Mary Seidman Trouille

Reading Olympe de Gouges C. Sherman, 2013-05-31 Olympe de Gouges has been called illiterate, immoral, and insane while being mentioned solely for her Declaration of the Rights of Woman and [the female] Citizen. This book uncovers her radical views of the self, the family, and the state and accounts for her vision of increasing female agency and decreasing the entitlements of aristocratic males.

Cartesian Women Erica Harth, 2018-08-06 The little-known writings that Erica Harth examines here reveal a remarkable chapter in the history of Western thought. Drawing upon current theoretical work in gender studies, cultural history, and literary criticism, Harth looks at how women in seventeenth- and eighteenth-century France attempted to overcome gender barriers and participated in the shaping of rational discourse.

Olympe de Gouges and Manon Roland Lisa Beckstrand, 1997

Teaching World History as Mystery Jack Zevin, David Gerwin, 2010-12-07 This text presents a philosophy, methodology, and examples for world history instruction based on inquiry and problem-solving methods that promote reasoning and judgment and restore a sense of imagination and participation to classroom learning.

Deviant Women of the French Revolution and the Rise of Feminism Lisa Beckstrand, 2009 Despite critical interest in the role of women in the French Revolution, there is no single, comprehensive study of the works of the two most prolific women writers of the period: Olympe de Gouges and Manon Roland. At a time when politicians were molding public policy concerning life, liberty, the pursuit of happiness, and constituting criteria for citizenship, increasing numbers of women in Paris were clamoring for rights. New medical and philosophical theories redefining female nature were trotted out to justify women's continued exclusion from full political participation. Such theories focused on the female body as the locus of women's intellectual inadequacies and promulgated the idea that women who acted outside of the confines of their physiological nature were considered desensitized and unfeminine. *Deviant Women of the French Revolution and the Rise of Feminism* aims to uncover the work of those women who challenged prevailing views of female nature, sought social reforms, and were deemed 'deviant' for their writing and/or activism during the French Revolution.--Jacket.

The Englishwoman, 1910

Women's Political and Social Thought Hilda L. Smith, Berenice A. Carroll, 2000 ... a wide array of time periods,

cultures, and formats... --Library Journal The first collection of source readings of women's important writings in political and social theory from ancient times to the twentieth century. From Sappho of Lesbos to Mary Wollstonecraft and from Jane Addams to Simone Weil, these works fill a major gap in materials available for teaching the history of political thought and opens paths for exploring the rich and diverse contributions of women as creators of theory.

Portraits of Women in International Law Immi Tallgren, 2023 This fascinating volume offers a set of biographies of women and gender non-conforming people who made a difference in international law but who, in most cases, were never well-known or have been forgotten. These portraits describe each individual's engagement with international law, the context in which they worked, and the barriers they faced.

My Black Stars Lilian Thuram, 2021 This translation of Lilian Thuram's bestselling 2010 volume, *Mes Etoiles Noires*, by Laurent Dubois (University of Virginia), finally brings his anti-racism work to the attention of an English-language audience (the book has already been translated into several European languages). At a time when the Black Lives Matters movement has reminded us of the need to tell more complex stories about our shared past, this volume constitutes a timely intervention by a prominent black sporting figure. Lilian Thuram was born in Guadeloupe in 1972. In 2008, he created a Foundation for Education against Racism, and he is the author of several books, including: *Mes Etoiles noires* (2010), which won the Seligmann Prize for anti-racism, *Manifeste pour l'égalité* (2012), *Notre histoire* (2014 & 2016), and *La Pensée blanche* (2020). In an earlier life, he enjoyed a highly successful football career, winning the World Cup (1998) and the European Championship (2000). *My Black Stars* was written in collaboration with Bernard Fillaire. Laurent Dubois is Co-Director of the Democracy initiative at the University of Virginia. He is the author of *Soccer Empire* (2010) and *The Language of the Game* (2018). Book jacket.

The Routledge Handbook of Second Home Tourism and Mobilities C. Michael Hall, Dieter Müller, 2018-04-17 Second homes have become an increasingly important component of both tourism and housing studies. They can directly and indirectly contribute a significant number of domestic and international visitors to destinations and may be part of longer-term retirement, lifestyle and amenity migration that can have significant economic and social effects on communities and destination development. This volume offers an overview of different disciplinary and methodological approaches to second homes while simultaneously providing a broad geographical reach. Divided into four parts exploring governance, development, community and mobile second homes, the book provides a contemporary account of the major issues in an area of growing international interest. This timely handbook covers a wide range of dimensions – from planning to the role of second homes in development and the management of their impact. The international and cross-disciplinary nature of the contributions will be of interest to numerous academic fields in the social sciences, as well as urban and regional planners.

