Issues in Science and Theology: What is Life? Dirk Evers, Michael Fuller, Antje Jackelén, Knut-Willy Sæther, 2015-06-03

This book explores the concept of Life from a range of perspectives. Divided into three parts, it first examines the concept of Life from physics to biology. It then presents insights on the concept from the perspectives of philosophy, theology, and ethics. The book concludes with chapters on the hermeneutics of Life, and pays special attention to the Biosemiotics approach to the concept. The question 'What is Life?' has been deliberated by the greatest minds throughout human history. Life as we know it is not a substance or fundamental property, but a complex process. It is not an easy task to develop an unequivocal approach towards Life combining scientific, semiotic, philosophical, theological, and ethical perspectives. In its combination of these perspectives, and its wide-ranging scope, this book opens up levels and identifies issues which can serve as intersections for meaningful interdisciplinary discussions of Life in its different aspects. The book includes the four plenary lectures and selected, revised and extended papers from workshops of the 14th European Conference on Science and Theology (ECST XIV) held in Tartu, Estonia, April 2012.

What Is Theology? Michael Horton, 2012-06-12 Every seminary in the world offers classes on Christian theology, but what at its core is theology? Is it a practical or theoretical discipline? Is it centrally a matter of faith or of reason? What are its proper means and ends? Derived from Michael Horton's recently released *The Christian Faith*, already one of the most significant systematic theologies of the past 50 years, this digital short explores the discipline of theology through the lens of philosophy, Scripture, ministry, and the church, laying a foundation for pursuing theology as hearing, wisdom, understanding, and more. "Theology serves the function of articulating the identity of this God so that he may be properly invoked," Horton writes. This short work constructs a conceptual framework for pastors, theologians, and students wanting to think more deeply about the foundational discipline of Christian thought and practice.

Derrida and Negative Theology Professor Harold Coward, Harold G. Coward, Toby Foshay, Jacques Derrida, 1992-01-01 This book explores the thought of Jacques Derrida as it relates to the tradition of apophatic thought--negative theology and philosophy--in both Western and Eastern traditions. Following the Introduction by Toby Foshay, two of Derrida's essays on negative theology, *Of an Apocalyptic Tone Newly Adopted in Philosophy* and *How to Avoid Speaking: Denials*, are reprinted here. These are followed by essays from a Western perspective by Mark C. Taylor and Michel Despland, and essays from an

Eastern perspective by David Loy, a Buddhist, and Harold Coward, a Hindu. In the Conclusion, Jacques Derrida responds to these discussions.

Philosophy and Catholic Theology Philip A. Egan, 2017-06-15 This short book offers a survey of recent philosophy and how its different patterns of thought have influenced Catholic theologians. Rooted in the questions raised by Vatican I and the directions pointed by Vatican II, *Philosophy and Catholic Theology* shows how theology has developed over the past two centuries and how it builds on the foundations philosophy has laid since the Middle Ages and the crises of the Reformation and the Enlightenment. The issue of the relationship between faith and reason, so acutely raised in those periods, cannot be addressed without some understanding of the sciences that examine those two fields: reason is the province of philosophy, and faith is the realm of theology. Once we have a grasp of philosophy and its questions, we are in a better position to understand theology. When we have a clear picture of both, we can see how theology has built on and been influenced by philosophy. And at that point we can begin to see how reason informs faith and how the two work together to yield knowledge of life's most profound realities. Philip A. Egan is a priest of the Diocese of Shrewsbury, England. He completed his doctoral studies at the University of Birmingham and specializes in the thought of John Henry Cardinal Newman and Bernard Lonergan, SJ. Until recently, he was the dean of studies and professor of foundational theology at St. Mary's College, Oscott.

Theology: A Very Short Introduction David Ford, 2013-10-24 This is an introduction to the subject of academic theology. Its basic approach is interrogative, raising key questions so as to lead into a range of selected topics such as knowledge community, salvation, God, prayer and evil.

Fundamental Theology Matthew L. Becker, 2024-01-25 Encyclopedic in scope, this book offers wide-ranging coverage of the foundational teachings and practices within the mainstream of the classical Christian tradition. It begins with their roots in the Scriptures, and also branches out into Eastern and Western Christianity, ancient, medieval, and modern, to the present-day. Part I provides an overview of some of these routes, then presents an historical survey of Christianity's major traditions. Part II unpacks some of the character of that revelation, focusing particularly on epistemological and procedural questions. Finally, Part III looks at Christian theology in a university setting: the possibility and shape of theology as a university discipline, its major subfields, and its relations with humanities and the sciences respectively. *Fundamental Theology: A Protestant Perspective*, 2nd edition, includes a wide range of pedagogical features: - each chapter begins with an outline thesis statement, highlighted in bold - charts and graphs - relevant headings and subheadings employed throughout the book - keywords - provides a survey of pertinent reference literature - questions for review and discussion - annotated suggestions for further reading

