Huang Di Nei Jing Su Wen Paul U. Unschuld,2003-04-08 The Huang Di nei jing su wen, known familiarly as the Su wen, is a seminal text of ancient Chinese medicine, yet until now there has been no comprehensive, detailed analysis of its development and contents. At last Paul U. Unschuld offers entry into this still-vital artifact of China's cultural and intellectual past. Unschuld traces the history of the Su wen to its origins in the final centuries B.C.E., when numerous authors wrote short medical essays to explain the foundations of human health and illness on the basis of the newly developed vessel theory. He examines the meaning of the title and the way the work has been received throughout Chinese medical history, both before and after the eleventh century when the text as it is known today emerged. Unschuld's survey of the contents includes illuminating discussions of the yin-yang and five-agents doctrines, the perception of the human body and its organs, qi and blood, pathogenic agents, concepts of disease and diagnosis, and a variety of therapies, including the new technique of acupuncture. An extensive appendix, furthermore, offers a detailed introduction to the complicated climatological theories of Wu yun liu qi (five periods and six qi), which were added to the Su wen by Wang Bing in the Tang era. In an epilogue, Unschuld writes about the break with tradition and innovative style of thought represented by the Su wen. For the first time,

health care took the form of medicine, in that it focused on environmental conditions, climatic agents, and behavior as causal in the emergence of disease and on the importance of natural laws in explaining illness. Unschuld points out that much of what we surmise about the human organism is simply a projection, reflecting dominant values and social goals, and he constructs a hypothesis to explain the formation and acceptance of basic notions of health and disease in a given society. Reading the *Su wen*, he says, not only offers a better understanding of the roots of Chinese medicine as an integrated aspect of Chinese civilization; it also provides a much needed starting point for discussions of the differences and parallels between European and Chinese ways of dealing with illness and the risk of early death.

Sharing the Light Lisa Ann Raphals, Professor Lisa Raphals, 1998-01-01 Explores historical and philosophical shifts in the depiction of women and virtue in the early years of the Chinese state. Includes an examination of the history of yin-yang theories.

The Transmission of Chinese Medicine Elisabeth Hsu, 1999-11-11 This is one of the first studies of traditional medical education in an Asian country. Conducting extensive fieldwork in Kunming, the capital of Yunnan Province in the People's Republic of China, Elisabeth Hsu became the disciple of, a Qigong master a scholarly private practitioner, who almost wordlessly conveys esoteric knowledge and techniques; attended seminars given by a senior Chinese doctor, an acupuncturist and masseur, who plunges his followers into the study of arcane medical classics, and studied with students at the Yunnan College of Traditional Chinese Medicine, where the standardised knowledge of official Chinese medicine is inculcated. Dr Hsu compares the theories and practices of these different Chinese medical traditions and shows how the same technical terms may take on different meanings in different contexts. This is a fascinating, insider's account of traditional medical practices, which brings out the way in which the context of instruction shapes knowledge.

Huangdi Neijing , 2010-11-03 *Neijing* is traditional Chinese medicine; it encompasses all the central tenets of Chinese medicine practised today. *Neijing zhiyao*, in two volumes, compiled by Li Zhongzi of the Ming dynasty, was carefully proofread by Xue Shengbai of the Qing dynasty. Among the hundred or so annotated editions of *Neijing Suwen* and *Lingshu* that appeared in different formats and styles in previous generations, only *Neijing zhiyao* compiled by Mr. Li Nianer of the Ming dynasty is the most succinct but pithy. — from Sibu Zonglu Yiyaojian

Chinese pulse diagnosis, focusing on a biography of Chunyu Yi.

Spiritual Healing ...of Our Eternal Souls for all Time! Christopher Alan Anderson,2016-01-18 In Spiritual Healing ...of Our Eternal Souls for all Time! the author tackles the question of universal karma/original sin and how we may free ourselves from that, not just in the eternal sense but in the present moment. As American writer Henry David Thoreau stated, Most men lead lives of quiet desperation and go to the grave with the song still in them. It is the present moment the author wants to address and in so doing, he contends, the eternal takes care of itself. The author presents this writing as a foundational shift (a recalibration of our very souls!) that transcends our current religions and philosophies both East and West. Keywords: Philosophy, Metaphysics, Spirituality, Sexuality, Soul, Light, Love, Relationships, Man, Woman

YinYang Bipolar Relativity: A Unifying Theory of Nature, Agents and Causality with Applications in Quantum Computing, Cognitive Informatics and Life Sciences Zhang, Wen-Ran,2011-03-31 YinYang bipolar relativity can trace its philosophical origins to ancient Chinese YinYang cosmology, which claims that everything has two sides or two opposite, but reciprocal, poles or energies. More specifically, this discipline is intended to be a logical unification of general relativity and quantum mechanics. YinYang Bipolar Relativity: A Unifying Theory of Nature, Agents and Causality with Applications in Quantum Computing, Cognitive Informatics and Life Sciences presents real-world applications of YinYang bipolar relativity that focus on quantum computing and agent interaction. This unique work makes complex theoretical topics, such as the ubiquitous effects of quantum entanglement, logically comprehensible to a vast audience.

