Journalism: Critical Issues Allan, Stuart,2005-01-01 Over the years it has been frequently remarked that journalism is at a crossroads - indeed so often that it risks sounding somewhat clichéd - yet there is every indication that its very forms, practices and institutions are being decisively transformed, with startling implications. Accordingly, the principal aim of this book is to help provide the basis for new dialogues to emerge regarding journalism today, as well as about where it may be heading tomorrow. Journalism: Critical Issues poses a series of important questions afresh, questions deserving of much greater attention than they have typically received to date. Each of the contributors seeks to challenge conventional ways of thinking about the 'critical issue' at stake in their respective chapter. In so doing, it is their intention to further our understanding, but also to encourage future explorations with the potential to revitalise journalism studies. In adopting this approach, it is hoped that the book will make for a lively, argumentative (in the best sense of the word) and engaging intervention.

Foreign Aid and Journalism in the Global South Jairo Lugo-Ocando,2020-09-28 Foreign Aid and Journalism in the Global South: A Mouthpiece for Truth examines the way in which foreign aid has shaped professional ideologies of journalism as part of systematic and orchestrated efforts since the beginning of the twentieth century to shape journalism as a political institution of the Global South. Foreign aid pushed for cultural convergence around a set of ideologies as a way of exporting ideology and expanding markets, reflecting the market society along with the expansion of U.S. power and culture across the globe. Jairo Lugo-Ocando argues that these policies were not confined to the Cold War and were not a purely modern phenomenon; today's journalism grammar was not invented in one place and spread to the rest, but was instead a forced colonial and post-colonial nation-building exercise that reflected both imposition and contestation to these attempts. As a result, Lugo-Ocando claims, journalism grammar and ideology differ between societies in the Global South, regardless of claims of universality. Scholars of journalism, international relations, Latin American Studies, and history will find this book particularly useful.

Investigative Journalism in Changing Times Caryn Coatney, 2022-12-30 This book offers new insights into the crucial role of investigative journalism at a pivotal time of technological changes and upheavals. It surveys innovations and unexpected impacts of the field, from past and present challenges and what may be in store for the future of the industry. The book begins by exploring the increasingly investigative innovations in political and independent reporting, along with a comparison of the rhetoric and reality of a so-called golden era of investigative journalism in the past and the present. It goes on to analyse the growth of creative and sports investigative reporting, as well as the ability of contemporary conflict journalism to overcome surmounting challenges. It also examines the capacity of groundbreaking investigations, including data reporting, to expose injustices involving women, indigenous communities and other minorities. In interviews with key industry and research professionals, this book presents the reactions of four media experts to the crises faced by investigative journalism in a digital environment of escalating disinformation, legal restrictions and popular interest in the news. The book concludes by reflecting on previous and current challenges and offers insights into the prospect for investigative journalism of the future. Presenting unique views on the diversity, resilience and transformative power of investigative journalism, this book will be a valuable resource to students and scholars of journalism, communication, media and politics, as well as professionals already operating within the field of journalism.

Insights on Literary Journalism Kevin M. Lerner, 2024-12-30 Bringing together ten chapters by some of the most important scholars of literary journalism around the world, this book covers a range of topics that are key to understanding the role of literary journalism as both a practice and a topic of academic study. Beginning with an introduction that situates literary journalism in its historical context, the chapters go on to address the basic definitional problem of literary journalism; the rhetorical strategies of literary journalists; the negotiated roles of subjects and storytellers; gender; geography; the role of literary journalism in fostering the public imagination; and the role of literary journalism in education. The chapters draw on contemporary and relatable case studies, which help readers link broader themes with their practical applications. This volume concludes with an Afterword by Bill Reynolds, editor of *Literary Journalism Studies*, which reflects on the preceding chapters and critically on the direction in which the field is heading in the near future. *Insights on Literary Journalism* is highly recommended reading for advanced scholars and researchers of Literary Journalism as well as Literature and Media History.

The Future of Journalism: Developments and Debates Bob Franklin, 2015-09-25 *The Future of Journalism: Developments and Debates* analyses the radical shifts in journalism which are changing every aspect of the gathering, reporting and reception of news. The drivers of these changes include the rapid innovations in communication technologies, the competitive and fragmenting markets for audiences and advertising revenues, and the collapse of traditional business models for financing media organisations, as well as changing audience requirements for news, the ways in which it is presented and

the expansive number of (increasingly mobile) devices on which it is produced and consumed. Each of these trends has significant implications for journalists - for their jobs, workplaces, products and perceptions of their professional roles, ethical judgements and day-to-day practice. They also pose significant challenges for the future funding of a sustainable, critical and high 'quality' democratic journalism. The Future of Journalism: Developments and Debates comprises the research-based responses of distinguished academic specialists and professional journalists to the challenging issues involved in assessing the future of journalism. It is essential reading for everyone interested in the changing role of journalism in the economic, democratic and cultural life of communities locally, nationally and globally. This book was originally published as two special issues of Journalism Studies and Journalism Practice.

Journalism History and Digital Archives Henrik Bødker,2020-12-17 This book showcases various ways in which digital archives allow for new approaches to journalism history. The chapters in this book were selected based on three overall objectives: 1) research that highlights specific concerns within journalism history through digital archives; 2) discussions of digital methodologies, as well as specific applications, that are accessible for journalism scholars with no prior experiences with such approaches; and 3) that journalism history and digital archives are connected in other ways than through specific methods, i.e., that the connection raises larger questions of historiography and power. The contributions address cases and developments in Asia, South and North America and Europe; and range from long-range, big-data, machine-learning and topic modelling studies of journalistic characteristics and meta-journalistic discourses to critiques of archival practices and access in relation to gender, social movements and poverty. The chapters in this book were originally published as a special issue of Digital Journalism.

