**Studies in Ethnopragmatics, Cultural Semantics, and Intercultural Communication** Bert Peeters, Kerry Mullan, Lauren Sadow, 2019-10-23 This book is the second in a three-volume set that celebrates the career and achievements of Cliff Goddard, a pioneer of the Natural Semantic Metalanguage approach in linguistics. It focuses on meaning and culture, with sections on Words as Carriers of Cultural Meaning and Understanding Discourse in Cultural Context. Often considered the most fully developed, comprehensive and practical approach to cross-linguistic and cross-cultural semantics, Natural Semantic Metalanguage is based on evidence that there is a small core of basic, universal meanings (semantic primes) that can be expressed in all languages. It has been used for linguistic and cultural analysis in such diverse fields as semantics, cross-cultural communication, language teaching, humour studies and applied linguistics, and has reached far beyond the boundaries of linguistics into ethnopsychology, anthropology, history, political science, the medical humanities and ethics.

*Fringe to Famous* Tony Moore, Mark Gibson, Chris McAuliffe, Maura Edmond, 2024-01-25 *Fringe to Famous* examines exchange between small scenes of cultural production and mainstream institutions and markets. Drawing on Australian examples in music, streetwear, comedy, screen and digital games, it argues that there has been much greater crossover between the two than is generally recognized. The book resists a tendency to represent fringe and mainstream as abstract opposites, bringing a focus instead to concrete historical formations. It offers an alternative both to romantic celebrations of a 'pure' fringe – discredited now by half a century of critical responses to the counterculture – and to an increasingly hardened anti-romantic reaction. Drawing on extensive original interviews, *Fringe to Famous* offers an overview of transformations in Australian culture since the 1980s, concluding with suggestions for cultural policy 'after the creative industries'. It proposes an idea of 'generative hybridity' between fringe and mainstream that allows us to imagine new possibilities for arts and culture in the 2020s and beyond.

**Situation Comedy, Character, and Psychoanalysis** D.T. Klika, 2018-01-25 *Situation Comedy, Character, and Psychoanalysis* puts the sitcom character on the analyst's couch and closely examines the characters of Basil Fawlty, Lucy Ricardo and Kim from Australia's *Kath & Kim*, in order to reveal the essential elements that must exist in a sitcom before even the first joke is written. Original in its approach, D.T. Klika uncovers major findings about the sitcom as well as human behavior and relationships that we find 'arresting' and even "familial". By offering a new way of reading the sitcom using

psychoanalytic theory, this book can be used as a basis for engaging in critical discourses as well as textual analysis of programs. Psychoanalytic theory enables a reading of character motivations and relationships, in turn elucidating the power struggle that exists between characters in this form of comedy. *Situation Comedy, Character, and Psychoanalysis* shines a light on what is at play in the sitcom that makes us laugh, and why we love the characters we do, only to discover that this form of comedy is more complex than we first thought.

**Infinite Suburbia** MIT Norman B. Leventhal Center for Advanced Urbanism, 2018-03-13 *Infinite Suburbia* is the culmination of the MIT Norman B. Leventhal Center for Advanced Urbanism's yearlong study of the future of suburban development. Extensive research, an exhibition, and a conference at MIT's Media Lab, this groundbreaking collection presents fifty-two essays by seventy-four authors from twenty different fields, including, but not limited to, design, architecture, landscape, planning, history, demographics, social justice, familial trends, policy, energy, mobility, health, environment, economics, and applied and future technologies. This exhaustive compilation is richly illustrated with a wealth of photography, aerial drone shots, drawings, plans, diagrams, charts, maps, and archival materials, making it the definitive statement on suburbia at the beginning of the twenty-first century.

**Cultural Keywords in Discourse** Carsten Levisen, Sophia Waters, 2017-10-15 Cultural keywords are words around which whole discourses are organised. They are culturally revealing, difficult to translate and semantically diverse. They capture how speakers have paid attention to the worlds they live in and embody socially recognised ways of thinking and feeling. The book contributes to a global turn in cultural keyword studies by exploring keywords from discourse communities in Australia, Brazil, Hong Kong, Japan, Melanesia, Mexico and Scandinavia. Providing new case studies, the volume showcases the diversity of ways in which cultural logics form and shape discourse. The Natural Semantic Metalanguage (NSM) approach is used as a unifying framework for the studies. This approach offers an attractive methodology for doing explorative discourse analysis on emic and culturally-sensitive grounds. *Cultural Keywords in Discourse* will be of interest to researchers and students of semantics, pragmatics, cultural discourse studies, linguistic ethnography and intercultural communication.

**English Vocabulary Today** Barry Blake, 2019-01-23 *English Vocabulary Today: Into the 21st Century* offers an innovative perspective on the ways in which contemporary English language vocabulary continues to adapt and grow in light of emerging technologies and ideas. The book begins with a concise history of the English language, followed by chapters covering key topics including lexical change, semantic change and word-formation. Additional chapters highlight unique topics not often covered in English language studies, including the mental lexicon, inclusive language and the importing and exporting of words between English and other languages. Chapter discussions are enhanced by dynamic examples from a

wide range of varieties of English, including American, British, Australian, New Zealand, Canadian, South African and South Asian. Taken together, *English Vocabulary Today: Into the 21st Century* offers students a clear and comprehensive understanding of the multi-faceted nature of English vocabulary today as well as new insights into its continued development.

*Unlimited Eligibility?* Ryan Cull,2025-05-01 Rewrites the dominant narrative of the political work of lyric poetry in the United States since the nineteenth century. What if increased visibility of marginalized identities-a goal of much socially committed lyric poetry in the United States-does not necessarily lead to increased social recognition? For many contemporary scholars, this is the central question of lyric politics.*Unlimited Eligibility?* revisits and deeply historicizes this

question. Ryan Cull explores the relationship of a diverse set of poets, including Walt Whitman, Jean Toomer, Hart Crane, James Merrill, Thylas Moss, and Claudia Rankine, to a series of movements intended to build inclusion: the St. Louis Hegelians, cultural pluralism, identity politics, and multiculturalism. In tracing the tensions in lyric poetry's merger with the pursuit of recognition, Cull offers a new history of the political work of lyric poetry while exposing the discursive roots of the nation's faltering progress toward becoming a more inclusive democracy.
