**Just Universities** Gerald J. Beyer, 2021-02-23 Gerald J. Beyer's Just Universities discusses ways that U.S. Catholic institutions of higher education have embodied or failed to embody Catholic social teaching in their campus policies and practices. Beyer argues that the corporatization of the university has infected U.S. higher education with hyper-individualistic models and practices that hinder the ability of Catholic institutions to create an environment imbued with bedrock values and principles of Catholic Social Teaching such as respect for human rights, solidarity, and justice. Beyer problematizes corporatized higher education and shows how it has adversely affected efforts at Catholic schools to promote worker justice on campus; equitable admissions; financial aid; retention policies; diversity and inclusion policies that treat people of color, women, and LGBTQ persons as full community members; just investment; and stewardship of resources and the environment.

**Global Dimensions** John R. Short, 2001 John Rennie Short disagrees with the common, negative stereotype of globalization, arguing that the world today actually thrives on local differences and that a global polity tends to reinforce, not repress, the power of individual nation-states.

*Preparing Vietnam for new rules on international market* Pham, T.T., Nguyen, D.T., Đào Thi, L.C., Hoàng, T.L., 2020-03-11 Deforestation-free production will be a requirement of the global market from now through 2030. More than 1,000 financial institutions (e.g. banks, trusts, donors) and 600 multinational companies have pledged to produce and supply zero-deforestation agricultural products, and these establishments (financial institutions and multinational companies) are developing a process of testing, screening and certification for service providers and countries that produce or export agroforestry products. The governments of European countries, the Americas and Australia are also aggressively building a legal framework to monitor and verify that imported goods have not resulted in deforestation or forest degradation. In Vietnam, 92 domestic and foreign companies from 21 fields and industries have signed commitments to achieve zero deforestation by 2020. These industries include: fashion (apparel and footwear); agriculture; cosmetics and personal care; food and agriculture; retail chains; home construction (furniture and flooring, and renovation supplies); consumer goods; paper and packaging; printing and publishing; and automotive industry (rubber, automobile manufacturing). These companies contribute greatly to the national GDP and local economic development, and are major buyers of agricultural

products including coffee, wood, soybeans and poultry. However, businesses in Vietnam are not prepared to adapt the supply chain of agroforestry products to this trend; they require knowledge and skills to face the new market requirements. Without further research and long-term planning, Vietnam's agroforestry products industry is at risk of losing market share to fierce international competition, leading to enormous economic losses for the country. The government needs to develop a legal framework to support and monitor companies that meet deforestation-free commitments, while building the capacity of stakeholders to respond to the requirements of new markets, in order to ensure a solid position for agroforestry products and their sustainable contribution to the national economy over the next 30 years.

*The Global Corporation* Laura P. Hartman, Patricia H. Werhane, 2013-12-19 This text brings together case studies focusing on specific instances of corporate best practices. All too often, we showcase cases based on questionable or unethical corporate behavior. Instead, the editors bring together in this book examples of how some firms got it right. Certainly, there is no claim that the companies in these cases are perfect; some of them may have histories that include questionable practices. But, these are companies that work to foster trust, both internally and in their relationships with customers, suppliers, shareholders, and the communities in which they operate. The book is not, however, merely a descriptive iteration of effective corporate conduct. The editors conclude with an analysis of frameworks for corporate and managerial ethical decision-making - frameworks that help to establish models for best practices. These frameworks then can be generalized and applied to other corporate situations, and replicated by other companies in their search for excellence and the resulting avoidance of misconduct.

In the book, you'll also find: Explorations of the competitive strategy and associated tactics of Chinese enterprise Strategies and tactical options for Western business executives as they compete in and with the Chinese state Descriptions of the key factors business executives must assess as they do business in and with China An essential discussion of one of the great economic powerhouses of contemporary history, Enterprise China belongs in the libraries of

business executives, policy makers, and thought leaders seeking perspective on an unavoidable and determined competitor.

