The Boundaries of Europe Pietro Rossi, 2015-04-24 Europe's boundaries have mainly been shaped by cultural, religious, and political conceptions rather than by geography. This volume of bilingual essays from renowned European scholars outlines the transformation of Europe's boundaries from the fall of the ancient world to the age of decolonization, or the end of the explicit endeavor to "Europeanize" the world. From the decline of the Roman Empire to the polycentrism of today's world, the essays span such aspects as the confrontation of Christian Europe with Islam and the changing role of the Mediterranean from "mare nostrum" to a frontier between nations. Scandinavia, eastern Europe and the Atlantic are also analyzed as boundaries in the context of exploration, migratory movements, cultural exchanges, and war. The Boundaries of Europe, edited by Pietro Rossi, is the first installment in the ALLEA book series Discourses on Intellectual Europe, which seeks to explore the question of an intrinsic or quintessential European identity in light of the rising skepticism towards Europe as an integrated cultural and intellectual region.

Democratization's trajectory through change and continuity in Sub-Saharan Africa Issau Agostinho, Ana Magdalena Figueroa, Mark Amaliya Anyorikyea, Christopher Jivot Bitouloulou, Chibueze Ofobuikwe, 2017-11-03 Beyond the examples above, this book presents us with in-depth analyses on several African countries which are seldom assessed when the topic is democracy and whose experiences vary on an axis that can be generalised and applied for other countries in the continent, since they happened in countries from different regions and with different backgrounds. Throughout the book, challenges and opportunities for democracy consolidation in Burkina Faso, Republic of Congo, Democratic Republic of Congo, Nigeria, Rwanda and Zimbabwe are studied and invite the reader to promptly question conventional knowledge on the topic. In addition, the book also analyses the mechanisms and tools that the African Union have to manage (un)democratic changes on its member-states and thoroughly and innovatively assesses the impacts that migration has on democracy in Africa. As a passionate researcher on African politics and international relations, I am confident to say that this book will be useful for anyone who wants to get a better and unbiased sense on challenges and opportunities for democracy

in Africa. By challenging conventional knowledge and presenting fair generalisations whilst highlighting heterogeneity, this book contributes to a better understanding of the democratic processes in the continent and encourages scholars and students to deepen their knowledge and to engage in further research on the topic. Since I save no effort in helping people to develop a critical thinking and to deconstruct stereotypes that accompany African politics, this book will certainly be included in the recommended readings for my students.

Pazze di Lui - Mad for Him: Hagiographic Stereotypes, Mental Disturbances and Anthropological Implications of Female Saintliness in Italy and Abroad from the 13th to the 20th Century Mattia Zangari,2024-06-17 The aim of this book is to investigate the delicate relationship between female sanctity and madness, in a time-frame extending from medieval until contemporary times. Constellated by visions, ecstatic raptures, morbid rituals, stigmata and obsessions, the complex phenomenology of female mysticism appears in fact to be articulated and polymorphous, traversed by 'representations' that it seems possible to link to the wide spectrum of mental disorders, as well to the hagiographic stereotypes and anthropological implications. Male and female scholars from different disciplines (from history to philology, from anthropology to art history, from theology to literary criticism, from psychiatry to psychoanalysis) try to outline a thematic and problematic itinerary, intended to examine, step by step, potential pathological aspects and contexts of reference for the purpose of attempting to reconstruct the complex evolutionary trajectory of female mystical language.

Opere complete: XI: Recensioni di libri (1950-1959) Bruno Leoni,2013-05-27 Questo volume – che inaugura la pubblicazione in formato elettronico delle Opere complete di Bruno Leoni – include tutte le 408 recensioni scritte per la rivista “Il Politico” nel corso di un decennio (1950-1959). A sorprendere non è soltanto l’elevato numero di recensioni, ma anche la diversità degli argomenti trattati: dalla psichiatria all’arte, dalla religione alla letteratura, dall’archeologia alle civiltà orientali, dalla storia all’architettura, oltre naturalmente alla politica, all’economia e al diritto. Si tratta di un testo utile per due motivi in particolare. Da un lato per capire meglio il pensiero di Leoni, poiché in queste recensioni i suoi riferimenti culturali vengono esplicitati e si chiarisce bene quale fosse la sua concezione della politica, della filosofia e della società. Dall’altro esso consente di farsi un’idea sugli argomenti di cui (non) si discuteva in Italia negli anni Cinquanta. “Il Politico” – fondato dallo stesso Leoni nel 1950 – fu infatti un mirabile tentativo di innovare la cultura italiana e in queste recensioni, che sono per la maggior parte di libri stranieri, l’Autore suggerisce traduzioni e propone idee e argomenti in Italia allora poco conosciuti, o spesso conosciuti male. Le recensioni non sono mai banali, e anzi vi emerge con chiarezza quali siano le valutazioni, le idee e in generale il pensiero di Leoni. Fare esplorazioni in campi così diversi e saperne trarre vantaggio nell’elaborazione di idee nel proprio settore di ricerca richiede indubbiamente un’intelligenza e una cultura fuori dall’ordinario. Ma questo era il suo approccio metodologico: le scienze umane gli apparivano intimamente connesse e solo da una loro trattazione comune era convinto di poter trovare la soluzione ai problemi sociali.

Schiavitù e servaggio nell’economia europea. Secc. XI-XVIII = Serfdom and Slavery in the European Economy Simonetta Cavaciocchi,2014 Il volume esamina i rapporti di lavoro non contrattuali (schiavitù e servaggio) che a lungo contraddistinsero l’economia europea, sia pure con andamenti assai diversi nelle differenti aree. I saggi in esso contenuti esaminano la evoluzione del servaggio (visto come il lato economico del regime signorile) e delle diverse forme di sottomissione personale, fino alla vera e propria tratta degli schiavi, di cui i mercanti europei furono protagonisti, mettendo in luce una situazione

assai più complessa e articolata di quanto gli schemi interpretativi tradizionali lasciassero intuire.

The Green Ages Annette Kehnel, 2024-08-08 WINNER OF THE 2021 NDR BOOK PRIZE IN GERMANY 'A must-read' Lyndal Roper, Regius Professor of History at Oriel College, Oxford Fishing quotas on Lake Constance. Common lands in the UK. The medieval answer to Depop in the middle of Frankfurt. These are all just some of the sustainability initiatives from the Middle Ages that Annette Kehnel illuminates in her astounding new book, *The Green Ages*. From the mythical-sounding City of Ladies and their garden economy to early microcredit banks and rent-a-cow schemes, Kehnel uncovers a world at odds with what we might think of as the typical medieval existence. Pre-modern history is full of inspiring examples and concepts that open up new horizons. And we urgently need them as today's challenges - finite resources, the twilight of consumerism, growing inequality - threaten what we have come to think of as a modern way of living sustainably. This is a revelatory look at the past that has the power to change our future.
