuable insight on how organizations can revolutionize their design processes and leverage their approach to create groundbreaking products and services.

Disruptive Leadership Rich Kao, 2018-01-02 Disruptive leadership is a topic generating intense interest. Companies all over the world are trying to upend their industry through innovative products and services. Becoming a disruptive organization, however, is easier said than done. Even more difficult is being a company that continually disrupts. Is it possible to discern a code for how companies can achieve this? In this highly readable and engaging book, a disruptive leadership framework is proposed in which caring deeply is placed at the center of the model. By turning care into a focal

point, a triphasic model is proposed that moves from the personal sphere (individual), to the corporate arena (organizational), and then to the global stage (impact). Nine keys are identified along this path for how companies can realize organizational excellence. While care may seem like a soft concept in the rough and tumble world of business, it is argued how it is actually an inspired manner for providing direction, structure, and know-how that leads to powerful outcomes. Apple is profiled as a leading example of leveraging what is termed the technology of caring deeply. Other companies, such as Nike, IKEA, Zappos, Starbucks are also profiled. Finally, a leadership canvas is provided to help activate the lessons shared in the book.

Alcohol and Drugs in North America David M. Fahey, Jon S. Miller, 2013-08-27 Alcohol and drugs play a significant role in society, regardless of socioeconomic class. This encyclopedia looks at the history of all drugs in North America, including alcohol, tobacco, prescription drugs, cannabis, cocaine, heroin, methamphetamine, and even chocolate and caffeinated drinks. This two-volume encyclopedia provides accessibly written coverage on a wide range of topics, covering substances ranging from whiskey to peyote as well as related topics such as Mexican drug trafficking and societal effects caused by specific drugs. The entries also supply an excellent overview of the history of temperance movements in Canada and the United States; trends in alcohol consumption, its production, and its role in the economy; as well as alcohol's and drugs' roles in shaping national discourse, the creation of organizations for treatment and study, and legal responses. This resource includes primary documents and a bibliography offering important books, articles, and Internet sources related to

the topic.

Brands and the City Sonia Bookman,2017-12-14 From commercial retail environments to branded urban villages, brands are now a salient feature of contemporary cityscapes and are deeply entwined in people's everyday lives. Drawing on extensive empirical material and recent theoretical developments in the sociology of brands, this book explores the complex relationship between brands, consumption and urban life. Covering a range of brands and branding in the city, from themed retail stores to branded cultural quarters, it considers how brands provide new ways of mediating identities, lifestyles and social relations. At the same time, the book reveals how brands are bound up with forms of socio-spatial division and exclusion in the city, defining what kinds of practices, images or attitudes are acceptable in a particular place, constituting cultural boundaries that keep certain people and activities out. With attention throughout to the social and cultural implications of the presence of brands in urban space, *Brands and the City* examines how people engage with brands, and how brands shape urbanites' experiences and sense of self, society and space. An extensive exploration of the processes through which brands are integrated into cities, their effects on everyday experiences and their role in the policing and governance of urban space, this book will appeal to scholars across the social sciences with interests in urban studies, consumption and branding.

Routledge Handbook of Sustainable and Regenerative Food Systems Jessica Duncan,Michael Carolan,Johannes S.C. Wiskerke,2020-08-13 This handbook includes contributions from established and emerging scholars from around the world and draws on multiple approaches and subjects to explore the socio-economic, cultural, ecological, institutional, legal, and policy aspects of regenerative food practices. The future of food is uncertain. We are facing an overwhelming number of interconnected and complex challenges related to the ways we grow, distribute, access, eat, and dispose of food. Yet, there are stories of hope and opportunities for radical change towards food systems that enhance the ability of living things to co-evolve. Given this, activities and imaginaries looking to improve, rather than just sustain, communities and ecosystems are needed, as are fresh perspectives and new terminology. The Routledge Handbook of Sustainable and Regenerative Food Systems addresses this need. The chapters cover diverse practices, geographies, scales, and entry-points. They focus not only on the core requirements to deliver sustainable agriculture and food supply, but go beyond this to think about how these can also actively participate with social-ecological systems. The book is presented in an accessible way, with reflection questions meant to spark discussion and debate on how to transition to safe, just, and healthy food systems. Taken together, the chapters in this handbook highlight the consequences of current food practices and showcase the multiple ways that people are doing food differently. The Routledge Handbook of Sustainable and Regenerative Food Systems is essential reading for students and scholars interested in food systems, governance and practices, agroecology, rural sociology, and socio-

environmental studies.