**McNamara, Clifford, and the Burdens of Vietnam 1965-1969** Edward J. Drea, 2011 Overseeing the Vietnam War and contending with these complex policy issues taxed even McNamara's enormous energy and brilliant intellect as he struggled to manage DoD programs. His long-cherished cost-cutting programs fell by the wayside; his favored weapons systems were swept aside; his committed efforts to limit strategic arms faltered; and his reputation was permanently tarnished.

*McNamara, Clifford and the Burdens of Vietnam* highlights the interaction of McNamara and Clifford with the White House, Congress, the JCS, the Department of State, and other federal agencies involved in policy formulation. The two secretaries increasingly found that the cost of winning the war became a morally prohibitive as the price of losing.

But sport is also a huge worldwide industry. He shows how phenomena such as migration, labour, commerce and politics affect the athletes and the fans, continually reshaping the business and experience of sport. *Globalizing Sport* puts sport in its political, economic and social context, revealing its connections with businesses, countries, media outlets and education systems.

**From Vietnam to Vegas!** Qui Nguyen, Steve Blay, 2017-11-01 Poker players are always told that to be successful, you have to play aggressively. What is not usually explained is just exactly how you are supposed to play aggressively. On the Final Table of the 2016 WSOP Main Event, Qui Nguyen destroyed the opposition with an absolute masterclass in aggressive play and walked away with the coveted gold bracelet as well as \$8 million. If you want to understand what this mythical "playing aggressively" means in practical terms, then *From Vietnam to Vegas* will give you the answer. Many of the experienced professionals commentating for TV simply couldn't understand Qui's play. Antonio Esfandiari, who has won over \$27 million in live play, commented, "I couldn't get a read on Qui Nguyen if my life depended on it." *From Vietnam to Vegas* tells the complete story behind Qui's magnificent achievement. In this book Qui: reviews 176 key hands from his historic

victory at the WSOP Final Table provides an in-depth analysis of his thought process on each hand and relates the story of his life, from his early struggles in Vietnam through to his transition to a poker professional in Las Vegas. The book also includes commentary from Steve Blay, founder of AdvancedPokerTraining.com and Qui Nguyen's personal poker advisor at the final table. Blay's commentary often analyzes the mathematical basis behind Qui's decisions, and discusses practical ways to apply it to your own poker game.

Global Corporate Citizenship Anuradha Dayal-Gulati, Mark Finn, 2007-09-04 Looks at issues of corporate responsibility globally, at companies in developing countries facing important challenges within their own countries.

*The Civil Corporation* Simon Zadek, 2012-05-04 The Civil Corporation is an award-winning classic, well recognized as the most insightful exploration of contemporary developments in responsible business practices and their implications for business strategy and public policy. This revised second edition adds a significant new section describing and reflecting on developments since the book's first publication in 2001. This new material draws on the author's practical experience over the last five years working as Chief Executive of Account Ability with some of the world's leading businesses and public bodies on policies and practices that advance the emerging shift in businesses' role in society. This book is top drawer reading for business professionals, management students and academics, and activists and public servants. It goes to the heart of the issue of business in society, cutting through the rhetoric of campaigners and business-speak alike in framing the tough questions in balanced and yet provocative terms. Crucially, it connects an insightful vista of the broader landscape with a set of practical 'dos' for businesses and their stakeholders that have stood the test of time. The accolade of winning the prestigious Academy of Management Award in 2006 confirms that Zadek has achieved what every author aspires to: a book that is both timely and timeless in its application. This revised edition builds on this success by providing new information and insights for practitioners, academics and students

Vietnam D.R. SarDesai, 2018-02-23 "An indispensable tool for college students and general readers, the only available text that treats Vietnamese history in its entirety, from its beginning to the twenty-first century, as it places Vietnam within the regional and global context. SarDesai's Vietnam looks at Vietnam as a country and not just as a war. The text has also benefited from its author's decades-long expertise on Southeast Asia as reflected in the comprehensive bibliography and use of the latest works." —NGUYEN THI DIEU, Ph.D., Temple University

**Nothing Is Impossible** Ted Osius, 2021-10-15 Ted Osius, U.S. Ambassador to Vietnam from 2014-17, offers a vivid first-hand account of the various forms of diplomacy that brought about the reconciliation between two former enemies and helped bring new prosperity to Vietnam. With a foreword by former Secretary of State John Kerry, Nothing Is Impossible tells an inspiring story of how international diplomacy can create a better world.