Theology and Migration Ilseup Ahn, 2019-08-26 In an age of global migration, how should Christian theologians and

church leaders respond to its various challenges and problems? What is a fundamental theological framework with which we are to engage in them? In this volume, Ilsup Ahn attempts to answer these questions by presenting a “Trinitarian theology of migration.” In doing so, he first provides an overview of recent theological works on migration by introducing their key theological insights. A Trinitarian theology of migration becomes possible as we begin to see that the three Sacred Persons (the Son, the Father, and the Holy Spirit) are distinctively, yet intrinsically involved with the phenomenon of human migration within God’s grand vision of liberation and redemption. From a Trinitarian theological perspective, in all stages of human migration from taking leave to getting integrated, migrants and citizens are called to join in God’s liberative and redemptive works for all the people of God.

Theological Interpretation of Scripture as Spiritual Formation, 2022-12-19 Academic expertise is essential. But have you ever wondered how it itself is spiritually formative? This book, coming from an interdisciplinary assortment of scholars, shows how the exegetical methods of Theological Interpretation of Scripture (TIS) are themselves spiritually formative. This book provides a diverse collection of essays that focus on theological interpretative methods that result in a unique transformational experience not achieved through historical-critical or grammatical-historical approaches alone. Renowned thinkers—such as biblical scholar Ben Witherington III, historical theologian Mark Elliott, and theologian Arthur Sutherland—offer new works that explore how reading theologically can transform theology, cultures, and individuals. These new studies focus on the theological exegesis of such thinkers as Mother Teresa, Thomas Aquinas, Ignatius of Antioch, and Clement of Alexandria. The collection also includes several important and timely pieces that show how theological interpretation leads to moral formation within diverse cultural groups including African American and Latinx communities.

What is Theology? Maurice F. Wiles, 1976 What is Christian theology? Is it, as some might claim, based on faith in such a way that it has no proper place alongside other academic disciplines? Or is it, as others might complain, about certain forms of it, so open an enquiry that it is liable to undermine the living reality of faith? The status of theology is what lies behind this book. It is not an outline of Christian theology or a handbook of Christian belief—but an account of the issues involved in its study. In the first half of the book these issues are approached from then inside, by looking at the way in which the various aspects of theology are studied—the Bible, Church history, doctrine, the philosophy of religion. The second half describes their relationship with other disciplines and shows how developments in the natural sciences, psychology, sociology, and history modify and inform the work of the theologian. - Publisher

Science and Religion J.W. Fennema, Paul Iain, 2012-12-06 The world is increasingly becoming . one. It is, at the same time, one endangered ecosystem and one thriving market place with material and spiritual goods on competitive display. And the good and evil things of life cannot easily be sorted out. The world is becoming one also in the sense that it is better understood today than it was in earlier times, that the material good and the spiritual good, though seemingly belonging to

different realms of fact defined by their respective modes of existence, together constitute effectively one and the same reality: the modern world of science, technology, computerized administration and power, that calls upon humankind to struggle for a 'just, participatory and sustainable society' *, and to strive for a society of the future that will be the world over both long-lived and worth living. The Second European Conference on Science and Religion, held on 10-13th. March, 1988, on the campus of the Universiteit Twente, Enschede, The Netherlands, was meant to be a modest market place, a forum, where standpoints and opinions could be presented and criticized. It was meant to offer an opportunity to meet and to make acquaintances in the expectation that the exchange of thoughts would lead to new conceptual horizons that would challenge what so far had been considered as hard fact or what until now had been looked upon as a distinctive feature of a well-established view either of the kingdom of the sciences or of the realm of religion.

Umunthu Theology: An Introduction Chingwala Musopole, 2021-12-31 What is the key to understanding in a truly Malawian way? After a lifetime's theological reflection the author finds the answer in the concept of uMunthu (personhood or human-ness). Drawing on Malawi's cultures and languages, the biblical text and the evangelical faith, he casts a theological vision that can be transformative for church and nation.