The National Habitus Marie-Pierre Le Hir, 2014-08-27 Stories about border crossers, illegal aliens, refugees that

regularly appear in the press everywhere point to the crucial role national identity plays in human beings' lives today. The *National Habitus* seeks to understand how and why national belonging became so central to a person's identity and sense of identity. Centered on the acquisition of the national habitus, the process that transforms subjects into citizens when a state becomes a nation-state, the book examines this transformation at the individual level in the case of nineteenth century France. Literary texts serve as primary material in this study of national belonging, because, as Germaine de Staël pointed out long ago, literature has the unique ability to provide access to inner feelings. The term habitus, in the title of this book, signals a departure from traditional approaches to nationalism, a break with the criteria of language, race, and ethnicity typically used to examine it. It is grounded instead in a sociology that deals with the subjective dimension of life and is best exemplified by the works of Norbert Elias (1897-1990) and Pierre Bourdieu (1931-2002), two sociologists who approach belief systems like nationalism from a historical, instead of an ethical vantage point. By distinguishing between two groups of major French writers, three who experienced the 1789 Revolution firsthand as adults (Olympe de Gouges, François René de Chateaubriand and Germaine de Staël) and three who did not (Stendhal, Prosper Mérimée, and George Sand), the book captures evolving understandings of the nation, as well as thoughts and emotions associated with national belonging over time. Le Hir shows that although none of these writers is typically associated with nationalism, all of them were actually affected by the process of nationalization of feelings, thoughts, and habits, irrespective of aesthetic preferences, social class, or political views. By the end of the nineteenth century, they had learned to feel and view themselves as French nationals; they all exhibited the characteristic features of the national habitus: love of their own nation, distrust and/or hatred of other nations. By underscoring the dual contradictory nature of the national habitus, the book highlights the limitations nation-based identities impose on the prospect for peace.

Romantic Correspondence Mary A. Favret, 2004 This study of correspondence in the Romantic period calls into question the common notion that letters are a particularly 'romantic', personal, and ultimately feminine form of writing.

Sexual Politics in the Enlightenment Mary Seidman Trouille, 1997-08-28 Explores the way seven women writers of the eighteenth century responded to Rousseau, and traces his crucial influence on their literary careers.

Rebel Daughters Sara E. Melzer, Leslie W. Rabine, 1992-05-21 This interdisciplinary collection of essays examines the important and paradoxical relation between women and the French Revolution. Although the male leaders of the Revolution depended on the women's active militant participation, they denied to women the rights they helped to establish. At the same time that women were banned from the political sphere, woman was transformed into an allegorical figure which became the very symbol of (masculine) Liberty and Equality. This volume analyzes how the revolutionary process constructed a new gender system at the foundation of modern liberal culture.

Political Ideologies in Contemporary France Christopher Flood, Laurence Bell, 1997-01-01 Contributions contained in

this volume discuss seven strains of political thought in France today: democratic socialism, communism, Gaullism and liberalism, national populism, ecologism, feminism, and multiculturalism. Contributors are primarily English scholars of French Studies and their contributions focus on the participants, strategy, and future prospects of each ideological tendency. Citoyennes Annie Smart, 2011-12-23 In *Citoyennes*, Annie Smart argues that many revolutionary and pre-revolutionary works constructed a civic identity for women and portrayed the home as a site for both civic virtue and private subjectivity. This interdisciplinary study offers a fresh interpretation of the role of women and the home in eighteenth-century France, and goes a long way to filling a gaping hole in the contemporary literature on the subject.

The Chevalier d'Eon and his Worlds Simon Burrows, Jonathan Conlin, Russell Goulbourne, Valerie Mainz, 2011-10-20 Cross-dressing author, envoy, soldier and spy Charles d'Eon de Beaumont's unusual career fascinated his contemporaries and continues to attract historians, novelists, playwrights, filmmakers, image makers, cultural theorists and those concerned with manifestations of the extraordinary. D'Eon's significance as a historical figure was already being debated more than 45 years before his death. Not surprisingly, such sensational material has attracted the attention of enthusiasts, scholars and literateurs to 'the strange case of the chevalier d'Eon'. He has also attracted the attention of psychologists and sexologists, and for most of the last century his gender transformation has been viewed through a Freudian lens. His cross-dressing, it was usually assumed, must have a psychosexual explanation. Until the second half of the twentieth century the terms 'Eonist' and 'Eonism' were the standard English words for transvestites and transvestism respectively, but 'Eonism' was also, thanks to Havelock Ellis, widely regarded as a psychological condition or compulsion. However, in the mid-twentieth century, new ideas about gender-identity disorders led to d'Eon being redefined not as a transvestite, but a transsexual - a person who considers their sex to have been 'misassigned'. The essays in this collection contribute to d'Eon's rehabilitation as a figure worthy of scholarly attention and display a variety of disciplinary approaches. Drawing on new research into d'Eon's life, this volume offers original and nuanced readings of how a gender identity could come to be negotiated over time.

Lippincott's Monthly Magazine, 1915

Art, Agency and Living Presence Caroline van Eck, 2015-03-10 Throughout history, and all over the world, viewers have treated works of art as if they are living beings: speaking to them, falling in love with them, kissing or beating them. Although over the past 20 years the catalogue of individual cases of such behavior towards art has increased immensely, there are few attempts at formulating a theoretical account of them, or writing the history of how such responses were considered, defined or understood. That is what this book sets out to do: to reconstruct some crucial chapters in the history of thought about such reflections in Western Europe, and to offer some building blocks towards a theoretical account of such

responses, drawing on the work of Aby Warburg and Alfred Gell.

web the sector has the same area as
the sector we calculated earlier due to
it again being a 60 sector with sides of
4cm its area is therefore 8π 3 cm² the
triangle s area can be calculated using
the formula $\frac{1}{2} ab \sin c$ triangle area $\frac{1}{2}$
 $\frac{4}{2} \frac{4}{2} \sin 60$ $\frac{1}{2} \frac{16}{3} \frac{2}{4} \frac{3}{2} \frac{4}{3}$ cm² note
that we should remember that $\sin 60$
