Marjorie Heins

Out of Faith Maria Compton, 2024-08-22 AS SEEN IN THE TIMES Maria Compton was born and raised in the Plymouth Brethren Christian Church. Encouraged to keep her distance from outsiders, she grew up in a world of Church meetings, banishments and with the fear that the end of the world - known as the Rapture - was nigh. When she was still in her late teens, she married a man she barely knew. To those around her she lived the perfect life; dutiful wife, loving mother, devout Brethren woman. But underneath the surface, this life was far from perfect. Plagued by spiritual doubts, stuck in an abusive marriage and with her mental health in severe decline, Maria came to realise that she simply could not go on. And so, although knowing everything it would cost, she did the unthinkable: she left her church. Despite her attempts to stay in touch, Maria is no longer seen by her family, her friends or even her own children. But whilst she continues to grieve for everything she has lost, she holds fast to what she has gained: her liberty and her hope for the future. *Out of Faith* is testament to the strength of the human spirit even in the darkest of times, and an incredible story exposing the tangled ties between family, faith and freedom.

Religions, Culture and Healthcare Susan Hollins, 2006 Established as the first guide to stress written specifically by GPs for GPs this new edition has been completely revised and up-dated. The first edition was published privately and its success created a demand for it to be more widely available. With contributions from a range of eminent GPs this book has a personal and reflective approach that gives practical and 'tried and tested' advice for busy practitioners. It explores the causes of stress with case histories and details of specific problems that relate to the increasing pressures put on primary care teams. Illustrated throughout with cartoons by Martin Davies the book is easy to read from cover to cover and can be dipped into and used for reference as required.

Not in Front of the Children Marjorie Heins, 2007-09-11 From Huckleberry Finn to Harry Potter, from Internet filters to the v-chip, censorship exercised on behalf of children and adolescents is often based on the assumption that they must be protected from "indecent" information that might harm their development—whether in art, in literature, or on a Web site. But where does this assumption come from, and is it true? In *Not in Front of the Children*, Marjorie Heins explores the fascinating history of "indecent" laws and other restrictions aimed at protecting youth. From Plato's argument for rigid censorship, through Victorian laws aimed at repressing libidinous thoughts, to contemporary battles over sex education in

public schools and violence in the media, Heins guides us through what became, and remains, an ideological minefield. With fascinating examples drawn from around the globe, she suggests that the “harm to minors” argument rests on shaky foundations.

Still Time to Care Greg Johnson, 2021-12-07 Charting the path forward for our churches and ministries in providing care—not a cure—for our non-straight sisters and brothers who are living lives of costly obedience to Jesus. At the start of the gay rights movement in 1969, evangelicalism's leading voices cast a vision for gay people who turn to Jesus. It was C.S. Lewis, Billy Graham, Francis Schaeffer and John Stott who were among the most respected leaders within theologically orthodox Protestantism. We see with them a positive pastoral approach toward gay people, an approach that viewed homosexuality as a fallen condition experienced by some Christians who needed care more than cure. With the birth and rise of the ex-gay movement, the focus shifted from care to cure. As a result, there are an estimated 700,000 people alive today who underwent conversion therapy in the United States alone. Many of these patients were treated by faith-based, testimony-driven parachurch ministries centered on the ex-gay script. Despite the best of intentions, the movement ended with very troubling results. Yet the ex-gay movement died not because it had the wrong sex ethic. It died because it was founded on a practice that diminished the beauty of the gospel. Yet even after the closure of the ex-gay umbrella organization Exodus International in 2013, the ex-gay script continues to walk about as the undead among us, pressuring people like me to say, I used to be gay, but I'm not gay anymore. Now I'm just same-sex attracted. For orthodox Christians, the way forward is to take a close look at our history. It is time again to focus with our Neo-Evangelical fathers on caring over attempting to cure. With warmth and humor, as well as original research, *Still Time to Care* provides: Guidance for the gay person who hears the gospel and finds themselves smitten by the life-giving call of Jesus. Guidance for the church to repent of its homophobia and instead offer gospel-motivated love and compassion.

Man's Dominion Sheila Jeffreys, 2013-06-17 In this feminist critique of the politics of religion, Sheila Jeffreys argues that the renewed rise of religion is harmful to women's human rights. The book seeks to rekindle the criticism of religion as the founding ideology of patriarchy. Focusing on the three monotheistic religions; Judaism, Christianity and Islam, this book examines common anti-women attitudes such as 'male-headship', impurity of women, the need to control women's bodies, and their modern manifestations in multicultural Western states. It points to the incorporation of religious law into legal systems, faith schools, and campaigns led by Christian and Islamic organisations against women's rights at the U.N., and explains how religious rights threaten to subvert women's rights. Including highly-topical chapters on the burka and the covering of women, and polygamy, this text questions the ideology of multiculturalism which shields religion from criticism by demanding respect for culture and faith, whilst ignoring the harm that women suffer from religion. *Man's Dominion* is an

incisive and polemic text that will be of interest to students of gender studies, religion, and politics.

My Health, My Faith, My Culture Sue Timmins, 2012 Every patient, whatever their cultural background and religious affiliation, is entitled to receive healthcare that is sensitive, appropriate and person-centred. In the UK today, there are people from many different minority groups. There are also members of the host population who follow religions other than Christianity, either from birth or personal choice. The patient's chosen or birth faith should always play an integral part in their care. This helpful guide enables healthcare practitioners to rise to the challenge of providing culturally sensitive services by giving them an understanding of patients' varying potential requirements and how to meet them.

On Charity and Justice Abraham Kuyper, 2022-02-09 Kuyper on a Theological Approach to Justice The practical outworking of Kuyper's doctrine of common grace demanded a commitment to seeking Christ's glory in every sphere of human life. Christians are called to witness to the lordship of Christ through sacrificial service, not domination, and such service calls us to seek charity and justice for all people. In this anthology of articles and reflections, Kuyper articulates a Christian vision for engaging with society. Though his analysis was intended for his late-nineteenth-century Dutch context, his thoughts remain strikingly relevant for Christians living in the modern world. For Kuyper, God's law preserved civil justice, making humane life possible. However, the law itself could not save society—only the gospel can transform the heart. But the gospel is for all of life. Kuyper elaborated a social Christian approach to politics, resulting in a distinct perspective on property, human dignity, democracy, and justice.
