Peter Capstick's Africa Peter Hathaway Capstick, 1987-07-15 Peter Hathaway Capstick is a name synonymous with excitement, danger, and high adventure. Sportsman, adventurer, raconteur par excellence, Capstick has been recognized as a modern-day master of African hunting literature—a successor to the works of Hemingway and Robert Ruark. Capstick has written post facto about classic hunters of the past and safaris in which he participated as a professional hunter in such books as *Death in the Silent Places* and *Death in the Dark Continent*. Now, he presents an enthralling tale of an entirely new safari, an exciting first-person adventure of his own dangerous and very personal excursion. The result is a definitive work on African hunting, and one of his greatest achievements. In 1985, Capstick went back into the African bush with two top photographers and a crack professional hunter. It was a venture taken for personal challenge, and for the chance to look anew at what had become of the Africa immortalized in his own earlier works. Peter Capstick's *Africa: A Return to the Long Grass* is the chronicle, in text and pictures, of this safari. It is full of the same edge-of-the-seat narration, witty anecdotes, and wry observations that have made Capstick's earlier books so popular. The text of the book has been integrated with the photographs of Paul Kimble and Dick van Niekerk into a lavish full-color production that illustrates Capstick's narrative in a way his fans have never seen before.

Death in the Silent Places Peter Hathaway Capstick, 1981-05-15 Finally in paperback, here are the incredible true adventures of Africa's greatest big game hunters. With the unflagging wit, attention to detail and gripping suspense that have become Capstick's trademarks, *Death in the Silent Places* is a truly chilling and rewarding read! Martin's.

Sands Of Silence Peter Hathaway Capstick, 1991-10-15 From renowned hunting writer Peter Hathaway Capstick comes the most lavishly illustrated, historically important safari ever captured in print. Capstick journeyed on safari through Namibia in the African spring of 1989. This was a nation on the eve of independence, a land scorched by sun, by years of bitter war. In these perilous circumstances, he commences what is surely the most thrilling safari of his storied career. He takes the reader to the stark landscape that makes up the Bushmen's tribal territories. There, facing all kinds of risks, members of the chase pursue their quarry in a land of legend and myth. In this first person adventure, Capstick spins riveting tales from his travels and reports on the Bushmen's culture, their political persecution, and the Stone Age life of Africa's original hunter-gatherers. In addition, the author explains the economic benefits of the sportsman's presence, and how

ethical hunting is a tool for game protection and management on the continent. Featuring one hundred striking color images from leading African wildlife photographer Dr. M. Philip Kahl, *Sands of Silence: On Safari in Namibia* superbly illustrates Capstick's return to the veld and perfectly captures life and death in the "land of thirst."

The Last Ivory Hunter Peter Hathaway Capstick, 1988-07-15 A chance meeting around a safari campfire on the banks of the Mupamadazi River leads to *The Last Ivory Hunter: The Saga of Wally Johnson*, a grand tale of African adventure by renowned hunting author Peter Hathaway Capstick. Wally Johnson spent half a century in Mozambique hunting white gold—ivory. Most men died at this hazardous trade. He's the last one able to tell his story. In hours of conversations by mopane fired in the African bush, Wally described his career—how he survived the massive bite of a Gaboon viper, buffalo gorings, floods, disease, and most dangerous of all, gold fever. He bluffed down 200 armed poachers almost single-handedly, and survived rocket attacks from communist revolutionaries during Mozambique's plunge into chaos in 1975. In Botswana, at age 63, Wally continued his career. Though the great tuskers have largely gone and most of Wally's colleagues are dead, Wally has survived. His words are rugged testimony to an Africa that is now a distant dream.

Safari Peter Hathaway Capstick, 1984-09-15 Peter Capstick's earliest books have firmly established him as the modern-day master of African adventure writing. Now, for all his readers who want to put their taste for adventure into practice, Capstick has written the first modern authoritative, comprehensive guide to African safari. Drawing on his years of experience as a professional hunter, Capstick explains everything a bwana needs to know: how to select and book a safari; where and when to go; fees and licenses; the guns, ammo, and personal equipment needed. Chapters on each of the Big Five (lion, Cape buffalo, elephant, leopard, and rhino-- the trophies most hunters want to take) describe the techniques, thrills, and dangers of hunting these clever and cunning animals. The other memorable delights of safari, like camp life, bird shooting, fishing, photography, and game viewing in wildlife parks, are also celebrated. A list of safari agencies, hunting companies and professional hunters, suggested equipment for a 21-day safari, and a trophy price list round out the most exhaustive guide to safari ever written. Packed with solid advice and nuggets of campfire lore and hunting yarns, illustrated with thirty-four black and white photographs and six line drawings, *Safari: The Last Adventure* is sure to become a classic work in its field, essential equipment for anyone going on safari or just dreaming of one...

Field & Stream, 2006-10 FIELD & STREAM, America's largest outdoor sports magazine, celebrates the outdoor experience with great stories, compelling photography, and sound advice while honoring the traditions hunters and fishermen have passed down for generations.

