Ladies for Liberty John Blundell, 2011 In this 2nd Edition, John Blundell gives a lively portrait of more than 25 American women who spoke out for liberty, helping to shape the political and social fabric of the United States. His subjects range from frontier novelists to suffragists to the inventor of life insurance for women and a tax collector who challenged the IRS. Arranged chronologically, the stories add up to a history of America. Responses to the first edition were so positive that the author has added five more of the best stories in US Women's History, namely Anne Hutchinson, Clara Barton, Alice Paul, Rosa Parks, and Mildred Loving. '*Ladies for Liberty*' combats the myth that women want, and benefit from, big government. In this new, expanded edition of biographies of American women, John Blundell shares further evidence that the spirit of independence has always been a strong impetus for America's leading ladies. He shows that the underlying motivation of the women portrayed in these pages was self-determination as a virtue, and the conviction that individuals should be allowed to pursue their own ends, free from the coercion of others. His selection focuses on women of Conservative/ Libertarian views, whether they were active in politics, business owners, writers or other cultural figures. Black as well as white, these women were revolutionary, some directly influencing the colonial breakaway from great Britain, some fighting for Abolition, others breaking new ground professionally. Each one not only made women's voices heard but made it clear that women have something to say that is both valid and valuable. This book is intended for American and British readers alike, high school and above, and all who are interested in American history, Conservative/ Libertarian politics, or Women's Studies.

Little House Sampler Laura Ingalls Wilder, 1989-10-04 For everyone who loves the Little House books--a reissue of a charming collection of early stories and reminiscences by Laura Ingalls Wilder, along with essays and writings from her daughter, Rose Wilder Lane, who was an award-winning writer. Children and Cultural Memory in Texts of Childhood Heather Snell,Lorna Hutchison,2013-11-07 The essays in this collection address the relationship between children and cultural memory in texts both for and about young people. The collection overall is concerned with how cultural memory is shaped, contested, forgotten, recovered, and (re)circulated, sometimes in opposition to dominant national narratives, and often for the benefit of young readers who are assumed not to possess any prior cultural memory. From the innovative development of school libraries in the 1920s to the role of utopianism in fixing cultural memory for teen readers, it provides a critical look into children and ideologies of childhood as they are represented in a broad spectrum of texts, including film, poetry, literature, and architecture from Canada, the United States, Japan, Germany, Britain, India, and Spain. These cultural forms collaborate to shape ideas and values, in turn contributing to dominant discourses about national and global citizenship. The essays included in the collection imply that childhood is an oft-imagined idealist construction based in large part on participation, identity, and perception; childhood is invisible and tangible, exciting and intriguing, and at times elusive even as cultural and literary artifacts recreate it. Children and Cultural Memory in Texts of Childhood is a valuable resource for scholars of children's literature and culture, readers interested in childhood and ideology, and those working in the fields of diaspora and postcolonial studies.

The Book Tree Elizabeth McCallum,Jane Scott,2008 Literary habits naturally give way to literary affections. Once upon a time, a carpenter entered a forest and happened upon a wolf wearing a feathered cap. Quick -- whose side are you on? If you don't know, we suggest reading a hearty round of fairytales. Stories provide a roadmap for life. This is because stories are life. But oftentimes it's easiest to understand where we are when we can look through other eyes -- from the perspective of someone else, living somewhere else, somewhen else. For those beginning to read for the first time or those beginning to read again, The Book Tree will drop golden apples in your lap, until you can climb high enough to pick for yourself.
