Formación para el emprendimiento en la enseñanza de economía y escuelas de negocios María Teresa Freire Rubio, 2016-02-22 La tesis doctoral analiza el papel que desempeñan los centros de formación superior, universidades y en particular las escuelas de negocios, desde sus diferentes Programas de Postgrado, a la hora de responder a la demanda de los potenciales emprendedores que buscan en estos programas adquirir y desarrollar las habilidades necesarias para llegar a convertirse en emprendedores de éxito. El objeto de este estudio es identificar el perfil de los “potenciales emprendedores” que optan por embarcarse en este tipo de formación. Esto es, nuestro planteamiento de partida es: ¿el emprendedor nace o se hace? Fue el intento por dar respuesta a esta pregunta lo que motivó el buscar esos rasgos comunes que pudieran identificar a esos potenciales emprendedores, tanto desde el punto de vista de aptitudes y actitudes o características que poseían en común todos aquellos que manifestaban su inquietud por “emprender”, como el identificar las herramientas o habilidades que, de forma también común, demandaban estos potenciales emprendedores cuando buscan formarse en habilidades empresariales. Se ha planteado el uso de una metodología a partir de una encuesta realizada a los actuales estudiantes de Programas Máster, para intentar conocer tanto su impulso emprendedor, como cuáles son las herramientas que ellos considerarían necesarias obtener en esta formación Máster para poder llegar a emprender. Todos los datos obtenidos de estas encuestas han sido tratados con los métodos estadísticos más actuales, con el fin de poder obtener la mayor información y resultados posibles. Igualmente, el fin último del estudio es que, a partir de los resultados obtenidos, a futuro, se pueda llegar a realizar una propuesta de contenidos académicos, teóricos y/o prácticos, que se consideren necesarios añadir a estos programas, para adecuar más su contenido a la formación requerida por los futuros emprendedores. En conclusión, se intenta justificar, tras el análisis de nuestro estudio empírico, que el “emprendedor nace”, es decir, el posible y futuro emprendedor tiene una predisposición a ello, ya sea por tradición familiar o por la aparición de iniciativa innata propia y por tanto, las escuelas de negocios con su formación en emprendimiento lo que hacen es definir y perfilar las habilidades y herramientas que este potencial emprendedor necesita, para poder poner en marcha sus ideas de negocio con mayor garantía, o lo que es lo mismo, con una garantía técnica sólida. ÍNDICE Introducción Apéndice 1: Start-ups: The University as promoter, main lines of research Capítulo 1. Marco Conceptual Apéndice 2: Economía para Bachilleres Capítulo 2.
