John M. Fobanjong

Confessions of an Economic Hit Man John Perkins, 2023-02-28 Los Angeles Times Bestseller How do we stop the unrelenting evolution of the economic hit man strategy and China's takeover? The riveting third edition of this New York Times bestseller blows the whistle on China's economic hit man (EHM) strategy, exposes corruption on an international scale, and offers much-needed solutions for curing the degenerative Death Economy. In this shocking exposé, former EHM John Perkins gives an insider view into the corrupt system that cheats and strong-arms countries around the globe out of trillions of dollars and ultimately causes staggering income inequality and ecological devastation. EHMs are highly paid professionals who use development loans to saddle countries with huge debts and force them to serve US interests. Now, a new EHM wave is infecting the world, and at the peak of the devastation sits China, a newly dominant economic power, with its own insidious version of the US EHM blueprint. Twelve explosive new chapters detail the allure, exploitation, and wreckage of China's EHM strategy in Latin America, Asia, Africa, the Middle East, and Europe. If allowed to continue its rampage, the EHM strategy—whether executed by the United States or China—will destroy life as we know it. However, all is not lost. Perkins offers a plan for transforming this system that places profits above all into a Life Economy that restores the earth. He inspires readers to take actions toward a new era of global cooperation that will end the United States's and China's EHM strategies for good.

The New Confessions of an Economic Hit Man John Perkins, 2016-02-09 Featuring 15 explosive new chapters, this new edition of the New York Times bestseller brings the story of Economic Hit Men up-to-date and, chillingly, home to the U.S.—but it also gives us hope and the tools to fight back. The previous edition of this now-classic book revealed the existence and subversive manipulations of economic hit men. John Perkins wrote that they are highly paid professionals who cheat countries around the globe out of trillions of dollars. Their tools include fraudulent financial reports, rigged elections, payoffs, extortion, sex, and murder. In Perkins's case the tool was debt—convincing strategically important countries to borrow huge amounts of money for enormous, development projects that served the very rich while driving the country deeper into poverty and debt. And once indebted, these countries could be controlled. In this latest edition, Perkins provides revealing new details about how he and others did their work. But more importantly, in an explosive new section he describes how the EHM tools are being used around the world more widely than ever—even in the U. S. itself. The cancer has

metastasized, yet most people still aren't aware of it. Fear and debt drive the EHM system. We are hammered with messages that terrify us into believing that we must pay any price, assume any debt, to stop the enemies who, we are told, lurk at our doorsteps. The EHM system-employing false economics, bribes, surveillance, deception, debt, coups, assassinations, unbridled military power-has become the dominant system of economics, government, and society today. It has created what Perkins calls a Death Economy. But Perkins offers hope: he concludes with dozens of specific, concrete suggestions for actions all of us can take to wrest control of our world away from the economic hit men, and help give birth to a Life Economy.

Confessions of an Economic Hit Man John Perkins,2008-10-13 Economic hit men (EHMs) are highly paid professionals who cheat countries around the globe out of trillions of dollars. They funnel money from the World Bank, the U.S. Agency for International Development (USAID), and other foreign aid organizations into the coffers of huge corporations and the pockets of a few wealthy families who control the planet's natural resources. Their tools include fraudulent financial reports, rigged elections, payoffs, extortion, sex, and murder. They play a game as old as empire, but one that has taken on new and terrifying dimensions during this time of globalization.

Confessions of an Economic Hit Man, 3rd Edition John Perkins,2023-02-28 The riveting third edition of this New York Times bestselling title expands its focus to China, exposes corruption on an international scale, and offers much-needed solutions. Extensively updated, this edition features twelve new chapters, including a new introduction, preface, and study guide. The book brings the story of economic hit men (EHMs) up-to-date and focuses on China's EHM strategy. EHMs are highly paid professionals who use development loans to cheat countries around the globe out of trillions of dollars and force them to serve US interests. Former economic hit man John Perkins gives an insider view into this system. With a truly global perspective, this book offers powerful revelations on extremely timely elements, including the third economic hit man wave that is sweeping the world and the way China optimizes US EHM models to make them a more dominating force. China's strategy is even more dangerous since it's successful at enticing lower income nations. Perkins also reveals how we can transform what he calls a failing Death Economy into a Life Economy. He encourages China's leaders to apply the Confucian ideal of serving the family to the global community to end the EHM strategy. The book ultimately provides a source of hope and inspires readers to participate in a new era of global cooperation.