Distorting Defense Stephen P. Aubin,1998-11-30 Using journalists' own standards as the measure, an exhaustive analysis of nearly 3000 network news reports from the Reagan, Bush, and Clinton administrations reveals that the networks may do more to misinform than inform on a whole range of complex issues related to national defense. This study paints a disturbing picture of the inadequate coverage ABC World News Tonight, CBS Evening News, and NBC Nightly News provide to millions of viewers each night. Aubin concludes that network coverage of defense issues was too often tainted by preconceived attitudes and lapses in journalistic standards. While as much as twenty-five cents of every dollar went to the defense budget during some of the periods reviewed, the networks hardly covered the key issues surrounding the Reagan defense buildup or the dramatic cuts that followed the end of the Cold War. In addition to their inadequate coverage, the networks also deprived Americans of balanced coverage of the investments made in high-tech weapons that ultimately prevailed in the Gulf War. Though the networks receive good marks for foreign policy coverage, they need to improve the quality of defense reports. This book provides them with the lessons and prescriptions for doing so, and it serves as a primer for all Americans who want

to know just what it was that the networks failed to tell them.

Binge TV Emil Steiner, 2023-03-20 For the first 70 years of television, broadcasters dictated the terms of the viewing experience, deciding not only when but how much of a program an audience could watch. Binge-watching destroyed that model by placing control of the experience in the hands of the viewer. In this book, media scholar Emil Steiner chronicles the technological and cultural struggle between broadcasters and viewers, which reached a climax in the early 2010s with the emergence of streaming video platforms. Through extensive interviews and archival research, this groundbreaking project traces the history of binge-watching from its idiot box roots to the new normal of Peak TV. Along the way, Steiner exposes the news campaigns waged by disruptive technology companies that exploited a long-simmering, revolutionary narrative of viewer empowerment to take over the broadcast industry. Binge-watching, an individual's act of gaining control and losing control through the remote control, exposed a debate that had been raging since the first TV set was turned on--one that asks, Who controls the story?

Social Networking Anastacia Kurylo, Tatyana Dumova, 2016-03-04 Social Networking: Redefining Communication in the Digital Age fulfills a pressing demand in social network literature by bringing together international experts from the fields of communication, new media technologies, marketing and advertising, public relations and journalism, business, and education. In this volume contributors trace online social networking practices across national borders, cultural confines, and geographic limits. The book delves into the socioeconomic, political, cultural, and professional dimensions of social networking around the globe, and explores the similarities, distinctions, and specific characteristics of social media networks in diverse settings. The chapters offer an important contribution to the scholarly research on the uses and applications of online social networking around the world and pertain to a broad range of academic fields. Overall, the volume addresses a subject matter of keen interest to academics and practitioners alike and provides a much-needed forum for sharing innovative research practices and exchanging new ideas.

Australian Studies in Journalism, 2001

RTNDA Communicator, 1997

American Literary Journalists, 1945-1995 Arthur Jesse Kaul, 1997 Essays on American literary journalists whose writings appeared from 1945 to 1995. During this period, literary journalists and novelists-turned-journalists produced nonfiction writing of enduring aesthetic, cultural and political significance, reshaping the contours of contemporary American letters. These journalists achieved a notoriety and status in literature, winning major journalism and literary prizes.

Words of Fire Anthony C. Collings, 2001-06-01 If journalism is the first draft of history, then independent journalists are surely its most daring composers. Along such celebrated and high-profile figures as Christiane Amanpour and Wolf Blitzer, there exists a stratum of journalists self-employed, working under dire conditions, and with minimal resources who often

place themselves at ground zero of world events. In this gripping account, Anthony Collings takes us into the world of independent journalists, and the daily challenges they face confronting dictators, hostile military, and narcoterrorists. Unfettered by any ties to those in positions of power, these guerrilla journalists are often the first on a story whether reporting on corruption in Mexico, organized crime in Russia, or sexual scandal in the Middle East and accordingly face the brunt of their subject's wrath. Collings, who has himself been held captive while on assignment, here focuses less on those nations in which the press is either largely free (such as the U.S. or Western European democracies) or aggressively restricted (as in China), and more on those battleground countries where the eventual outcome of the struggle between state and fourth estate remains unclear. Relying on interviews, professional contacts, and his own experiences, Collings explores the dilemmas and strategies of journalists who persevere in the face of war, repressive governments, and criminal aggression, with particular emphasis on the role of the Internet. At a time when journalism is increasingly a profession under siege, *Words of Fire* forces into the spotlight a more positive side of the profession, those who pursue journalism not for profit or fame but as a personal crusade.

Nuclear Times, 1987-09

Systemic Islamophobia in Canada Anver M. Emon, 2023-04-28 *Systemic Islamophobia in Canada* presents critical perspectives on systemic Islamophobia in Canadian politics, law, and society, and maps areas for future research and inquiry. The authors consist of both scholars and professionals who encounter in the ordinary course of their work the – sometimes banal, sometimes surprising – operation of systemic Islamophobia. Centring the lived realities of Muslims primarily in Canada, but internationally as well, the contributors identify the limits of democratic accountability in the operation of our shared institutions of government. Intended as a guide, the volume identifies important points of consideration that have systemic implications for whether, how, and under what conditions Islamophobia is enabled and perpetuated, and in some cases even rendered respectable policy or bureaucratic practice in Canada. Ultimately, *Systemic Islamophobia in Canada* identifies a range of systemically Islamophobic sites in Canada to guide citizens and policymakers in fulfilling the promise of an inclusive democratic Canada.
