Make Love, Not War: The Quotes that Defined the 1960's Dr. Leigh Davis, 2012-02-29 ABOUT THE BOOK The 1960s

represent the 7th decade of the 20th century, and are remembered as a time of change; youth influence; radicalism; and the sexual revolution. The baby-boomers of the 1940's were coming of age, and the largest population of college-age men and women banded together to mark a major turning point in the culture of nations worldwide. From the swinging sixties in London and the hip fashions on Carnaby Road; to the political activism and demonstrations in the United States and the standoffs on college campuses; to Woodstock, the music festival to end all music festivals in upstate New York; the 1960s were influenced by youth, no longer content to be representations of the generation preceding them, and of course, a time of sex, love and rock & roll. Make Love, Not War ~ Unknown MEET THE AUTHOR Dr. Leigh-Davis is a law professor, retired attorney, anthropologist and media personality; who frequently works as a TV news legal analyst. Dr. Leigh-Davis has taught at Cal State University and is a native of Beverly Hills, California. EXCERPT FROM THE BOOK "The people who invented the twenty-first century were pot-smoking, sandal-wearing hippies from the West Coast like Steve, because they saw differently," he said. The hierarchical systems of the East Coast, England, Germany, and Japan do not encourage this different thinking. The sixties produced an anarchic mind-set that is great for imagining a world not yet in existence." ~ Walter Isaacson, on Steve Jobs Buy a copy to keep reading!

The Gangster of Love Vincent Bakker, 2014-03-13 The only biography of Johnny Guitar Watson (1935-1996) paints an intriguing portrait of the American blues funk composer. His fans appreciate his historical role in black American music. Rappers honored him with samples. In this book tens of musicians reveal the life story of the struggling guitarist who became eternal with Gangster Of Love and A Real Mother For Ya. Besides hundreds of others, the love bandit had three First Ladies he lived with for years. They tell their untold love stories and explain how they stimulated his music as Muse, and how they financed his music business as Maecenas, helping him to produce gold albums by working as prostitute, thief or booster. His musicians reveal: how did he compose his incredible oeuvre? This book includes: The first complete Discography with 284 songs, Hundreds of songs composed or produced by Watson for others, songs he features on, his songs covered or sampled by others, Index with hundreds of related artists, Extended stories of Frank Zappa on John Watson and Watson on Zappa, 660 References, 300 Illustrations, of which 4 in full color. Logic, Science, God, and Human Intelligence Ronald J. Plachno, 2016-05-15 What is the fastest that humans have

ever travelled? Do all Scientists agree that they understand gravity? Is the argument of Darwin versus Creationism a good argument on either side? Could some reality be in fact be an illusion as Einstein implied? This book tries to answer some of those questions, and how all truth we perhaps might believe, might actually exist together at the same time. The first two sections of this book speak to Science and Human Knowledge and how much do we humans really know? I have a science degree, but even I learned much in research while writing this book. I tried to begin this book with a completely open mind, since I believe that is how to seek truth. In some cases I found new things surprising - at least to me. In other cases, I just learned what some bright people in the past and current also think - which just made me smile. And I tried to write the book in such a simple manner that even I can understand it. After the first two sections, I do get into some theories of mine based on human knowledge and science in the beginning of the book. You are more than welcome to form other theories. Those ensuing discussions might even make life more interesting. Is the purpose of this book to convince you of something? No. It's goal is to make us all think, including me, and also to get our discussions into the 21st century. For some odd reason, some humans believe that other humans should never think about things that are important. Science has moved on. We no longer believe that the world has only four elements, Earth, Wind and Fire and Water. It is time to get up to speed with what humans have learned. And then ... comes the fun ... of deciding what theories based on that.... each of us wish to believe.

The Sex Revolts Simon Reynolds, Joy Press, 1995 The first book to look at rock rebellion through the lens of gender, *The Sex Revolts* captures the paradox at rock's dark heart--the music is often most thrilling when it is most misogynistic and macho. And, looking at music made by female artists, the authors ask: must it always be this way?

This Land that I Love John Shaw, 2013-11-05 A narrative history of the writing of *This Land Is Your Land* and *God Bless America* discusses the conflicts and common ground between the two classic anthems, revealing how Woody Guthrie composed one as a reflection of Great Depression realities as a rebuttal to Irving Berlin's equally complex song, written partly in response to the rise of Hitler.