The Recovery of Palestine, 1917 Stanley Weintraub, 2017-03-07 By mid-1917, with the world war going badly on all fronts, and casualties burgeoning, Prime Minister David Lloyd George met with General Edmund Allenby, fresh from France. Lloyd George wanted "Jerusalem for Christmas" as a holiday "present" for the increasingly disillusioned British people. Its

seizure would also eliminate the Ottomans, who had inflicted the dismaying disaster at the Dardanelles, as a factor in the war. As Allenby departed, the PM handed him George Adam Smith's Historical Geography of the Holy Land, remarking that it was a better guide to reaching Jerusalem than anything "in the pigeon holes of the War Office". Having been raised on the Bible, Allenby, as this narrative illustrates, did indeed exploit it. He would also have unanticipated expertise from an unknown and unmilitary officer, T. E. Lawrence, who turned his Arabian "sideshow" into campaigns distracting the Turks and their German military leadership. The desert war would be hard-fought, but, that December, after centuries in Muslim hands and with its sacred sites intact, Jerusalem fell.

The Naturalist Darrin Lunde,2017-04-11 Winner of the inaugural Theodore Roosevelt Association Book Prize A captivating account of how Theodore Roosevelt's lifelong passion for the natural world set the stage for America's wildlife conservation movement and determined his legacy as a founding father of today's museum naturalism. No U.S. president is more popularly associated with nature and wildlife than is Theodore Roosevelt—prodigious hunter, tireless adventurer, and ardent conservationist. We think of him as a larger-than-life original, yet in *The Naturalist*, Darrin Lunde has firmly situated Roosevelt's indomitable curiosity about the natural world in the tradition of museum naturalism. As a child, Roosevelt actively modeled himself on the men (including John James Audubon and Spencer F. Baird) who pioneered this key branch of biology by developing a taxonomy of the natural world—basing their work on the experiential study of nature. The impact that these scientists and their trailblazing methods had on Roosevelt shaped not only his audacious personality but his entire career, informing his work as a statesman and ultimately affecting generations of Americans' relationship to this country's wilderness. Drawing on Roosevelt's diaries and travel journals as well as Lunde's own role as a leading figure in museum naturalism today, *The Naturalist* reads Roosevelt through the lens of his love for nature. From his teenage collections of birds and small mammals to his time at Harvard and political rise, Roosevelt's fascination with wildlife and exploration culminated in his triumphant expedition to Africa, a trip which he himself considered to be the apex of his varied life. With narrative verve, Lunde brings his singular experience to bear on our twenty-sixth president's life and constructs a perceptively researched and insightful history that tracks Roosevelt's maturation from exuberant boyhood hunter to vital champion of serious scientific inquiry.

At the Hand of Man Raymond Bonner,2013-02-20 Defying conventional wisdom even as it makes an impassioned plea for moral common sense, this book by an award-winning journalist sheds a new light on the history and politics of the African conservation movement. The book will anger and inspire anyone who cares about African wildlife and the people whose future is intertwined with the fate of these animals.

Field & Stream ,1994-12 FIELD & STREAM, America's largest outdoor sports magazine, celebrates the outdoor experience with great stories, compelling photography, and sound advice while honoring the traditions hunters and fishermen have passed down for generations.

The Myth of Wild Africa Jonathan S. Adams,Thomas O. McShane,1996 Africa's wildlife heritage is under siege--and its worst enemy may be traditional conservation methods. The authors tell of new conservation programs that include more Africans in the planning, execution, and financial benefits of this multi-billion dollar business.

The Hellpig Hunt Humberto Fontova,2003-10-30 Join in on a trip that tests the spirit, the body and the sense of humor of everyone involved. The action starts as soon as Humberto leaves the house, and doesn't stop until he and his buddies have been shocked, scared, gassed, gored, trampled and battered into submission.

Theodore Roosevelt, Naturalist in the Arena Char Miller,Clay S. Jenkinson,2020-03-01 Theodore Roosevelt's scientific curiosity and love of the outdoors proved a defining force throughout his hectic life as a rancher and explorer, police commissioner and governor of New York, vice president and president of the United States. Conservation and natural history were parts of a whole for this driven, charismatic public servant, and Roosevelt approached the natural world with joy and a passionate engagement. Drawing on an array of approaches—biographical, ecological and environmental, literary and political, Theodore Roosevelt, Naturalist in the Arena analyzes this energetic man's manifold encounters with the great outdoors. George Bird Grinnell, Gifford Pinchot, John Muir, and William Hornaday were among the many conservationists with whom Roosevelt corresponded, collaborated, hiked, and governed—and in turn, inspired. Together, Roosevelt and his contemporaries developed a progressive argument for the conservation of natural resources as a way to construct a more democratic nation-state. This legacy also comes with some troubling domestic and global implications, as Roosevelt fused his call for the conservation of resources—natural and human, domestically and internationally—with a deep-seated conviction that some were more fit than others to control the world and define its future.
