SoulStirrers H. Ike Okafor-Newsum, 2016-01-19 In *SoulStirrers*, H. Ike Okafor-Newsum describes the birth and development of an artistic movement in Cincinnati, Ohio, identified with the Neo-Ancestral impulse. The Neo-Ancestral impulse emerges as an extension of the Harlem Renaissance, the Negritude Movement, and the Black Arts Movement, all of which sought to re-represent the “primitive” and “savage” Black and African in new terms. Central to the dominant racial framework has always been the conception that the Black subject was not only inferior, but indeed incapable of producing art. The Neo-Ancestral impulse posed a challenge to both existing form and content. Like its intellectual antecedents, the movement did not separate art from life and raised a central question, one that the “soul stirrers” of Cincinnati are engaging in their artistic productions. Okafor-Newsum defines collapsing of the sacred and the profane as a central tendency of African aesthetics, transformed and rearticulated here in the Americas. In this volume, the artistic productions ask readers to consider the role of those creating and viewing this art by attempting to shift the way in which we view the ordinary. The works of these artists, therefore, are not only about the survival of African-derived cultural forms, though such remains a central effect of them. These extraordinary pieces, installations, and movements consistently refer to the cultural reality of the Americas and the need for political and intellectual transformation. They constitute important intellectual interventions that serve as indispensable elements in the redefinition and reinterpretation of our society. Featuring numerous color illustrations and profiles of artists, this volume reveals exciting trends in African American art and in the African diaspora more broadly.

Sowing Kees Mandemakers, George Alter, Hélène Vézina, Paul Puschmann, 2023-08-29 Twenty-three major databases containing historical longitudinal population data are presented and discussed in this volume, focusing on their aims, content, design, and structure. Some of these databases are based on pure longitudinal sources, such as population registers that continuously observe and record demographic events, including migration and family and household composition. Other databases are family reconstitutions, based on birth, marriage and death records. The third and last category consists of semi-longitudinal databases, that combine, for instance, civil records and censuses and/ or tax registers. The volume traces the origins of historical longitudinal databases from the 1970s and discusses their expansion worldwide, in terms of sources and hard- and software. The contributions highlight the unique genesis and common developmental arcs of these databases, which are rooted in the fields of quantitative history, social and demographic history, and the history of ordinary people. The importance of these databases in advancing knowledge and insights in various disciplines is emphasized and demonstrated, along with the challenges and opportunities they face. The collection of technical descriptions of these databases represents

the most comprehensive and up-to-date overview of large database with longitudinal micro-data on historical populations. Accompanying her are Ranger Wyatt Ellison, former student and friend, and Dr. Nicholas Darden, volcanologist and former lover. More than just a volcano is heating up. Amid personal conflict, earthquakes uprooting the land, and poison gases killing wildlife, Kyle finds herself in the unenviable position of convincing park officials to evacuate Yellowstone before tens of thousands of people die. As the earth shudders, Kyle must defeat her darkest terror simply to survive. In *Lake of Fire*, Yellowstone National Park provides the setting for love and adventure as a young Indian attempts to hide his heritage and adopt the life of a businessman, while an heiress traveling from Chicago conceals her wealthy background. *Aprician Files* Gregory W. Rivers,2025-03-06 Many ages ago, in a far off galaxy the Aprician Star People faced extinction as their sun began to die, threatening their twelve-planet system. In desperation, Master Nuri, the leader of the Council of Twelve, sent renowned explorer Girin to find a new home. His expedition ventured beyond their known universe and led them to Earth. Girin commanded a fleet of ships that interconnected to form the main vessel, each representing a different planet of Apricus. Their arrival unleashed unforeseen dangers. Some crew members, seduced by a dark, sinister energy, sought to spread chaos throughout human history. Yet, time and again, those with pure, untainted energy rose to oppose them, restoring fragile peace to the land—until the cycle began anew. Now, in the 1960s, a new group driven by dark energy has emerged, and they are seeking Earth's ultimate power: the UTU, the source of the Sun's lifegiving energy. Their goal? Is to enslave humanity and destroy the planet and claim dominion. Girin, now a metamorphic guardian of Earth's enlightenment, assumes the form of a military enlisted man who is assigned to the investigative team into the UTU, hoping to stop the dark energy. But can he stand alone against a force fueled by hatred, destruction, and unrelenting malevolence? Blending mysticism, martial arts, and a gripping battle between light and darkness, *Aprician Files* is the thrilling prequel to *Zeke*, the first installment in the *Ezekiel Reeves* series.
