**Fairchild C-82 Packet** Simon D. Beck, 2017-11-28 Originally designed as a cargo and paratroop transport during World War II, the Fairchild C-82 Packet is today mainly remembered for its starring role in the Hollywood film *The Flight of the Phoenix* (1965). Its ungainly appearance earned it the nickname the flying boxcar but the aircraft was the first to achieve practical end-loading and aerial delivery of cargoes. Its outsized capacity served the U.S. military's needs for more than ten years--civilian operators flew it in remote locations like Alaska and South America for a further three decades. This book provides a comprehensive history of the C-82, detailing each of the 224 aircraft built, with technical diagrams, multiple appendices and more than 200 photos.