The New Confessions of an Economic Hit Man (16pt Large Print Edition) John Perkins,2016-02-09 Shocking Bestseller: The original version of this astonishing tell - all book spent 73 weeks on the New York Times bestseller list, has sold more than 1.25 million copies, and has been translated into 32 languages. New Revelations: Featuring 15 explosive new chapters, this expanded edition of Perkins's classic bestseller brings the story of economic hit men (EHMs) up to date and, chillingly, home to the US. Over 40 percent of the book is new, including chapters identifying today's EHMs and a detailed

chronology extensively documenting EHM activity since the first edition was published in 2004. Former economic hit man John Perkins shares new details about the ways he and others cheated countries around the globe out of trillions of dollars. Then he reveals how the deadly EHM cancer he helped create has spread far more widely and deeply than ever in the US and everywhere else - to become the dominant system of business, government, and society today. Finally, he gives an insider view of what we each can do to change it. Economic hit men are the shock troops of what Perkins calls the corporatocracy, a vast network of corporations, banks, colluding governments, and the rich and powerful people tied to them. If the EHMs can't maintain the corrupt status quo through nonviolent coercion, the jackal assassins swoop in. The heart of this book is a completely new section, over 100 pages long, that exposes the fact that all the EHM and jackal tools - false economics, false promises, threats, bribes, extortion, debt, deception, coups, assassinations, unbridled military power - are used around the world today exponentially more than during the era Perkins exposed over a decade ago. The material in this new section ranges from the Seychelles, Honduras, Ecuador, and Libya to Turkey, Western Europe, Vietnam, China, and, in perhaps the most unexpected and sinister development, the United States, where the new EHMs - bankers, lobbyists, corporate executives, and others - "con governments and the public into submitting to policies that make the rich richer and the poor poorer." But as dark as the story gets, this reformed EHM also provides hope. Perkins offers a detailed list of specific actions each of us can take to transform what he calls a failing Death Economy into a Life Economy that provides sustainable abundance for all.

Confessions of an Economic Hit Man John Perkins, 2004-11-09 Perkins, a former chief economist at a Boston strategic consulting firm, confesses he was an economic hit man for 10 years, helping U.S. intelligence agencies and multinationals cajole and blackmail foreign leaders into serving U.S. foreign policy and awarding lucrative contracts to American business.

Confessions of an Economic Hit Man John Perkins, 2004 A former consultant to the U.S. government reveals the inner workings of the high-stakes economic game that encourages third world economies to borrow money so that major corporations like Halliburton end up getting the lucrative contracts.

The Secret History of the American Empire John Perkins, 2007 In this riveting memoir, bestselling author Perkins details his former role as an economic hit man. This stunning, behind-the-scenes expos reveals a conspiracy of corruption that has fueled instability and anti-Americanism around the globe.

The Secret History of the American Empire John Perkins, 2007-06-05 From the author of the New York Times bestseller *Confessions of an Economic Hit Man* comes an expos of international corruption. Perkins suggests how Americans can work to create a more peaceful and stable world for future generations.

Hoodwinked John Perkins, 2011-11-01 John Perkins has seen the signs of today's economic meltdown before. The subprime mortgage fiascos, the banking industry collapse, the rising tide of unemployment, the shuttering of small businesses across the landscape are all too familiar symptoms of a far greater disease. In his former life as an economic hit man, he was on the front lines both as an observer and a perpetrator of events, once confined only to the third world, that have now sent the United States—and in fact the entire planet—spiraling toward disaster. Here, Perkins pulls back the curtain on the real cause of the current global financial meltdown. He shows how we've been hoodwinked by the CEOs who run the corporatocracy—those few corporations that control the vast amounts of capital, land, and resources around the globe—and the politicians they manipulate. These corporate fat cats, Perkins explains, have sold us all on what he calls predatory capitalism, a misguided form of geopolitics and capitalism that encourages a widespread exploitation of the many to benefit a small number of the already very wealthy. Their arrogance, gluttony, and mismanagement have brought us to this perilous edge. The solution is not a return to normal. But there is a way out. As Perkins makes clear, we can create a healthy economy that will encourage businesses to act responsibly, not only in the interests of their shareholders and corporate partners (and the lobbyists they have in their pockets), but in the interests of their employees, their customers, the environment, and society at large. We can create a society that fosters a just, sustainable, and safe world for us and our children. Each one of us makes these choices every day, in ways that are clearly spelled out in this book. We hold the power, he says, if only we recognize it. *Hoodwinked* is a powerful polemic that shows not only how we arrived at this precarious point in our history but also what we must do to stop the global tailspin.

