*Spy School* Denis Bukin, 2018-09-18 Learn the secrets to a vastly improved memory and see if you have what it takes to be a Russian spy in this found KGB manual--a #1 bestseller in Russia. When most people think of the word spy, they imagine gadgets - laser pens and exploding cigarette lighters - but the most important piece of equipment an agent has is their brain. Memory is vital to the work of an agent. The need for total secrecy often prevents them from recording anything, so operatives have to rely on their brains to retain and reproduce an incredible amount of information with absolute accuracy. Inside this book we will teach you how to enhance your memory and sharpen your mind with a range of exercises developed over many years and used to train the most skillful spies the world has ever seen. You will develop skills tested in the most extreme of environments and unlock the full capability of your brain. Full of puzzles, tests, tricks and brain hacks, all interspersed with a cold war spy story, the Russian bestselling phenomenon *Spy School* is now translated into English for the first time.

Spy School Revolution Stuart Gibbs, 2021-08-31 With SPYDER defeated, Ben Ripley is looking forward to his life getting back to normal, or as normal as possible when you're a superspy in training. For once, everything seems to be right in Ben's world...until someone bombs the CIA conference room next door. To Ben's astonishment, the attacker is none other than Erica Hale, the spy-in-training he respects more than any other. Ben refuses to believe Erica is working for the enemy...even

if the rest of the CIA does. His mission: prove Erica is not a double agent working against the US, locate the fabled colonial-era insurgent group that's blackmailing her, figure out what their devious plot is, and thwart it. But this time, Ben finds himself up against opponents he has never encountered before: his own friends. They're not as ready to trust in Erica as he is, and Ben is forced to rely on his own wits and skills more than ever before. How can he succeed when he doesn't even know who he can trust?--
