Jean-Paul Sartre: Basic Writings Jean-Paul Sartre, 2001 Jean-Paul Sartre is one of the most famous philosophers of the twentieth century. The principle founder of existentialism, a political thinker and famous novelist and dramatist, his work has exerted enormous influence in philosophy, literature, politics and cultural studies. Jean-Paul Sartre: Basic Writings is the first collection of Sartre's key philosophical writings and provides an indispensable resource for all students and readers of his work. Stephen Priest's clear and helpful introductions set each reading in context, making the volume an ideal companion to those coming to S.

Jean-Paul Sartre Steven Churchill, Dr. Jack Reynolds, 2014-09-11 Most readers of Sartre focus only on the works written at the peak of his influence as a public intellectual in the 1940s, notably *Being and Nothingness*. Jean-Paul Sartre: Key Concepts aims to reassess Sartre and to introduce readers to the full breadth of his philosophy. Bringing together leading international scholars, the book examines concepts from across Sartre's career, from his initial views on the inner life of conscious experience, to his later conceptions of hope as the binding agent for a common humanity. The book will be invaluable to readers looking for a comprehensive assessment of Sartre's thinking - from his early influences to the development of his key concepts, to his legacy.

Feminist Interpretations of Jean-Paul Sartre Julien S. Murphy, 2010-11-01 While Sartre was committed to liberation struggles around the globe, his writing never directly addressed the oppression of women. Yet there is compatibility between his central ideas & feminist beliefs. In this first feminist collection on Sartre, philosophers reassess the merits of Sartre's radical philosophy of freedom for feminist theory. Contributors are Hazel E. Barnes, Linda A. Bell, Stuart Z. Charme, Peter Diers, Kate & Edward Fullbrook, Karen Green, Sarah Lucia Hoagland, Sonia Kruks, Guillermine de Lacoste, Thomas Martin, Phyllis Sutton Morris, Constance Mui, & Iris Marion Young.

A Commentary on Jean-Paul Sartre's *Being and Nothingness* Joseph S. Catalano, 1985-09-15 [A Commentary on Jean-Paul Sartre's *Being and Nothingness*] represents, I believe, a very important beginning of a deservedly serious effort to make the whole of *Being and Nothingness* more readily understandable and readable. . . . In his systematic interpretations of Sartre's book, [Catalano] demonstrates a determination to confront many of the most demanding issues and concepts of *Being and Nothingness*. He does not shrink—as do so many interpreters of Sartre—from such issues as the varied meanings

of 'being,' the meaning of 'internal negation' and 'absolute event,' the idiosyncratic senses of transcendence, the meaning of the 'upsurge' in its different contexts, what it means to say that we 'exist our body,' the connotation of such concepts as quality, quantity, potentiality, and instrumentality (in respect to Sartre's world of 'things'), or the origin of negation. . . . Catalano offers what is doubtless one of the most probing, original, and illuminating interpretations of Sartre's crucial concept of nothingness to appear in the Sartrean literature.—Ronald E. Santoni, *International Philosophical Quarterly*

The Sartrean Mind Matthew C. Eshleman, Constance L. Mui, 2020-01-24 Jean-Paul Sartre was one of the most important philosophers of the twentieth century. His influence extends beyond academic philosophy to areas as diverse as anti-colonial movements, youth culture, literary criticism, and artistic developments around the world. Beginning with an introduction and biography of Jean-Paul Sartre by Matthew C. Eshleman, 42 chapters by a team of international contributors cover all the major aspects of Sartre's thought in the following key areas: Sartre's philosophical and historical context Sartre and phenomenology Sartre, existentialism, and ontology Sartre and ethics Sartre and political theory Aesthetics, literature, and biography Sartre's engagements with other thinkers. The Sartrean Mind is the most comprehensive collection on Sartre published to date. It is essential reading for students and researchers in philosophy, as well as for those in related disciplines where Sartre's work has continuing importance, such as literature, French studies, and politics.