Teaching Challenging Texts Lawrence Baines,Jane Fisher,2013-06-27 Teaching Challenging Texts shows how to increase reading comprehension and enhance student engagement, even with the most challenging texts. Every chapter features ready-to-use, research-based lessons, replete with explicit instructions, handouts, Common Core correlations, and assessments. Exploring the Future features fiction by George Orwell, Suzanne Collins, and William Golding; nonfiction by Philip Zimbardo, Stephen Pinker, Abraham Lincoln, Jared Diamond, Dan Ariely, and Ray Kurzweil; images from several films, an old television commercial; and classical and contemporary music. Understanding the Power of One features fiction by Victor Hugo and Lori Halse Anderson; nonfiction by Phillis Wheatley, Sojourner Truth, and Edith Hamilton; a young adult book on archaeology, an animated film from Walt Disney, and an episode from Saturday Night Live. An extensive list of free resources and correlations to the Common Core allow teachers to teach on the cheap. Teaching Difficult Texts brims with relevant and robust lessons for a new generation.

Self-Cultivation in Early China Paul Fischer,2022-07-01 Self-Cultivation in Early China is an introduction to multiple aspects of the foundational practice of self-cultivation in early China (c.1000 to 100 BCE). Drawing on the Chinese classics and the dozens of scholars' texts (both received and excavated) that together form the basis of intellectual history for China and all of East Asia, the book's analysis relies on the topics and categories that were central to the thought of these authors,

including such well-known thinkers as Confucius and Laozi. This book describes a salient point of view from which we may consider the broader landscape of Chinese intellectual history and presents an important paradigm of the scholarly Chinese worldview that is ideal for comparison with paradigms in other communities, ancient or modern, across the globe.

Beckett's Eighteenth Century F. Smith,2001-12-17 Beckett's Eighteenth Century is the first book-length study of Samuel Beckett's affinity with the British eighteenth century and of the influence of its writers on his work. Reading Swift, Pope, Defoe, Fielding, Sterne, Johnson, Gray, and other writers of this period, this study demonstrates how he was not only influenced by them but interprets them for us in a quite modern way. Beckett's uniqueness is not questioned here, but this uniqueness is shown, paradoxically, to have its roots at least in part in his native literature of two centuries ago.

Dictionary of the Ben cao gang mu, Volume 1 Zhibin Zhang,Paul U. Unschuld,2014-12-12 The Ben cao gang mu, compiled in the second half of the sixteenth century by a team led by the physician Li Shizhen (1518-1593) on the basis of previously published books and contemporary knowledge, is the largest encyclopedia of natural history in a long tradition of Chinese materia medica works. Its description of almost 1,900 pharmaceutically used natural and man-made substances marks the apex of the development of premodern Chinese pharmaceutical knowledge. The Ben cao gang mu dictionary offers access to this impressive work of 1,600,000 characters. This first book in a three-volume series analyzes the meaning of 4,500 historical illness terms.

Mum Fans Ye Li,2025-05-30 This book explores the phenomenon of “mum fans”: fans who identify themselves as their idols’ mothers and participate in online, data-related fan activities termed “parenting.” With over 50% active fans identifying as mum fans in China, the vast majority of whom have no children and state no desire to have children in real life, it examines their creation of a unique identity against a backdrop of conflicting and ever-evolving cultural influences. Attending to the fact that in traditional Chinese culture, the term “mum” holds both sacred and taboo status, the author considers whether the mum fans’ appropriation of the term represents conformity or rebellion against existing gender norms, and explores the interplay in their practices of a range of influences, including Confucianism, socialism, the one-child policy, liberalism, feminism, pop culture, and fan culture. Through a combination of qualitative and quantitative research, *Mum Fans: Identity, Feminism, and Fan Culture in Contemporary China* offers analyses of the interrelations that exist between fans, social media, data technology, and the idol industry, thus constituting original and unique study of the cultural

foundations of mum fan identities and participants' data parenting practices as a unique expression of Chinese feminism. It will therefore appeal to scholars of sociology and anthropology with interests in fan cultures, gender, data and algorithm culture, and contemporary Chinese society.

Illumination of the Hidden Meaning Vol. 2 Tsong Khapa Losang Drakpa, 2019-04-16 This is the second volume of the annotated translation of Tsong Khapa's *Illumination of the Hidden Meaning* (sbas don kun gsal), a magnificent commentary on the Cakrasamvara Tantra. This is the first English translation of this important work, which marked a milestone in the Tibetan understanding and practice of the Indian Buddhist tantras. It covers the vows, observances, and conduct of the initiated yogi, particularly in relation to the yoginis, whose favor he must cultivate. It describes in great detail the rites of the tradition, including homa fire sacrifice and the uses of the mantras of the mandala's main deities. The author provides a trilingual English-Tibetan-Sanskrit glossary. Together with the present author's related publications in this series—including a translation of the Cakrasamvara root tantra (2007) and critical editions of its Sanskrit and Tibetan texts (2012), and the first volume of this master Tibetan commentary (2017)—the reader will have the first full study of this important tantra available in English.

Rediscovering Rikyu and the Beginnings of the Japanese Tea Ceremony Herbert Plutschow, 2021-10-01 For the first time, Rikyu's tea is considered as a profoundly important political as well as a socio-religious ritual in response to the dramatic changes taking place in the country at large: the hundred-year civil war (Sengoku) period was finally coming to an end and the process of political unification under the strong military leadership of Oda Nobunaga and Toyotomi Hideyoshi had begun. An important focus in the book is the author's research into why Rikyu's tragic suicide, enforced by Hideyoshi, was a necessary outcome of the emerging conflict between ritual, art and politics. In addition, the study highlights the tensions and struggles between individual artists who were led by a sense of artistic identity and inspiration, together with the political leaders who imposed their artistic taste on the nation. Plutschow also provides new insights into the sixteenth-century Japanese perception of beauty – commonly called wabi – a simple, often austere beauty displayed in tea in order to unite host and guests as equals. This book will be of considerable interest in research connected with politics, Zen Buddhism and art history as well as the central issues regarding the history and development of tea in Japan.
