Patrick Curry

Project: Soul Catcher Robert Duncan, 2010-09-27 Volume 2 details the CIA's practices of interrogation and cybernetic mind control in their pursuit to weaponize neuropsychology. It covers the art of bio-communication war. Human beings are complex machines but their inner workings have been deciphered. Mind control and brainwashing have been perfected in the last 60 years. Hacking computers and hacking into individual minds are similar. The 21st century will be known as the age of spiritual machines and soulless men.

The Soul-Catcher's Calling Nigel J. Jamieson LLD, 2020-01-08 There are hot-spots, sink-holes, and hell-holes all over the earth. They move around a bit. Baghdad in Iraq has been often a hot-spot, Kabul in Afghanistan is another. Then there's the sink-hole of Tehran in Iran, together with the recently war-torn Damascus in Syria. Don't blame the places, nor even the folks. New York in the USA, London in the UK, and Brussels in the EU are no different for being sometimes politically-sinking hot-spots or terrorist-targeted hell-holes. In terms of prophetic history, a welter of the world's biggest cities are everyday battlegrounds from which governmental academics compartmentalise their own specialist solutions. Most of these solutions, whether military or civic, fall so far short of the cosmic solution as to escalate the existing state of world disorder. Sure enough, without a barebones history of hell there's no point to fixing up hell-holes. Without the briefest history of heaven, it's also pointless to shore-up sink-holes. And as for the world's hot-spots, you have to look as deep into the souls of the good-guys as you do into the souls of the bad-guys. But you can't just walk off from compartmentalising a problem and expect it to sort itself out. For a workable solution you've got to bring back all the component parts together again that you first took apart and make them work together. That's exactly why this Soul-Catcher's Calling stops at nothing short of dealing with all things both under the sun and beyond the sun. Soul-catching is a military operation, at first under command, and then undertaken entirely by personal commitment. All such tours of duty overseas will be carefully monitored and guided by the most experienced of guardian angels. However perilous the front-line travel, none who seriously commit themselves to this soul-catching operation shall get left behind.

Soulcatcher Charles Johnson, 2001-03-15 Short stories inspired by the history of slavery in America, by the National Book Award-winning author of Middle Passage. Nothing has had as profound an effect on American life as slavery. For blacks and whites alike, the experience has left us with a conflicted and contradictory history. Now, famed novelist Charles Johnson,

whose *Middle Passage* won the National Book Award, presents a dozen tales of the effects and experience of slavery, each based on historical fact, and each about those Africans who arrived on our shores in shackles. From Martha Washington's management of her slaves, bequeathed to her at the death of the first president, to a boy chained in the bowels of a ship plying the infamous passage from Africa to the South laden with human cargo, from a lynching in Indiana to a hunter of escaped slaves searching the Boston market for his quarry, from an early Quaker meeting exploring resettlement in Africa to the day after Emancipation—the voices, terrors, and savagery of slavery come vividly and unforgettably to life. “[These] highly detailed short historical fictions bring to life this most shameful period in our nation's history.” —The New York Times Book Review

Win or Go Home Michael Milligan, 2021-04-12 Is it bipolar or mind control? The people around me, including doctors, say it's bipolar. I say it's mind control. For ten years, I have dealt with this problem. Talking to myself to get through problems has been my strategy and has been forced upon me since 2009. This new world filled with psych wards, the mentally ill, and surveillance is something others are going through. I relied on routine.

