Developing Potential Across a Full Range of Leadership TM Bruce J. Avolio,2001 This case book focuses on the leadership style of the key players. The 29 cases were chosen to present all facets of a model of leadership, stating that the most effective leaders are both transformational and transactional in their leadership style. Cases were selected for inclusion and/or developed to provide examples of leaders from across the spectrum of public and private sectors. Specific emphasis was placed on selecting male and female leaders from a broad array of cultures. A great deal has been written about a model of leadership that is referred to as a full range of leadership.

This text offers a broad review and analysis of the field of leadership, complete with its many debates and controversies. Strong theoretical coverage still allows the book to be applications-oriented-to business and other organizations-on the guiding philosophy and assumption that we can all learn to become better leaders. A cross-cultural perspective, gender-based analyses, focus on leaders' personalities and behavior, and discussion on the role and characteristics of followers complete this treatment.