**Sport Law** Anita M. Moorman, 2017-07-05 Sport Law: A Managerial Approach, third edition, merges law and sport

management in a way that is accessible and straightforward. Its organization continues to revolve around management functions rather than legal theory. Concise explanations, coupled with relevant industry examples and cases, give readers just enough legal doctrine to understand the important concepts that apply to each area. This book will help prepare students as they get ready to assume a broad range of responsibilities in sport, education, or recreation. Whether readers work as coaches or teachers; administer professional programs; manage fitness/health clubs; or assume roles in a high school, college, Olympic, or professional sport organization, legal concerns will inevitably be woven into their managerial concerns. This book provides knowledge of the law that helps create a competitive advantage and build a more efficient and successful operation that better serves the needs of its constituents. Special Features of the Book Managerial context tables. Chapter-opening exhibits act as organizational and study tools identifying managerial contexts in relation to major legal issues, relevant law, and illustrative cases for the chapter. Case opinions, focus cases, and hypothetical cases. Legal opinions--both excerpted (case opinions) and summarized (focus cases)--illustrate relevant legal points and help readers understand the interplay between fact and legal theory. The cases include questions for discussion, and the instructor's manual provides guidance for the discussion. Hypothetical cases further highlight topics of interest and include discussion questions to facilitate understanding of the material; analysis and possible responses appear at the end of the chapter. Competitive advantage strategies. Highlighted, focused strategies based on discussions in the text help readers understand how to use the law to make sound operational decisions and will assist them in working effectively with legal counsel. Discussion questions, learning activities, and case studies. Thoughtful and thought-provoking questions and activities emphasize important concepts; they help instructors teach and readers review the material. Creative case studies stimulate readers, as future sport or recreation managers, to analyze situations involving a legal issue presented in the chapter. Annotated websites. Each chapter includes a collection of web resources to help readers explore topics further. Accompanying the web addresses are brief descriptions pointing out key links and the sites' benefits. Bookmarking these sites will help readers in future research or throughout their careers.

**Corporate Bodies and Guilty Minds** William S. Laufer, 2008-10-31 We live in an era defined by corporate greed and malfeasance—one in which unprecedented accounting frauds and failures of compliance run rampant. In order to calm investor fears, revive perceptions of legitimacy in markets, and demonstrate the resolve of state and federal regulators, a host of reforms, high-profile investigations, and symbolic prosecutions have been conducted in response. But are they enough? In this timely work, William S. Laufer argues that even with recent legal reforms, corporate criminal law continues to be ineffective. As evidence, Laufer considers the failure of courts and legislatures to fashion liability rules that fairly attribute blame for organizations. He analyzes the games that corporations play to deflect criminal responsibility. And he also demonstrates how the exchange of cooperation for prosecutorial leniency and amnesty belies true law enforcement. But none

of these factors, according to Laufer, trumps the fact that there is no single constituency or interest group that strongly and consistently advocates the importance and priority of corporate criminal liability. In the absence of a new standard of corporate liability, the power of regulators to keep corporate abuses in check will remain insufficient. A necessary corrective to our current climate of graft and greed, Corporate Bodies and Guilty Minds will be essential to policymakers and legal minds alike. “[This] timely work offers a dispassionate analysis of problems relating to corporate crime.”—Harvard Law Review

Sport and the Color Line Patrick B. Miller, David K. Wiggins, 2004-06 The essays presented here examine the complexity of black American sports culture, from the organization of semi-pro baseball and athletic programs at historically black colleges and universities, to the careers of individual stars such as Jack Johnson and Joe Louis, to the challenges faced by black women in sports.