A Commentary on Jean-Paul Sartre's Critique of Dialectical Reason Joseph S. Catalano, 2013-01-17 Sartre's Critique of Dialectical Reason ranks with Being and Nothingness as a work of major philosophical significance, but it has been largely neglected. The first volume, published in 1960, was dismissed as a Marxist work at a time when structuralism was coming into vogue; the incomplete second volume has only recently been published in France. In this commentary on the first volume, Joseph S. Catalano restores the Critique to its deserved place among Sartre's works and within philosophical discourse as a whole. Sartre attempts one of the most needed tasks of our times, Catalano asserts—the delivery of history into the hands of the average person. Sartre's concern in the Critique is with the historical significance of everyday life. Can we, he asks, as individuals or even collectively, direct the course of our history? A historical context for our lives is given to us at birth, but we sustain that context with even our most mundane actions—buying a newspaper, waiting in line, eating a meal. In looking at history, Sartre argues, reason can never separate the historical situation of the investigator from the investigation. Thus reason falls into a dialectic, always depending upon the past for guidance but always being reshaped by the present. Clearly showing the influence of Marx on Sartre's thought, the Critique adds the historical dimension lacking in Being and Nothingness. In placing the Critique within the corpus of Sartre's philosophical writings, Catalano argues that it represents a development rather than a break from Sartre's existentialist phase. Catalano has organized his commentary to follow the Critique and has supplied clear examples and concrete expositions of the most difficult ideas. He explicates the dialogue between Marx and Sartre that is internal to the text, and he also discusses Sartre's Search for Method, which is

published separately from the Critique in English editions.

The Parallel Philosophies of Sartre and Nietzsche Nik Farrell Fox, 2022-04-21 How did Nietzsche and Sartre come to represent alternative modes of philosophy as antithetical thinkers? What exactly is their philosophical connection and how far does it extend? Tracing the connections between the existentialist philosophies of Nietzsche and Sartre, Nik Farrell Fox provides new readings attuned to questions of the self, politics and ethics. From their earliest to final writings, Fox brings into critical view the full trajectory of their lives and philosophy to reveal the underexplored parallels that connect them. Through engaging with new Nietzsche and Sartre studies as authoritative strands of interpretation, this book identifies both philosophers as twin thinkers of a deconstructive and paradoxical logic. Fox further re-examines their work in light of contemporary debates concerning posthumanism, vibrant materialism, quantum theory and speculative realism. *The Parallel Philosophies of Sartre and Nietzsche* presents two iconic existentialists as thoroughly contemporary thinkers whose complex, rich, and sometimes-ambiguous philosophy, can illuminate our present posthuman reality.

Psychobiographies Of Political Leaders From Across The World Claude-Hélène Mayer, Roelf van Niekerk, Moshe Banai, 2025-03-03 The authors explore the life and leadership of extraordinary political leaders in different socio-cultural contexts and epochs and present new insights in political psychobiography. They investigate the lives, personalities, politics,

philosophies, careers, leadership and leadership styles of leaders from the UK, Germany, France, South Africa, China, Turkey and Zimbabwe and lead discourses on the advancement of contemporary theories and methodologies. A must read to understand leaders and leadership in historical, contemporary, cultural and intercultural perspectives!

Sartre's Two Ethics Thomas C. Anderson, 1993 Sartre's moral thinking progressed from an abstract, idealistic ethics of authenticity to a more concrete, realistic, and materialistic morality. Much of Sartre's important unpublished work on ethics - relevant to both his 'first' and his 'second' ethics - has become available to scholars only in the years since his death. Only now has it become possible to give a complete presentation of both the first and the second ethics and to accurately identify their relationship. Sartre's Two Ethics also presents Professor Anderson's original criticisms of Sartre's two ethics, and concludes that the second is a significant advance over the first.

The Sense and Non-Sense of Revolt Julia Kristeva, 2001-12-26 Linguist, psychoanalyst, and cultural theorist, Julia Kristeva is one of the most influential and prolific thinkers of our time. Her writings have broken new ground in the study of the self, the mind, and the ways in which we communicate through language. Her work is unique in that it skillfully brings together psychoanalytic theory and clinical practice, literature, linguistics, and philosophy. In her latest book on the powers and limits of psychoanalysis, Kristeva focuses on an intriguing new dilemma. Freud and psychoanalysis taught us that rebellion is what guarantees our independence and our creative abilities. But in our contemporary entertainment culture, is rebellion still a viable option? Is it still possible to build and embrace a counterculture? For whom—and against what—and under what forms? Kristeva illustrates the advances and impasses of rebel culture through the experiences of three twentieth-century writers: the existentialist John Paul Sartre, the surrealist Louis Aragon, and the theorist Roland Barthes. For Kristeva the rebellions championed by these figures—especially the political and seemingly dogmatic political commitments of Aragon and Sartre—strike the post-Cold War reader with a mixture of fascination and rejection. These theorists, according to Kristeva, are involved in a revolution against accepted notions of identity—of one's relation to others. Kristeva places their accomplishments in the context of other revolutionary movements in art, literature, and politics. The book also offers an illuminating discussion of Freud's groundbreaking work on rebellion, focusing on the symbolic function of patricide in his Totem and Taboo and discussing his often neglected vision of language, and underscoring its complex connection to the revolutionary drive.

