Indo-European Poetry and Myth M. L. West, 2007-05-24 The book deserves a warm welcome. Steady work has gone into the writing of it, and M.L. West's ability to detect analogies and to make comparisons has again been deployed to good effect. G.L. Huxley, *Hermathena* ... the ideal guide in a complex field of learning. *International Review of Biblical Studies* Martin West has written the definitive book on Indo-European language and religion ... [the] ... world of words is beautifully laid out for us in this important book *London Review of Books* This volume ... is written with the grace, style and wit that we have come to expect..the picture that emerges is detailed and consistent ... the results are fascinating ... West has done a great service in providing an accurate and up-to-date account. Richard Janko, *TLS* It is a book for repeated consultation rather than a quick read through ... a landmark publication in an area of study whose importance is likely to grow - not only for classics but also for the humanities more generally. N.J. Allen, *Bryn Mawr Classical Review* a virtual compendium of the most relevant material distilled by one of the finest minds to venture into this field J.S. Sheldon, *Journal of the Royal Asiatic Society*.

Indo-European Poetry and Myth Martin Litchfield West, 2014-05-14 The Indo-Europeans, speakers of the prehistoric parent language from which most European and some Asiatic languages are descended, most probably lived on the Eurasian steppes some five or six thousand years ago. Martin West investigates their traditional mythologies, religions, and poetries, and points to elements of common heritage. In *The East Face of Helicon* (1997), West showed the extent to which Homeric and other early Greek poetry was influenced by Near Eastern traditions, mainly non-Indo-European. His new book presents a foil to that work by identifying elements of more ancient, Indo-European heritage in the Greek material.; Topics covered include the status of poets and poetry in Indo-European societies; metre, style, and diction; gods and other supernatural beings, from Father Sky and Mother Earth to the Sun-god and his beautiful daughter, the Thunder-god and other elemental deities, and earthly orders such as Nymphs and Elves; the forms of hymns, prayers, and incantations; conceptions about the world, its origin, mankind, death, and fate; the ideology of fame and of immortalization through poetry; the typology of the king and the hero; the hero as warrior, and the conventions of battle narrative.

Indo-European Poetry and Myth Martin Litchfield West, 2007 The Indo-Europeans, speakers of the prehistoric parent language from which most European and some Asiatic languages are descended, most probably lived on the Eurasian steppes

some five or six thousand years ago. Since the mid nineteenth century it has been realized that through the comparative method it may be possible to recover not only details of their language but also something of their religion and mythology and of the forms and diction of their poetry. Martin West's book provides a systematic survey of the solid results achieved in this field and develops them further. Topics covered include the status of poets and poetry in Indo-European societies; metre, style, and diction; gods and other supernatural beings, from Father Sky and Mother Earth to the Sun-god and his beautiful daughter, the Thunder-god and other elemental deities, and earthly orders such as Nymphs and Elves; the forms of hymns, prayers, and incantations; conceptions about the world, its origins, mankind, death, and fate; the ideology of fame and of immortalization through poetry; the typology of the king and the hero; the hero as warrior, and the conventions of battle narrative.--Résumé de l'éditeur

Castalia: Studies in Indo-European Linguistics, Mythology, and Poetics Laura Massetti, 2023-05-08 Since the beginning of Indo-European Studies, linguists have attempted to reconstruct aspects of the Indo-European traditions that go beyond the 'atomic' dimensions of related languages, such as inherited aspects of Indo-European texts and traits shared by cognate pantheons and narratives. The chapters in this volume address these very aspects of cultural reconstruction. Interdisciplinary case-studies on poetic features, religion and mythology of several ancient Indo-European languages (Ancient Greek, Latin and Italic, Hittite, Phrygian, Sanskrit, Avestan, Old Norse, Old Irish and Old Russian) work at the intersection of linguistic

reconstruction and philology. The results of these investigations shed new light on a variety of aspects, ranging from obscure etymologies to the reconstruction of the genetic link among entire Indo-European myths.

Greek Notions of the Past in the Archaic and Classical Eras John Marincola, 2012-07-23 This volume in The Edinburgh Leventis Studies series collects the papers presented at the sixth A. G. Leventis conference organised under the auspices of the Department of Classics at the University of Edinburgh. As with earlier volumes, it engages with new research and new approaches to the Greek past, and brings the fruits of that research to a wider audience. Although Greek historians were fundamental in the enterprise of preserving the memory of great deeds in antiquity, they were not alone in their interest in the past. The Greeks themselves, quite apart from their historians and in a variety of non-historiographical media, were constantly creating pasts for themselves that answered to the needs - political, social, moral and even religious - of their society. In this volume eighteen scholars discuss the variety of ways in which the Greeks constructed de-constructed, engaged with, alluded to, and relied on their pasts whether it was in the poetry of Homer, in the victory odes of Pindar, in tragedy and comedy on the Athenian stage, in their pictorial art, in their political assemblies, or in their religious practices. What emerges is a comprehensive overview of the importance of and presence of the past at every level of Greek society. In the final chapter the three discussants present at the conference (Simon Goldhill, Christopher Pelling and Suzanne Said) survey the contributions to the volume, summarise its overall contributions as well as indicate new directions that further scholarship might follow.

