Steal Like An Artist Austin Kleon, 2015-10-08 Siapa bilang mencuri itu buruk? Mencuri adalah keharusan! Tak Percaya? Orang-orang hebat sudah membuktikannya. Bintang basket Kobe Bryant mengaku bahwa semua gerakannya di lapangan dia curi dari para idolanya. Untuk menciptakan komputer Mac, Steve Jobs mencuri ide dari Xerox. Beatles awalnya adalah band yang menyanyikan lagu-lagu penyanyi lain. Tak ada yang orisinal. Semua kreasi berasal dari sesuatu yang pernah ada. Dan kreativitas tidak pernah lahir begitu saja, butuh proses juga perlu diasah. Mencuri ide adalah awal menumbuhkannya. Kreatif adalah melihat dari sudut pandang berbeda. Kreatif adalah mampu menyiasati keterbatasan. Kreatif adalah menemukan solusi terbaik dari permasalahan. Buku ini mengembangkan kreativitasmu, siapa pun kamu, dalam bidang apa pun kamu berkarya. Postmodern Artists Amanda Vink, 2018-12-15 Postmodern art emerged in the late 1960s following a time period when art had been defined by superstars like Pablo Picasso and Salvador Dalí. Rejecting the idea of art being exclusive to professionals, artists who emerged during the postmodern era believed anyone could be an artist and anything could be art. Through exciting main text featuring annotated quotes from experts, detailed sidebars, and examples of postmodern art, readers explore how the foundations of art were challenged by postmodern artists such as Andy Warhol and Barbara Kruger and also how their work still impacts today's art world.

The Human Edge Greg Orme, 2019-11-15 The world is spinning so fast it's difficult to keep up. Two hundred and fifty years ago the Industrial Revolution replaced our arms and legs at work. The fourth Industrial Revolution is now replacing our brains. This technological shift is engulfing organisations and people. It's challenging the very essence of what it means to be human. Daily news headlines pose existential questions that used to belong in the pages of science fiction: Will a machine take my job? Are we becoming cyborgs? What happens when super computers become self-aware? If we can't compete with artificial intelligence, what's left? Innovation guru Greg Orme provides a helpful, funny and supportive shove in the right direction. He explores the skills you need to survive and thrive in a world of artificial intelligence. He urges you to stop competing, and instead do things machines can't. To become a more human, human. This is a practical toolkit to master three intrinsically human 'super powers': 1. To ignite your innate CURIOSITY in a world of accelerating change... 2. To rediscover your CREATIVITY to produce an avalanche of game-changing ideas... 3. To develop CONNECTIVITY to kindle the passion, persistence and insights to successfully engage fellow humans to turn human creativity into business innovation. These career-enhancing capabilities have been identified in Orme's work with business managers and organisations across the globe. They draw upon the latest psychological and neuroscience research, the unique philosophies of successful entrepreneurs, the practises of the world's most innovative companies, as well as the habits of great artists, designers and scientists. Teaching in a Networked Classroom Jonathan Savage, Clive McGoun, 2015-06-05 The pace of technological change has made the immediate and long-term future difficult, if not impossible, to predict. Teachers are forced to imagine the world they are preparing their students to live in. In this situation creativity becomes a vital resource for enabling uncertain futures to be embraced and an important attribute for students to have both for their learning and their employability in the future. In this book, the authors argue that creativity is a social and collaborative process that can be enhanced through online and digital technologies. Filled with case studies and practical tasks, it shows teachers how they can develop an approach to teaching and learning with digital technologies that is inherently social, collaborative and creative. Including case studies and practical examples of projects and lessons throughout, the chapters cover: Learning in a networked society An examination of sharing practices and how knowledge can be shared more effectively Potential pitfalls of virtual learning environments and public social networking sites Using digital media to plan schemes of work and lessons How to facilitate meaningful collaboration and discussion through digital media Creating online environments to enable students to share their understandings and learning Bringing together key ideas about creativity, collaborative learning and ICT in the classroom, this timely book will be an invaluable resource for all teachers.