Mother Road Redeemed R.J. Ingalsbe, 2017-08-07 Aaron Flaherty is forced to confront his addictive personality when it nearly brings him to an untimely end. Needing real change, he decides to relocate from his native Buffalo, NY to Los Angeles, CA, tracing Historic Route 66 along the way. Before leaving, Aaron receives an encrypted, anonymous email from one of his past lovers, persuading him to follow her clues among the fascinating attractions lining America's Main Street. Aaron deciphers the several clues along the way and finally meets the mystery woman, Maria, amidst the Santa Monica Pier. They fall ecstatically in love while traveling the coast together, and shortly afterward they engage to be married. All seems well once they settle into their new lives. However, the hidden reality behind Maria slowly manifests, and it is beyond anything Aaron could have ever imagined. The ultimate mystery for Aaron to grasp, therefore, is how the love of his life can be involved in a desperate, radical event. Like so many business partnerships along the Mother Road, their relationship is forced to reconcile the warm, charming past with the cold, hard present. Can he understand and still love her? One thing is for sure--through their suffering Aaron is transformed, allowing him to move beyond his former addictions and lead a truly fulfilling life--a life inspired by the forsaken sense of community found among the struggling small towns of the Mother Road.

The laws of Human nature Unity of Universal love, 2023-12-22 Introduction A life of Healing, a life of Health, A life worth living is a life of Wealth. I have practiced over 25 years as a chiropractor and I have learned that most people come to me to treat their pain. I'm sure that most doctors and therapists have the same experience, people want to receive a treatment that will cure their illness. As I treat my patients I'm also analyzing how their problem was created. I'm looking at various factors like diet, lack of exercise, injurious repetitive movements or anything else that could provoke the problem. I'm trying to get the patient to take responsibility for their problem and help me with their treatment. It appears that I'm treating their physical illness but over the years I have come to a new realization, that a person's emotional, mental and spiritual side can also affect their health. The reality of the situation is that we can't separate an illness into a physical, emotional, mental or spiritual ailment, because everything works together. I now understand that attitudes play an essential role in our health and wellbeing. Attitudes have characteristics that are physical, emotional, mental and spiritual. In psychology attitudes are labeled as behavioral (physical), affective (emotional) and cognitive (mental). In this book attitudes have a spiritual side as well, attitudes will have a positive spiritual value or a negative spiritual value. Attitudes that bring people together and unite them has an energy with a positive spiritual value and attitudes that are divisive and cause separation has a negative value. If we have attitudes with a negative spiritual energy then they will cause illness; physical illness, mental illness and emotional illness. We need to adopt attitudes with a positive spiritual energy if we want to stay healthy and grow spiritually. Spiritual growth is there for all of us but we have to make the effort, no one can make us grow spiritually. Looking for someone to cure our ills is a short-term proposition, the long term cure is when we discover what is causing us harm and create a healthy lifestyle. The 7 Laws of Human Nature is a scientific philosophical study into the human consciousness, the 7 chakras and the human aura. We use theories to make sense about what we are observing in life, to explain ideas and interpret facts. The 1st chapter is the Theory of the Oneness of Universal Love, which will present 7 hypotheses. These hypotheses will present facts and suppositions of facts, which will be followed up by a theory. This is all happening on four energy levels; physical, emotional, mental and spiritual. Life on Earth has to have a reason, our lives aren't an accident and this book presents a

logical theory on the how and why of life. This is a book on love and how love works in our lives. With Love and Devotion to All

Kittler and the Media Geoffrey Winthrop-Young, 2013-05-10 With books such as *Discourse Networks* and *Gramophone, Film, Typewriter* and the collection *Literature, Media, Information Systems*, Friedrich Kittler has established himself as one of the world's most influential media theorists. He is also one of the most controversial and misunderstood. *Kittler and the Media* offers students of media theory an introduction to Kittler's basic ideas. Following an introduction that situates Kittler's work against the tumultuous background of German 20th-century history (from the Second World War and the cultural upheaval of the late 1960s to reunification), the book provides succinct summaries of Kittler's early discourse-analytical work inspired by French post-structuralism, his media-related theorising and his most recent writings on cultural techniques and the notation systems of Ancient Greece. This clear and engaging overview of a fascinating theorist will be welcomed by students and scholars alike of media, communication and cultural studies.