Spare Me the Truth CJ Carver, 2018-05-15 When everything you know turns out to be a lie, who can you trust? The explosive new thriller from much-loved crime veteran C.J. Carver C.J. Carver is a top notch thriller writer and *Spare Me the Truth* is right up there with the best - Simon Kernick For fans of Lee Child and Jason Bourne, *Spare Me the Truth* is the gripping new thriller from the multi-award winning author of *Blood Junction*. Dan Forrester, piecing his life back together after the tragic death of his son, is approached in a supermarket by a woman who tells him everything he remembers about his life - and his son - is a lie. Grace Reavey, stricken by grief, is accosted at her mother's funeral. The threat is simple: pay the staggering sum her mother allegedly owed, or lose everything. Lucy Davies has been forced from the Met by her own maverick behaviour. Desperate to prove herself in her new rural post, she's on the hunt for a killer - but this is no small town criminal. Plunged into a conspiracy that will test each of them to their limits, these three strangers are brought together in their hunt for the truth, whatever it costs. And as their respective investigations become further and further entwined, it becomes clear that at the centre of this tangled web is a threat more explosive than any of them could have imagined. Nothing short of brilliant . . . Carver has created a wonderful story here, sort of Jason Bourne meets *Silence of the Lambs*. - Michael Jecks, author of *Blood on the Sands*.

Lords of the World -Control Systems Unveiled Silvio Guerrinha,2025-04-30 This book analyzes, in a current way, and adapts it to the reality of the 21st century, who are the Occult Cabal, the Illuminati, and the manipulative media. Topics covered include social manipulation, the dissemination of contradictory information, predictive programming, and the espionage tactics employed by the media and the CIA to control society. Analyses recent sightings of UFOs, orbs, and drones in the United States and Europe: is Project Blue Beam underway? It reveals who the real Illuminati are, showing that the Order did not emerge in 1776 with Adam Weishaupt, but dates back millennia. Analyzes the Great Reset, Agenda 21, planned global economic crises, BilderBerg, Club of Rome, global surveillance and the advance of the New World Order. Based on recent research, this book is an essential source of information relevant to today, without dusty or recurring theories.

Sketchbook Timothy O'Donnell,2011-09 This book explores influential designers’ sketchbooks as a truer reflection of a designer’s thought processes, preoccupations, and problem-solving strategies than can be had by simply viewing finished projects. Highly personal and idiosyncratic, sketchbooks offer an arena for unstructured exploration, a space free from all budgetary and client constraints. Visually arresting objects in their own right, this book aims to elevate sketches from mere ephemera to important documents where the reader can glean valuable insight into the creative process, and apply it to their own practices. Featured designers include Ralph Caplan, Nigel Holmes, Chris Bigg, Eva Jiricna, Jason Munn, Gary Baseman, Marian Bantjes, and many others.

The Targeting of Myron May: Florida State University Gunman : Assistant D.A. Pushed Over the Edge (Mind Control Technology Book Series) Book 5 of 7 Renee Pittman,2015-03-19 A young, gifted Assistant District Attorney's tragic end, after

revealing himself a victim of a documented high-level targeting program, enforced by patented, highly advanced psycho-physical technologies, reporting it covertly destroyed his life and career. He met his demise after opening fire at Florida State University's Strozier Library, just after midnight, November 20, 2014, injuring three and his quest for Suicide by Cop. My deepest regret is that I did not make a more diligent effort of documenting my experiences as a Targeted Individual along the way; however, this document is my feeble attempt at recounting my experiences thus far. First off, to anyone that may read this document, take a brief moment to pray for my soul. What I am about to do I have deep regret for; however, I feel that my options are extremely limited. Because I am a targeted individual, everything has been taken away from me. I have literally been robbed of life through psychological, financial, and emotional hardship... - November 17, 2014 Excerpt from Myron May: My Experiences of Being Targeted. On November 20, 2014, at 12:26 a.m., Myron De Shawn May, entered Florida State University, Strozier Library, and opened fire injuring three, two of whom were students, and the third an alum employee. The media reported that by 12:30 a.m., a mere 4 minutes later, May lay face down, dead, after a hail of bullets just outside the library door by law enforcement after refusing to relinquish his weapon. Initial media reports vary as to whether he shot first. Prior to the shooting, Myron May via Certified Mail sent out ten packages to various associates and social network contacts across the United States hoping to detail his story after his death. He strategically planned for the packages to arrive the day after the shooting. Although the Postal Inspector, and FBI, intercepted and confiscated the packages across the United States immediately, weeks later six letters would surface which May created by email of the information inside the packages. His suicide letter and YouTube video provide insight into the anguish and a well-organized mind that had, it appears, devised a scheme for permanent emotional relief. The emailed information within the certified mailings laid the foundation for this book. In Myron May's own words, his last wish, stated within his suicide letter, was that his painful story never dies. AUTHOR'S NOTE: Today there are thousands reporting being used as human guinea pigs, who are fighting the good fight, refusing to bend or break! The nationwide goal instead is that awareness of covert, monstrous, highly perfected technologies, after DECADES of research, TESTING, and development programs will save lives.