Show Your Work! Austin Kleon, 2014-03-06 In his New York Times bestseller *Steal Like an Artist*, Austin Kleon showed readers how to unlock their creativity by “stealing” from the community of other movers and shakers. Now, in an even more forward-thinking and necessary book, he shows how to take that critical next step on a creative journey—getting known. *Show Your Work!* is about why generosity trumps genius. It’s about getting findable, about using the network instead of wasting time “networking.” It’s not self-promotion, it’s self-discovery—let others into your process, then let them steal from you. Filled with illustrations, quotes, stories, and examples, *Show Your Work!* offers ten transformative rules for being open, generous, brave, productive. In chapters such as *You Don’t Have to Be a Genius*; *Share Something Small Every Day*; and *Stick Around*, Kleon creates a user’s manual for embracing the communal nature of creativity— what he calls the “ecology of talent.” From broader life lessons about work (you can’t find your voice if you don’t use it) to the etiquette of sharing—and the dangers of oversharing—to the practicalities of Internet life (build a good domain name; give credit when credit is due), it’s an inspiring manifesto for succeeding as any kind of artist or entrepreneur in the digital age.

Stealing Sisi's Star Jennifer Bowers Bahney, 2015-06-08 While on honeymoon in Vienna in June of 1998, at the height of the tourist season, Gerald Daniel Blanchard, an accomplished thief, happened upon the greatest challenge of his life when he spotted the last remaining Sisi Star on display in Schonbrunn Palace. Named after its former owner, the Empress Elisabeth,

the ten-pointed diamond and pearl star was originally one of 27 that the enigmatic Sisi wore in her extravagantly long hair. Despite the multi-layered security system protecting the priceless jewel, Blanchard decided then and there to steal it. The star remained missing for nine years until a team of Canadian police investigators launched a joint task force to bring down a criminal organization that had robbed banks, stores and ordinary citizens on several continents. When their chief suspect offered to reveal the whereabouts of the Sisi Star, the investigators realized they were dealing with no ordinary thief. But no one involved in the case fully understood the history of the star, its ties to obsession, suicide and assassination.

Stealing History Colleen Margaret Clarke, Eli Jacob Szydlo, 2017-04-17 When compared to terrorism, drugs and violent crimes that occupy the news today art is not considered as important. But, as it turns out, art and cultural crime is currently ranked as the third-largest criminal enterprise in the world. What exactly is art crime? Why does art matter? And what is law enforcement doing to prevent this crime today? Due to the misleading portrayal of art crime in the entertainment industry people have the flawed belief that art and cultural crime doesn't damage anyone in a direct way. And the truth of the matter is that this crime results in the loss of billions of dollars annually. Art and cultural crime is not simply focused on museums or private displays, the loss of art directly affects our cultural identity and history. Napoleon moved from one region to the next collecting art and sending as much as possible back to France. The Nazis looted cultural property from every territory they occupied. And there have been various cases of ISIL and ISIS destroying archaeological sites as a method of destroying any evidence of past culture or history that disagree with their own. With the United States being the largest market for both legal and illicit artwork in the world more preventative attention from law enforcement and security is needed for our country to meet international standards and end detrimental art crimes. In *Stealing History*, Colleen Clarke and Eli J. Szydlo look at the history behind art crime, how these crimes have grown over the last half century, and what law enforcement has been involved in protecting the world from these crimes.

Keep Going Austin Kleon, 2019-04-02 *Keep Working. Keep Playing. Keep Creating.* In his previous books *Steal Like an Artist* and *Show Your Work!*, both New York Times bestsellers, Austin Kleon gave readers the keys to unlock their creativity and showed them how to become known. Now he offers his most inspiring work yet, with ten simple rules for how to stay creative, focused, and true to yourself—for life. The creative life is not a linear journey to a finish line, it's a loop—so find a daily routine, because today is the only day that matters. Disconnect from the world to connect with yourself—sometimes you just have to switch into airplane mode. *Keep Going* celebrates getting outdoors and taking a walk (as director Ingmar Bergman told his daughter, "The demons hate fresh air"). Pay attention, and especially pay attention to what you pay attention to. Worry less about getting things done, and more about the worth of what you're doing. Instead of focusing on

making your mark, work to leave things better than you found them. Keep Going and its timeless, practical, and ethical principles are for anyone trying to sustain a meaningful and productive life.

