Pictures at a Revolution Mark Harris, 2008 Documents the cultural revolution behind the making of 1967's five Best Picture-nominated films, including *Guess Who's Coming to Dinner*, *The Graduate*, *Doctor Doolittle*, *In the Heat of the Night*, and *Bonnie and Clyde*, in an account that discusses how the movies reflected period beliefs about race, violence, and identity. 40,000 first printing.

Good Pictures Kim Beil, 2020-06-23 A picture-rich field guide to American photography, from daguerreotype to digital. We are all photographers now, with camera phones in hand and social media accounts at the ready. And we know which pictures we like. But what makes a good picture? And how could anyone think those old styles were actually good? Soft-focus yearbook photos from the '80s are now hopelessly—and happily—outdated, as are the low-angle portraits fashionable in the 1940s or the blank stares of the 1840s. From portraits to products, landscapes to food pics, *Good Pictures* proves that the history of photography is a history of changing styles. In a series of short, engaging essays, Kim Beil uncovers the origins of fifty photographic trends and investigates their original appeal, their decline, and sometimes their reuse by later generations of photographers. Drawing on a wealth of visual material, from vintage how-to manuals to magazine articles for working photographers, this full-color book illustrates the evolution of trends with hundreds of pictures made by amateurs, artists, and commercial photographers alike. Whether for selfies or sepia tones, the rules for good pictures are always shifting, reflecting new ways of thinking about ourselves and our place in the visual world.

Revolution Enzo Traverso, 2024-04-30 Brilliant and beautiful. Now this book exists, it's hard to know how we did without it. –China Miéville, author of *October* A cultural and intellectual balance-sheet of the twentieth century's age of revolutions This book reinterprets the history of nineteenth and twentieth-century revolutions by composing a constellation of dialectical images: Marx's locomotives of history, Alexandra Kollontai's sexually liberated bodies, Lenin's mummified body, Auguste Blanqui's barricades and red flags, the Paris Commune's demolition of the Vendôme Column, among several others. It connects theories with the existential trajectories of the thinkers who elaborated them, by sketching the diverse profiles of revolutionary intellectuals—from Marx and Bakunin to Luxemburg and the Bolsheviks, from Mao and Ho Chi Minh to José Carlos Mariátegui, C.L.R. James, and other rebellious spirits from the South—as outcasts and pariahs. And finally, it analyzes

the entanglement between revolution and communism that so deeply shaped the history of the twentieth century. This book thus merges ideas and representations by devoting an equal importance to theoretical and iconographic sources, offering for our troubled present a new intellectual history of the revolutionary past.

A Flood of Pictures Michael Leja,2025-07-22 Explores how the widespread circulation of pictures reshaped a nineteenth-century US culture that was accustomed to printed and spoken words When and how did pictures start to permeate everyday lives in the United States? What happened to those daily lives when they did? And what happened to pictures in the process? In this full-color, heavily illustrated book, Michael Leja traces the beginnings of a transformation in cultural life in the United States: when the widespread circulation of pictures reshaped a culture accustomed to printed and spoken words. In the three decades before the Civil War, the ordinary experiences of a large segment of the population came to include pictures of many kinds, including illustrations in books, pamphlets, and newspapers; photographs on cards; full-sheet printed pictures collected in scrapbooks or albums or hung on walls; posters and broadsheets; spectacular paintings displayed in theatrical venues; and more. Pictures supplemented verbal texts—and in some cases overshadowed them—for conveying news and information; portraying people, places, and events; focusing public discourse; selling things; educating and instructing; generating excitement and aesthetic gratification; promoting and disguising political agendas; shaping social identities; and building and undermining social bonds. *A Flood of Pictures* recovers a time before successful pictorial formulas for mass appeal were established, before an audience habituated to consumption of pictures existed, and before pictures had become thoroughly commodified. Through its exploration of these nineteenth-century developments, the book reveals the foundations of our picture-saturated twenty-first century.

Paul Thomas Anderson: Masterworks Adam Nayman,2020-10-20 “A master class of the masterworks of Paul Thomas Anderson” (Variety Magazine), Adam Nayman’s full-color coffee-table gift book explores the creative journey of the multiple Academy Award-nominated writer and director. Foreword by the Safdie Brothers “Full of lavish photographs from his best-loved films.” —A. Frame Paul Thomas Anderson: Masterworks is a fact-filled treasure-trove for movie fans; it explores Anderson’s career, including the critically acclaimed, award-winning movies: *Hard Eight* (1996) *Boogie Nights* (1997) *Magnolia* (1999) *Punch Drunk Love* (2002) *There Will Be Blood* (2007) *The Master* (2012) *Inherent Vice* (2014) *Phantom Thread* (2017) Anderson has been described as “one of American film’s modern masters” and “the foremost filmmaking talent of his generation.” His films have received more than 25 Academy Award nominations, and he has worked closely with many of the most accomplished actors of our time, including Lesley Ann Manville, Julianne Moore, Daniel Day-Lewis, Joaquin Phoenix, and Philip Seymour Hoffman. Film critics and fans are constantly looking forward to what he might create next and

discuss the meaning and technical aspects of his movies and their most famous scenes. Mark Wahlberg in *Boogie Nights*, Daniel Day-Lewis in *There Will be Blood*, and Joaquin Phoenix in *The Master* are not just memorable movie performances, they are the stuff of Hollywood legend. It also covers his music videos for Radiohead and his early short films. All are examined and illustrated in detail. Anderson's influences; his style; and the recurring themes of alienation, reinvention, ambition, and destiny that course through his movies are analyzed and supplemented by firsthand interviews with his closest collaborators—and illuminated by film stills, archival photos, original illustrations, and an appropriately psychedelic design aesthetic. *Paul Thomas Anderson: Masterworks* is a tribute to the dreamers, drifters, and evil dentists who populate his world.

The American Revolution in Drawings and Prints Library of Congress, 1975 Pictures of the Revolutionary period between 1765 and 1790 represent the immediate record of a major event in world history. Mostly European products from England, France, and Germany, they reflect propagandistic tones and hasty inaccuracies, but they also give a feeling of vital immediacy and show how men saw the Revolution while it was happening. We find few prints made in America during those years because type, steel, lead, paper, presses, and skilled manpower became scarce during the war, and only the most heroic printers continued their productions on a smaller scale. -- Preface.

The Trickster in Contemporary Film Helena Bassil-Morozow, 2013-03 This book discusses the role of the trickster figure in contemporary film against the cultural imperatives and social issues of modernity and postmodernity, and argues that cinematic tricksters always reflect psychological, economic and social change in society. It covers a range of films, from Charlie Chaplin's classics such as *Modern Times* (1936) and *The Great Dictator* (1940) to contemporary comedies and dramas with 'trickster actors' such as Jim Carrey, Sacha Baron-Cohen, Andy Kaufman and Jack Nicholson. *The Trickster in Contemporary Film* offers a fresh perspective on the trickster figure not only in cinema but in Western culture in general. Alongside original film analyses, it touches upon a number of psychosocial issues including sovereignty of the individual, tricksterish qualities of the media, and human relationships in the mercurial digital age. Further topics of discussion include: common motifs in trickster narratives the trickster and personal relationships gonzo-trickster and the art of comic insurrection. Employing a number of complementary approaches such as Jungian psychology, film semiotics, narrative

structure theories, Victor Turner's concept of liminality and Mikhail Bakhtin's theory of the carnivalesque, this book is essential reading for students and scholars of film, as well as anyone with an interest in analytical psychology and wider critical issues in contemporary culture.
