Hunger and Health United Nations World Food Programme,2012-08-21 Hunger and Health explores the multiple relationships between hunger and poor health, and how they affect the growth of individuals, physiologically and psychologically, constraining the development of nations both socially and economically. Examining the profound effect that hunger has on health, including disease prevention and treatment, it gives special attention to access to quality food and healthcare, in particular for the marginalized and poor. It also identifies critical junctures in the human life cycle when the benefits of reducing hunger and improving poor health have a profound impact. It demonstrates how aligning of hunger and health interventions can offer proven solutions that reach those most in need, and contains compelling evidence which confirms that hunger and poor health are solvable problems today. It encourages those involved in policy, programming and advocacy to take action to address some of the most urgent hunger and health problems. Essential reading for anyone concerned about eliminating hunger. Published with the UN World Food Programme.

La Dolce Vita Stephen a Di Biase,Sherman Morrison,2015-02-21 La Dolce Vita describes my life's journey from a lower middle-class family to the ranks of a Fortune 500 executive while enduring the challenges of a lifetime of poor health. The learning is that a good life is possible if one looks upon adversity as a source of advantage while focusing on what's important and managing the urgent appropriately.

Are You Sure? Hazel Dann,2012-11-15 Various topics are enlightened through the media in many different forms; such as hard or soft-cover books, music, television, fiction, non-fiction, the internet, public workshops, educational sessions; all such topics revolve around life. There is information everywhere that can be sought out for what a person wants to learn or teach

others. This information contributes to personalities, abilities, experiences, various skills and talents that make each person unique somehow. Not any one is exactly the same as another. Life consists also of avoiding or preventing certain things. It is my desire to initiate this kind of education based on my own experience and because of the wide-spread relevance of my circumstances. It's also my desire to enable confidence and optimism with the basic belief that much in life has potential and much is possible with a certain perspective. The smallest things that seem insignificant can turn into something of satisfaction.)

You Sound Just Like... Sheree Homer,2022-12-12 Unique among the various types of impersonation entertainers, a tribute artist concentrates on only a few of a famous singer's notable characteristics in order to effectively evoke that performer through song. This book explores the elements of tribute performance through case studies of performers who pay homage to legendary singers like Elvis Presley, Buddy Holly, Johnny Cash and Jerry Lee Lewis. Drawing on original interviews with tribute artists, biographical profiles chronicle performers' early careers, musical influences and their lives on the road. A few performers even reflect on their friendships with musical titans like Fats Domino, Jerry Lee Lewis and The Crickets. Forty tribute artists are profiled, including winners of the Ultimate Elvis Tribute Artist Contest, Million Dollar Quartet alumni and several European performers.

Goliarda Sapienza in Context Alberica Bazzoni,Emma Bond,Katrin Wehling-Giorgi,2016-06-02 The present edited collection of essays on the Sicilian author Goliarda Sapienza includes contributions from established and emerging scholars working in the field of contemporary women's writing. Essays in this volume examine Sapienza through multiple perspectives, taking into account the articulation of subjectivity through autobiographical writing and the complex representation of gender and sexual identities. Also considered here is Sapienza's oblique position within the Italian literary canon, with contributions moving beyond isolated textual analyses whilst attempting to situate the author's works within a framework of intertextual and contextual cultural references. Exploring the fertile network of explicit and implicit

intersections with Italian and European literature (English and French in particular), as well as with Western philosophical thought in which Sapienza's texts are embedded, this volume will provide an overdue contribution to the belated appraisal of an author whose due recognition is, in Cesare Garboli's words, only a matter of time: "Time will work in favour of Goliarda Sapienza's works. And this is not a wish; it is a certainty."