He has also brought to light all the events in Herbert's life that would find their way into speculative fiction's greatest epic. Carpe Mañana Leonard Sweet, Leonard I. Sweet, 2001 The Message Never Changes. But Our Methods Must. If God so loved the world . . . then we ought to, too. But how? While the church dreams of old wineskins, the future is arriving, and the world around us has undergone a radical transformation. Those of us over thirty are no longer natives of a modern culture, but immigrants in a postmodern society that speaks the language of cyberspace, grapples with the implications of robotics, nanotechnology, and bioengineering, and looks everywhere but to the church for spiritual and moral guidance. But the gospel sun, far from setting, is poised to shine on this new frontier--provided we'll seize tomorrow and its unprecedented opportunities. The possibilities are limitless for those of us who choose to live as Jesus lived, as people of our time and culture. *Carpe Manana* helps us go native. In nine 'naturalization classes,' Leonard Sweet speeds us toward influence in this postmodern world--a world hungry to encounter the God who knows its soul, speaks its language, and loves it with an all-transforming love.

Defending Middle-Earth Patrick Curry, 2004-10-21 A scholar explores the ideas within The Lord of the Rings and the world created by J. R. R. Tolkien: "A most valuable and timely book" (Ursula K. Le Guin, Los Angeles Times—bestselling author of *Changing Planes*). What are millions of readers all over the world getting out of reading the Lord of the Rings trilogy? Defending Middle-earth argues, in part, that the appeal for fans goes far deeper than just quests and magic rings and hobbits. In fact, through this epic, Tolkien found a way to provide something close to spirit in a secular age. This thoughtful book focuses on three main aspects of Tolkien's fiction: the social and political structure of Middle-earth and how the varying cultures within it find common cause in the face of a shared threat; the nature and ecology of Middle-earth and how what we think of as the natural world joins the battle against mindless, mechanized destruction; and the spirituality and ethics of Middle-earth—for which the author provides a particularly insightful and resonant examination. Includes a new afterword

The Transformation of the Media Nicholas Stevenson, 2014-06-06 The changing pattern of contemporary media is one of the most striking and important transformations of our age. This major new work seeks to understand the implications of a series of mediated processes in relation to public cultures and modern identities. In *The Transformation of the Media* the author leads the reader through a number of complex theoretical issues, connecting the nature of modern communication to the affects this has on our common moral and ethical lives. Most significantly, he argues that a number of perspectives as diverse as Marxism, post-modernism, liberalism, communitarianism and technological determinism can all be found wanting in this regard. *The Transformation of the Media* attempts to situate the media, and more theoretical concerns, within a broad sociological framework. The volume adds to our shared understanding of the media's relation to contemporary cultural transformations including globalisation, the development of informational capitalism, the changing nature of the public sphere and the impact of new social movements. More specifically, through a discussion of the 'new media order' and the Rwandan genocide a critical prism is held up to existing debates concerning the globalisation of the media. Key features: an

extremely topical and accessible analysis of the media's implications for contemporary cultural transformations combines a theoretical and empirical approach presents complex theoretical ideas in an accessible way This book will be essential reading for students studying globalisation, the global media, new media technology, identity and cultural development in cultural studies, media studies, and sociology and politics courses.
