Rich Country Interests and Third World Development Robert Cassen, Richard Jolly, John W. Sewell, Robert Wood, 2025-04-01 First published in 1982, *Rich Country Interests and Third World Development* adds breadth and specificity to the exploration of the interests in Third World development of eleven “rich” countries—the United States, Canada, Japan, Australia, the United Kingdom, the Federal Republic of Germany, The Netherlands, Denmark, Sweden, Norway, and France. The authors analyze a spectrum of Northern economic, political, and security interests in development in the South. They also examine how national experiences, political traditions, humanistic values, and changing attitudes have influenced perceptions of and relationships with Third World countries over three decades of dramatic change in the North-South environment. This book helps lay a foundation for negotiated solutions to North-South issues by offering a greater appreciation of differences as well as commonalities in interests both among and within industrial and developing countries. An overview chapter points to issues broader than those raised in the country studies and addresses a critical question: On what terms is it in the interests of the North and South to pursue and fashion interdependence between them in the 1980s?

The Third World And U.s. Foreign Policy Robert L. Rothstein, 2019-06-25 The quest for a viable policy toward the Third World will be a dominant theme in U.S. foreign policy throughout this decade. But before any judgments can be made about the range of choices for U.S. policymakers, it is necessary to understand the pressures that are likely to confront developing nations during the 1980s as well as the efforts of these nations as a group to extract greater resources and attention from the international system. This book considers policy responses that have been and are likely to be implemented by developing nations as they face increasing pressures in the areas of food, energy, trade, and debt – the main areas of interaction within the international system. The author also presents an analysis of how the North-South Dialogue functions and why it has produced so few genuine settlements, providing an additional perspective on whether the pressures on the developing countries might be diminished by successful global negotiations. The conclusions reached by examining policy responses and the Dialogue itself provide the basis for a number of specific policy prescriptions. They also help to

establish a framework within which U.S. policy initiatives toward the Third World must be formed. The two concluding chapters discuss these policy choices in detail, carefully analyzing the advantages and disadvantages of persisting in present policies, attempting a genuine global restructuring, choosing to concentrate attention on a few new influentials in the Third World, and trying to construct a new approach out of selected elements of the other policy approaches.

Racism and Resistance among the Filipino Diaspora Kristine Aquino, 2017-09-01 Filipino migrants constitute one of the largest global diasporas today. In Australia, Filipino settlement is markedly framed by the country's on-going nation-building project that continues to racialise immigrants and delineate the possibilities and limits of belonging to the national community. This book explores the ways in which Filipino migrants in Australia experience, understand and negotiate racism in their everyday lives. In particular, it explores the notion of everyday anti-racism – the strategies individuals deploy to manage racism in their day to day lives. Through case studies based on extensive fieldwork the author shares ethnographic observation and interview material that demonstrate the ways in which Filipinos are racially constituted in Australian society and are subject to everyday racisms that criss-cross different modes of power and domination. Drawing on theoretical approaches in critical race scholarship and the sociology of everyday life, this book illuminates the operation of racism in a multicultural society that persists insidiously in exchanges across a range of public and private spaces. More importantly, it explores the quotidian ways in which 'victims' of racism cope with routine racialised domination, an area underdeveloped in anti-racism research that has tended to focus on institutional anti-racism politics. Shedding light on a neglected corner of the global Filipino diaspora and highlighting the complexity of lived experiences in translocal and transnational social fields, this book will be of interest to academics in the field of diaspora and migration studies, the study of race and racism and ethnic minorities, with particular reference to the Asian diaspora.

The A to Z of the Non-Aligned Movement and Third World Guy Arnold, 2010-04-06 During the long period when the world was divided between East and West and the Cold War threatened to turn hot with devastating consequences, the Non-Aligned Movement was one of the few institutions that consistently sought other outcomes not in its own interest, but that of all humanity. Consisting of over 100 states that are free of any formal alliances with any major power bloc, the Non-Aligned Movement provides aid to those countries striving to gain independence, eliminate poverty, and develop their economy. Just what the Non-Aligned Movement and Third World sought-and at times achieved-is set forth in this unique reference work, with its over 200 cross-referenced dictionary entries on important persons, organizations, and conferences, as well as the key issues and concepts. Entries are supported by an extensive chronology, an introduction to the movement, and a bibliography for further research.

Foreign Investment and Government Policy in the Third World Robert B. Dickie, Thomas A. Layman, 1988-06-18 A broad look at the Third World and the role of foreign enterprises in the development process. It merges theory with practical examples of the interaction between multi-national enterprises and LDC governments and also analyzes developing country policies toward foreign economic presence.

Politics and Society in the Developing World Mehran Kamrava, 2012-10-12 This book is a welcome new edition, which completely updates and revises the very popular first edition, *Politics and Society in the Third World*. Mehran Kamrava has brought the book in line with the major changes in global politics, and the politics and social issues of the developing world. The book examines key issues such as democratisation: civil society organisations and NGOs, 'political society', state collapse, democratic bargains and transition, consolidation and problems of legitimacy, elections, multi-party politics; industrial development; dependency theory and globalisation; the roles of the IMF and the World Bank, the GATT and other multinational institutions; urbanisation; social change; the increasing influence of western values, capital and institutions; urbanisation; social change; the increasing influence of western values, capital and institutions; political culture: its role and impact in newly democratic developing countries; revolution; and gives more examples from Africa, East Asia and rural societies.