By inviting these divine beings into your practice, you can cultivate a magickal life that satisfies your soul to its very core.

Approaches to Greek Myth Lowell Edmunds, 2014-09-11 "A handy introduction to some of the more useful

methodological approaches to and the previous scholarship on the subject of Greek myths.” —Phoenix Since the first edition of *Approaches to Greek Myth* was published in 1990, interest in Greek mythology has surged. There was no simple agreement on the subject of “myth” in classical antiquity, and there remains none today. Is myth a narrative or a performance? Can myth be separated from its context? What did myths mean to ancient Greeks and what do they mean today? Here, Lowell Edmunds brings together practitioners of eight of the most important contemporary approaches to the subject. Whether exploring myth from a historical, comparative, or theoretical perspective, each contributor lucidly describes a particular approach, applies it to one or more myths, and reflects on what the approach yields that others do not. Edmunds’s new general and chapter-level introductions recontextualize these essays and also touch on recent developments in scholarship in the interpretation of Greek myth. Contributors are Jordi Pàmias, on the reception of Greek myth through history; H. S. Versnel, on the intersections of myth and ritual; Carolina López-Ruiz, on the near Eastern contexts; Joseph Falaky Nagy, on Indo-European structure in Greek myth; William Hansen, on myth and folklore; Claude Calame, on the application of semiotic theory of narrative; Christiane Sourvinou-Inwood, on reading visual sources such as vase paintings; and Robert A. Segal, on psychoanalytic interpretations. “A valuable collection of eight essays . . . Edmunds’s book provides a convenient opportunity to grapple with the current methodologies used in the analysis of literature and myth.” —New England Classical Newsletter and Journal

The World of Greek Religion and Mythology Jan N. Bremmer,2020-01-07 In this wide-ranging work on Greek religion and mythology, Jan N. Bremmer brings together his stimulating and innovative articles, which have all been updated and revised where necessary. In three thematic sections, he analyses central aspects of Greek religion, beginning with the gods and heroes and paying special attention to the unity of the divine nature and the emergence of the category 'hero'. The second section begins with a discussion of the nature of polis religion, continues with various facets, such as seers, secrecy and the soul, and concludes with the influence of the Ancient Near East. The third section studies human sacrifice and offers the most recent analysis of the ideal animal sacrifice, combining literature, epigraphy, iconography, and zooarchaeology. Regarding human sacrifice, it concentrates on the famous cases of Iphigeneia and the werewolves of Mount Lykaion. The fourth and final section investigates key elements of Greek mythology, such as the definition of myth and its relationship to ritual, and ends with a brief history of the study of Greek mythology. The multi-disciplinary approach and rich footnotes make this work a must for anybody interested in Greek religion and mythology.

Arjuna-Odysseus N. J. Allen, 2019-11-07 Bringing together the study of the Greek classics and Indology, *Arjuna-Odysseus* provides a comparative analysis of the shared heritage of the Mahābhārata and early Greek traditions presented in the texts of Homer and Hesiod. Building on the ethnographic theories of Durkheim, Mauss, and Dumont, the volume explores the convergences and rapprochements between the Mahābhārata and the Greek texts. In exploring the networks of similarities between the two epic traditions, it also reformulates the theory of Georges Dumézil regarding Indo-European cultural comparativism. It includes a detailed comparison between journeys undertaken by the two epic heroes – Odysseus and Arjuna – and more generally, it ranges across the philosophical ideas of these cultures, and the epic traditions, metaphors, and archetypes that define the cultural ideology of ancient Greece and India. This book will be useful to scholars and researchers of Indo-European comparativism, social and cultural anthropology, classical literature, Indology, cultural and post-colonial studies, philosophy and religion, as well as to those who love the Indian and Greek epics.

Romanian Folklore and its Archaic Heritage Ana R. Chelariu, 2023-02-13 This book presents rich information on Romanian mythology and folklore, previously under-explored in Western scholarship, placing the source material within its historical context and drawing comparisons with European and Indo-European culture and mythological tradition. The author presents a detailed comparative study and argues that Romanian mythical motifs have roots in Indo-European heritage, by analyzing and comparing mythical motifs from the archaic cultures, Greek, Latin, Celtic, Sanskrit, and Persian, with written material and folkloric data that reflects the Indo-European culture. The book begins by outlining the history of the Getae-

Dacians, beginning with Herodotus' description of their customs and beliefs in the supreme god Zamolxis, then moves to the Roman wars and the Romanization process, before turning to recent debates in linguistics and genetics regarding the provenance of a shared language, religion, and culture in Europe. The author then analyzes myth creation, its relation to rites, and its functions in society, before examining specific examples of motifs and themes from Romanian folk tales and songs. This book will be of interest to students and scholars of folklore studies, comparative mythology, linguistic anthropology, and European culture.
