The Quote Sleuth Anthony W. Shipps, 1990 The tracer's goals are to identify the source of a quotation, to find or to produce detailed citation based on a reliable edition of the work, to find an authoritative text of the passage being traced, and to do all this in the shortest time possible and with the least possible amount of effort.

Common and Uncommon Quotes: A Theory and History of Epigraphs Jared A. Griffin, 2023-03-07 'Common and

Uncommon Quotes: A Theory and History of Epigraphs' is a prolegomenon to the study of epigraphic paratextuality. Building on the work of Gerard Genette's paratextual studies, this volume contextualizes and traces the practice of epigraphy in Anglophone literary history, from the fifteenth to the early twentieth century. This study explores how epigraphs are used by author-functions as a hermeneutic for their text and to establish ethos with their audience, and how that paratextual relationship changed as publishing opportunities and literacy rates grew over four centuries. The first broad-reaching study of this kind, 'Common and Uncommon Quotes' seeks to understand how epigraphs work: through their privilege on the page, their appeal to conjured ideas of the past, and their calls to citizenship.

Robert Louis Stevenson William Gray,2004-03-12 More than most writers, Robert Louis Stevenson requires a Literary Life. Fascination with Stevenson's life (the 'Stevenson biography' is almost a minor genre) has tended to eclipse his literary achievement. This study focuses on Stevenson's writing practice within the different geographical, cultural and political contexts that shaped it, from Scotland to the South Seas. Following Stevenson's own views on biography, the book is not structured primarily in terms of chronology, but is more a kind of literary geography than traditional literary history.

Practical and Inspirational Guidelines for Winning J. David Irwin,2021-05-27 This book contains a compilation of lessons learned over a lifetime of study in the school of hard knocks through a wide spectrum of activities that range from family interactions on the one hand to complex business/professional involvements on the other. As a result, numerous personal examples, coupled with biblically and spiritually based inspirational material, are provided that serve to illustrate the ideas and concepts that have been applied to achieve a winning outcome in these environments. Within the context of this book, winning refers to the attainment of a successful outcome, regardless of the context, and although many of the concepts and ideas discussed will be confined primarily to the interpersonal relationships among individuals and presented in the framework of a business or family environment, they are also applicable when dealing with members of a civic organization, a church group, a professional organization, or any other group where people interact or work together for some common goal. Although the achievement of successful personal interactions in any endeavor can be difficult and the optimum path unknown, when the effort is systematically performed in concert with Almighty God, winning can become a way of life.

With more than 4,000 quotations from 1,600 speakers and writers--from bona fide wits like Oscar Wilde and David Letterman, to bona fide dimwits like Britney Spears (who infamously quipped, I go to lots of overseas places, like Canada.)--there's no other book of quotations quite like this one.