Industrialization and Development in the Third World Rajesh Chandra, 2003-09-02 Developing countries have undergone significant industrialization in the last three decades. Yet industrial growth reveals marked spatial inequalities in terms of both country and location. The Newly Industrialised Countries have achieved spectacular growth in sharp contrast to many other countries of the South. Industrial structure has changed, moving away from labour intensive industries to more technologically advanced manufacturing. Developing countries have had considerable success in penetrating developed country markets but they are now encountering more market restrictions. The role of the government in the development of the economy is also changing. Increasingly, countries are turning towards export-orientated industrialization strategies and privatization whilst their governments are emphasising their facilitative role.

Security and Economy in the Third World Nicole Ball, 2014-07-14 Nicole Ball brings the effects of security expenditure to the center of that debate, examining in detail how the potential negative consequences on development outweigh the potential positive effects. OPEC and the Third World Shireen Hunter,2019-07-05 Originally published in 1984 this book focuses principally on the use of foreign aid by the members of OPEC in the 1970s and demonstrates how the divisive elements both within OPEC and between OPEC and the rest of the developing world prevented OPEC from using aid to advance developing world objectives. It explains why the OPEC countries failed to achieve the goals they set for themselves and will be of interest to all those concerned with the politics of the developing world, development assistance, Middle East regional economics and political and security issues.

Women's Work And Child Welfare In The Third World Joanne Leslie,2021-11-18 Recent trends in women's work and child survival and development in developing countries raise concerns about the relationship between these two key elements of development. This paper reviews and analyzes the methodology and findings of 50 studies of both women's work and infant feeding practices, and women's work and child nutritional status. Although the pattern of findings is complex and occasionally contradictory, the paper concludes that overall there is little evidence of a negative effect of maternal employment on child nutrition, and therefore no justification for limiting women's labor force participation on the grounds of promoting child welfare.

Towards New Developmentalism Shahrukh Rafi Khan,Jens Christiansen,2010-10-04 The global financial and economic crisis starting in 2007 has provoked the exploration of alternatives to neo-liberalism. Although neo-liberalism has been critiqued from various perspectives, these critiques have not coalesced into a concrete alternative in development economics literature. The main objective of this book is to name and formulate this alternative, identify what is new about this viewpoint, and project it on to the academic landscape. This book includes contributions from many prominent development economists who are unified by a form of developmental pragmatism. Their concern is with the problems of development that preoccupied the pioneers of economic development in the mid-twentieth century, known as the developmentalists. Like the developmentalists, the contributors to *Towards New Developmentalism* are policy-oriented and supportive of institutional development and engagement with economic globalization. This collection has an over-arching concern with promoting social

justice, and holds the general view of the market as the means to affecting an alternative program of development rather than as a master whose dictates are to be obeyed without question. This important collection sets the agenda for new developmentalism, drawing on issues such as industrial policy, technology, competition, growth and poverty. In broad terms, the economic development debate is cast in terms of whether the market is the master, an ideological neo-liberal perspective, or the means to affect change as suggested by the pragmatic perspective that is being termed neo-developmentalism. This book will be valuable reading to postgraduates and researchers specialising in the area of development studies including within economics, international relations, political science and sociology.

Marcos Against the Church Robert Youngblood, 2019-05-15 The election of Ferdinand Marcos to the presidency of the Republic of the Philippines coincided with the conclusion of the work of Vatican II in 1965; and Marcos's dictatorial policies would inevitably clash with the Vatican's call for the clergy to advocate greater social justice for the poor. In this authoritative account of the role of the Catholic Church in the recent history of the Philippines, Robert L. Youngblood traces the political engagement of the Church over the twenty years between Marcos's election and his ouster from power in 1986. Drawing upon extensive research, Youngblood explains how, although church and state professed to share the goal of improving the welfare of the poor, Marcos's economic development policies and oppressive rule created church opposition which helped accelerate the collapse of his regime. Youngblood considers the evolution of church programs from social action projects, such as the organization of cooperatives and credit unions, to the development of social justice programs that emphasized the creation of more democratic and caring communities. He examines the dynamics by which the leaders of the Philippine Roman Catholic and Protestant churches moved from a brief period of goodwill toward the Marcos dictatorship to considerable opposition by the late 1970s, as church-sponsored work among the poor was increasingly viewed by the regime as subversive. Youngblood shows that after the assassination of Benigno Aquino, Jr., in 1983, the deterioration of the standard of living of average Filipinos, along with Marcos's repressive policies toward the churches and other abuses in the name of national security, were factors which impelled powerful church figures to actively oppose the dictatorship. Tracing the internal deliberations of the Philippine churches as they came to take the lead in opposing human rights abuses, Marcos against the Church deepens our understanding of problematic relations between church and state. Historians and social scientists interested in the Philippines and modern Southeast Asia, historians of religion, political scientists working in comparative politics and political development, and others concerned with issues of human rights will want to read it.