Phenomenology World-Wide Anna-Teresa Tymieniecka, 2014-11-14 Phenomenology is the philosophy of our times. Through the entire twentieth century this philosophy unfolded and flourished, following stepwise the intrinsic logic and dynamism of its original project as proposed by its founder Edmund Husserl. Now its seminal ideas have been handed over to a new era. The worldwide contributors to this volume make it manifest that phenomenological inspiration knows no cultural barriers. It penetrates and invigorates not only philosophical disciplines but also most of the sectors of knowledge,

transforming our way of seeing the world, our actions toward others, and our lives. Phenomenology's universal spread has, however, oftentimes diluted its original sense, even beyond recognition, and led to a weakening of its dynamics. There is at present an urgent need to retrieve the original understanding of phenomenology, to awaken its dormant forces and redirect them. This is the aim of the present book: resourcement and reinvigoration. It is meant to be not only a reference work but also a guide for research and study. To restore the authentic vision of phenomenology, we propose returning to its foundational source in Husserl's project of a 'universal science', unpacking all its creative capacities. In the three parts of this work there are traced the stages of this philosophy's progressive uncovering of the grounding levels of reality: ideal structures, constitutive consciousness, the intersubjective lifeworld, and beyond. The key concepts and phases of Husserl's thought are here exfoliated. Then the thought of the movement's classical figures and of representative thinkers in succeeding generations is elucidated. Phenomenology's geographic spread is reviewed. We then proceed to the culminating work of this philosophy, to the phenomenological life engagements so vigorously advocated by Husserl, to the life-significant issues phenomenology addresses and to how it has enriched the human sciences. Lastly the phenomenological project's new horizons on the plane of life are limned, horizons with so powerful a draw that they may be said not to beckon but to summon. Here is the movement's vanguard. This collection has 71 entries. Each entry is followed by a relevant bibliography. There is a helpful Glossary of Terms and an Index of Names.

Secular Grace Dana Freibach-Heifetz, 2017-02-20 In *Secular Grace* Dana Freibach-Heifetz addresses the crisis of modernity, proposing an ethic of love based on a new philosophical concept of "secular grace as intersubjective relations. Anchored in secular humanism as well as within the existentialist tradition, yet recognizing their limitations, *Secular Grace* seeks to protrude them by means of dialogue with their other: Christianity. Inspired by a variety of intellectual roots from ancient Greece to post modernist thinkers - chiefly the deliberations of Buber and Levinas in the encounter with the other, and notions of gift and friendship - it offers a rich concept of Secular Grace. It furthermore examines the possibilities of grace towards the dead, self-grace and secular salvation.

Good Faith and Other Essays Joseph S. Catalano, 1996 Noted scholar Joseph S. Catalano here brings together his new work on Sartre's ethics with five of his classic essays on Sartre's moral thought. In an extended opening essay, Catalano uses Sartre's notion of mediation as a means to integrate the entire range of the French philosopher's moral insights. In the second half of the book, Catalano attempts to delineate a viable notion of good faith, and to distinguish between good and bad faith on the one hand and authenticity and inauthenticity on the other hand.

Existentialist Ontology and Human Consciousness William L. McBride, 2013-09-13 *Existentialist Ontology and Human Consciousness* The majority of the distinguished scholarly articles in this volume focus on Sartre's early philosophical work, which dealt first with imagination and the emotions, then with the critique of Husserl's notion of a transcendental ego, and

finally with systematic ontology presented in his best-known book, *Being and Nothingness*. In addition, since his preoccupation with ontological questions and especially with the meanings of ego, self, and consciousness endured throughout his career, other essays discuss these themes in light of later developments both in Sartre's own thought and in the phenomenological, hermeneutic, and analytic traditions.