Research in the Social Scientific Study of Religion, Volume 11 Joanne Marie Greer, David O. Moberg, 2021-11-22 The purpose of this book is to provide an outlet for original research articles examining the role and value of religious and spiritual constructs across the social sciences. The aim of the series is to include an international and interfaith voice to this research dialogue. An effort is made to be interdisciplinary and academically eclectic. The articles in each volume represent a wide array of perspectives and research projects. Most of the articles report the findings of quantitative or qualitative investigations, but some deal with methodology, theory, or applications of social science studies in the field of religion, and some are applied, demonstrating the relevance of the social sciences to religious organizations and their clergy. The value of the volume is that it gives to researchers in this area a broad perspective on the issues and methods of religious research across a spectrum of academic disciplines. The aim of the book is to stimulate a creative, integrative dialogue that will enhance interdisciplinary research.

What is Religion? Nigel Ajay Kumar, 2014-01-15 "What Is Religion?" is one of those questions rarely asked by Christian theologians who engage in interreligious discourse. Nigel Ajay Kumar makes the case, however, that to answer this question is critical for Christian scholars who want to negotiate multiple religious identities, as well as for those who want a clearer understanding of their own faith as religion. Kumar takes a historical and theological approach to answering this question. □The history of the concept of religion is traced from biblical times to the Indian independence era. □Then, a theological answer is offered not only by looking at the classical Indian theologian, Pandipeddi Chenchiah, but also by listening to other contemporary secular and theological voices. (This is the South Asian Edition of the original Wipf & Stock edition (2013) with

the same name).

American Journal of Theology ,1911 Vols. 2-6 include Theological and Semitic literature for 1898-1901, a bibliographical supplement to the American journal of theology and the American journal of Semitic languages and literatures. By W. Muss-Arnolt. (Separately paged)

Between Philosophy and Religion, Vol. II Brayton Polka,2007-02-01 In Between Philosophy and Religion Volumes I and II, Brayton Polka examines Spinoza's three major works-on religion, politics, and ethics-in order to show that his thought is at once biblical and modern. Indeed, Polka argues that Spinoza is biblical only insofar as he is understood to be one of the great philosophers of modernity and that he is modern only when it is understood that he is unique in making the interpretation of the Bible central to philosophy and philosophy central to the interpretation of the Bible. This book and its companion volume are essential reading for any scholar of Spinoza.

An Introductory Essay to the Science of Comparative Theology; with a Tabular Synopsis of Scientific Religion ... Edward Webster (of Ealing.),1870

Women in the Hebrew Bible Alice Bach,2013-10-31 Women in the Hebrew Bible presents the first one-volume overview covering the interpretation of women's place in man's world within the Hebrew Bible or Old Testament. Written by the major scholars in the field of biblical studies and literary theory, these essays examine attitudes toward women and their status in ancient Near Eastern societies, focusing on the Israelite society portrayed by the Hebrew Bible.

Interpreting Neville J. Harley Chapman,Nancy K. Frankenberry,1999-05-13 Interpreting Neville provides the first book-length treatment of the thought of Robert Cummings Neville, one of the most important and wide-ranging scholars working across the fields of philosophy, theology, and comparative studies today. Contributors assess the systematic structure and methodological unity of Neville's trilogy *Axiology of Thinking*, provide a postmodern contextualization of Neville's philosophy, and evaluate the critical relation of Neville to the history of Western philosophy. Metaphysical questions crucial to Neville's project are critiqued from different vantage points, theological problems are examined, and the comparative issues outstanding in Neville's understanding of Chinese philosophy are assessed. Enhancing the book is a rich concluding essay written by Neville himself in response to each author. [Contributors include George Allan, Delwin Brown, J. Harley Chapman, Chung-ying Cheng, Patricia Cook, Robert Corrington, Hermann Deuser, Lewis S. Ford, Nancy K. Frankenberry, David L. Hall, George R. Lucas, Jr., Robert C. Neville, Sandra Rosenthal, Marjorie Suchocki, Carl G. Vaught, and Edith Wyschogrod.]

Whose Bible Is It Anyway? Philip R. Davies,1995-01-01 The Bible, argues this book, may belong to the Church or synagogue as an instrument of religious practice. But as the object of academic study it belongs to the world as a whole. Confessional biblical studies belong to a discipline better termed 'scripture', with 'biblical studies' designating a discipline that imposes no religious conditions and includes any form of rational discourse about the bible. A basic requirement of this

discipline is to speak not of 'the Bible' but of 'bibles'. A number of exegetical studies suggest how a genuinely academic discourse about biblical writings, distancing itself from received canons of interpretation, can expose a subtext of deceit within the creation narratives, reconceptualize the relationship of Abraham and his deity, reveal lament psalms as texts of oppression, and identify the death of Daniel's God. In new chapters for this second edition, Davies evaluates how the film Monty Python's Life of Brian contributes to life of Jesus research. Here is a challenge to conventional biblical scholarship and a bid to define and establish a genuine academic discipline of biblical studies.