Quality Determinants In Coffee Production Lucas Louzada Pereira, Taís Rizzo Moreira, 2020-12-11 Quality Determinants In Coffee Production presents a comprehensive overview of the main determinants of coffee quality during processing. Authored by members of the Laboratory for Analysis and Research in Coffee at the Federal Institute of Espírito Santo, the chapters in this text explain how coffee quality can be affected through each step of the main processing methods. The first section explores the history of coffee processing, covering how the processes and techniques of sensorial analysis have developed. The second section covers the evolution of these techniques and how various complexities can affect their use, plus the statistical tools that are used to increase test accuracy. Another section focuses on the relationship between fruit microbiology and coffee quality, promoting an understanding of how yeasts, fungi and bacteria effect the quality of coffee during processing. Another section is dedicated to the biotechnological processes used in coffee production, including the applicability of induced and spontaneous routes from the manipulation of raw material, the relationship between wet processing and spontaneous fermentation and the construction of sensorial routes. A final section explores volatile coffee compounds and gas chromatography techniques, including chemical and sensory maps. The majority of the reference works published on coffee processing have a pragmatic approach covering production, harvesting, post-harvesting and marketing. This work goes beyond these subjects, covering the factors that impact quality and how they lead to either qualitative reduction or gains during processing. New technological and scientific indicators for the modification and the creation of sensory routes are extensively covered, as are the international protocols used in the sensorial analysis of coffee. With its broad approach, this text presents a multidisciplinary perspective connecting areas such as statistics, biochemistry, analytical chemistry and microbiology to the results of sensory analysis using different technologies and processes. A direct relationship between these factors is established in order to help researchers understand their combined effect on coffee quality during processing.

Handbook of Recent Advances in Commodity and Financial Modeling Giorgio Consigli,Silvana Stefani,Giovanni Zambruno,2017-09-30 This handbook includes contributions related to optimization, pricing and valuation problems, risk modeling and decision making problems arising in global financial and commodity markets from the perspective of Operations Research and Management Science. The book is structured in three parts, emphasizing common methodological approaches arising in the areas of interest: - Part I: Optimization techniques - Part II: Pricing and Valuation - Part III: Risk Modeling The book presents to a wide community of Academics and Practitioners a selection of theoretical and applied contributions on topics that have recently attracted increasing interest in commodity and financial markets. Within a structure based on the three parts, it presents recent state-of-the-art and original works related to: - The adoption of multi-criteria and dynamic optimization approaches in financial and insurance markets in presence of market stress and growing systemic risk; - Decision paradigms, based on behavioral finance or factor-based, or more classical stochastic optimization techniques, applied to portfolio selection problems including new asset classes such as alternative investments; - Risk measurement methodologies, including model risk assessment, recently applied to energy spot and future markets and new risk measures recently proposed to evaluate risk-reward trade-offs in global financial and commodity markets; and derivatives portfolio hedging and pricing methods recently put forward in the financial community in the aftermath of the global financial crisis.

Brewing Sustainability in the Coffee and Tea Industries Alissa Bilfield,2022-04-24 This book focuses on the often intertwined industries of coffee and tea, using accounts of single producer communities to highlight the transformation from plantation-style colonial agriculture towards systems that now claim to produce social and environmental benefits from the farm to the cup. Focusing on the dynamics of farmers' experiences producing coffee and tea ethically and sustainably at origin, the book shows how these values are transmitted and reinforced throughout the value chain. Exploring tandem case studies of fair trade cooperatives in Guatemala and Sri Lanka, it provides an insight into the creation of more sustainable

value chains from producer to consumer in the global marketplace, incorporating the perspectives of coffee exporters, importers, roasters, and café owners. This book is focused on the prospects of the specialty movement in food as a catalyst for forging more authentic, just, and sustainable supply chains that consider both people and the environment. This book will be of great interest to students and scholars of food and agriculture, sustainable food systems and supply chains, the fair trade movement, sustainable development, and social entrepreneurship and social innovation.

Reconceptualizing Language Norms in Multilingual Contexts Jones, Sarah, Schmor, Rebecca, Kerekes, Julie, 2023-12-21
With cultural and linguistic diversity, migration, and constant change as defining features of contemporary societies, it is increasingly necessary to enhance our capabilities within multilingual environments. *Reconceptualizing Language Norms in Multilingual Contexts* offers a groundbreaking exploration of language practices and norms in the diverse and dynamic world we inhabit today. It challenges the traditional understanding of language norms as stable and stationary. Instead, it embraces multiculturalism and multilingualism as the norm rather than the exception. Drawing upon a wide range of methodological approaches, this book brings together a collection of position papers, critical reflections, and explorations by emerging and established voices in the field. It delves into how language norms emerge, evolve, and shape communication in both collective and individual contexts of diversity. By reconceptualizing language norms, this book sheds light on real and relevant language practices in multilingual and multicultural spaces, offering insights from the people who inhabit and navigate these contexts. While the content of this book revolves around everyday communication, its academic approaches and comprehensive exploration make it a valuable resource for graduate students, educators, and researchers in the fields of multilingualism and applied linguistics. By bridging the gap between language norms and multilingualism, this book seeks to advance our understanding of language practices in the increasingly interconnected and diverse world.