A thief in Cannes: Stealing Şerif Gören's Palme d'Or Tayfun Luxembourgeois, 2023-09-18 The film *Yol* (The Road) is a landmark in Türkiye's cinema history, not only because it shared the Palme d'Or with *Missing* by Greek-born French director Konstantinos Gavras at the 35th Cannes Film Festival in 1982, but also because it was the first film from Türkiye to receive the highly prestigious Golden Palm. Şerif Gören directed the film, but the award was given to Yılmaz Güney (Pütün), the screenwriter and one of the editors of the film, who was present at the festival. The award was given to Güney, not on behalf of Şerif Gören, but instead of the film's director, and *The Road* was publicised both at the festival and in the following period as "a Yılmaz Güney film". Even today, many popular or academic publications, including the official website of the Cannes Film Festival, credit Güney as the director of the film, despite his imprisonment during the entire preparation and shooting process. Strikingly, in the majority of these sources, the name of the film's real director, Şerif Gören, is either not mentioned at all or is given after Güney's in small letters. This study hopes to correct several (film) historical records as well as a historical injustice against Gören. I also hope that this text will inspire Şerif Gören to break his silence, the reason of which I cannot understand, and allow us to learn new things about one of the most important filmmakers in Türkiye's cinema and his films through a dialogue or discussion environment that can ensue.

Research Handbook on Art and Law Jani McCutcheon, Fiona McGaughey, 2020-01-31 Featuring international contributions from leading and emerging scholars, this innovative Research Handbook presents a panoramic view of how law sees visual art, and how visual art sees law. It resists the conventional approach to art and law as inherently dissonant – one a discipline preoccupied with rationality, certainty and objectivity; the other a creative enterprise ensconced in the imaginary and inviting multiple, unique and subjective interpretations. Blending these two distinct disciplines, this unique Research Handbook bridges the gap between art and law.

Muslim Voices in School , 2009-01-01 This book is a collection of readable, accessible, compelling, varied, voiced, passionate, real, textured, multi-faceted, hybrid, fearless, fearful, cautious, bold, modest, and inspired accounts of living Islam in relation to mainstream schooling in the West. The book helps to make the diverse experiences of Muslim students (from elementary through university, student through professor) both contextual and complex. The politics and education about Islam, Muslims, Arabs, Turks, Iranians and all that is associated with the West's popular imagination of the monolithic "Middle-East" has long been framed within problematics. The goal of this book is to push back against the reductive

mainstream narratives told about Muslim and Middle Eastern heritage students for generations if not centuries, in mainstream schools. The chapters are each authored by Muslim-acculturated scholars. This book will be of interest to teachers, administrators, students and scholars. As well, the content is suited to fields of study including ethnic studies, critical multicultural education, anti-oppression approaches to education, curriculum studies, social issues in education, social contexts of education, and qualitative research in education. WINNER! of the National Association for Multicultural Education's 2010 Philip C. Chinn book award!

Duchamp Is My Lawyer Kenneth Goldsmith, 2020-07-28 In 1996, during the relatively early days of the web, Kenneth Goldsmith created UbuWeb to post hard-to-find works of concrete poetry. What started out as a site to share works from a relatively obscure literary movement grew into an essential archive of twentieth- and twenty-first-century avant-garde and experimental literature, film, and music. Visitors around the world now have access to both obscure and canonical works, from artists such as Kara Walker, Yoko Ono, Pauline Oliveros, Samuel Beckett, Marcel Duchamp, Cecil Taylor, Glenn Ligon, William Burroughs, and Jean-Luc Godard. In *Duchamp Is My Lawyer*, Goldsmith tells the history of UbuWeb, explaining the motivations behind its creation and how artistic works are archived, consumed, and distributed online. Based on his own experiences and interviews with a variety of experts, Goldsmith describes how the site navigates issues of copyright and the ways that UbuWeb challenges familiar configurations and histories of the avant-garde. The book also portrays the growth of other "shadow libraries" and includes a section on the artists whose works reflect the aims, aesthetics, and ethos of UbuWeb. Goldsmith concludes by contrasting UbuWeb's commitment to the free-culture movement and giving access to a wide range of artistic works with today's gatekeepers of algorithmic culture, such as Netflix, Amazon, and Spotify.