The New Confessions of an Economic Hit Man John Perkins, 2016-02-29 False economics. Threats, bribes, extortion. Debt, deception, coups, assassinations and unbridled military power. These are the tools used by the 'corporatocracy' - a vast network of corporations, banks, colluding governments and rich and powerful individuals - to ensure that they retain and expand their wealth and influence, growing richer and richer as the poor become poorer. In his original, post 9/11 book, John Perkins revealed how he was recruited as an economic hit man in the 1970s, and exposed the corrupt methods American corporations use to spread their influence in the developing world, cheating countries out of trillions of dollars. In this new, extensively updated edition he lays bare the latest, terrifying evolution of the economic hit man, and how the system has become even more entrenched and powerful than ever before. In *New Confessions of an Economic Hit Man*, John Perkins provides fresh and chilling evidence of how the corporatocracy has grown its influence to every corner of the globe, making

us all unwitting slaves to their regime. But he also provides advice on how we can end our unconscious support of the system and its self-serving, lethal economy.

State of the Continent John M. Fobanjong, 2018-11-28 What precisely is the state of the African continent today? Depending on one's perspective, the answer may either dwell on Africa's recent economic and political accomplishments or focus on the long-standing single-story of failure, disaster and eternal dictatorships. This book provides a nuanced, forceful and balanced assessment of Africa's political and economic performance since independence. While acknowledging Africa's tragic pitfalls, dating to the transatlantic slave trade and colonialism, *State of the Continent* skillfully argues that theories associated with the dependency school are no longer enough to explain the continent's failures in governance and economic performance. For a continent so richly blessed and endowed with both human and material resources, the blame for Africa's lackluster performance falls squarely on its leadership. To get things right, Nkrumah's vision of the primacy of the "political kingdom" must be prioritized whereupon economic gains shall predictably, follow. In lucid and persuasive prose, this volume is an ideal book for scholars as well as students of international studies and African politics.

Hugo Chávez Nikolas Kozloff, 2025-06-25 Audacious, provocative, and bombastic, few world politicians are as colorful as

Hugo Chávez, now making international news for his plans to nationalize U.S. owned businesses and his bold opposition to Washington's economic and trade policies. As Venezuela gains importance as the fifth largest oil exporter in the world, this firebrand leader is quickly moving to the public spotlight by uniting much of South America against the Bush administration and wielding oil as a geopolitical weapon. To create this rich and objective portrait, Nikolas Kozloff--one of the few American journalists who has spent years in the Andean region--has profiled Chávez's top advisors, leaders of his movement, and other key figures in both Venezuela and the U.S. The result is a timely, exhaustive analysis of Chávez as a political leader, and a nuanced examination of the president moving to the center of the global stage. Includes a new afterword by the author, with insights into Chávez's reelection in relation to wider hemispheric politics.

Who Killed Shastri? Vivek Agnihotri, 2020-08-28 It was the time of the Cold War. After defeating Pakistan in the second biggest armed conflict since the Second World War, Indian Prime Minister Lal Bahadur Shastri arrived in Tashkent, former USSR, to sign a peace accord. After days of extended negotiations, the peace agreement was signed between India and Pakistan in the presence of Alexei Kosygin, the USSR Premier. Hours later, at 1.32 AM, Shastri died in his dacha. Abruptly. Mysteriously. Soon after, his official Russian butler and the Indian cook attached to the Indian ambassador were arrested by the Ninth Directorate of the KGB under the suspicion of poisoning Shastri. No post-mortem was done. No confession was achieved. There was no judicial enquiry ever. It's been 50 years since his death, and we still don't know the truth. Was it really a heart attack? Was he poisoned? Did the CIA kill him? Was it the KGB? Was it a state-sponsored murder? Vivek Ranjan Agnihotri along with his motley team of inexperienced assistants turned whistle-blowers investigate the mystery behind Shastri's death and find themselves in a mirror-world where all and everybody is suspect. But they cannot remain distant, for the painful story of India touches their own lives as they discover how the country was put up for sale.

Auravana Decision System Auravana, 2022-07-12 This publication is the Decision System for a community-type society. A decision system describes the formal structuring of decisions involving a comprehensive information system that resolves into a modification to the state-dynamic of the material environment. A decision system is a collection of information-processing components -- often involving humans and automation (e.g., computing) -- that interact toward a common set of objectives. This decision system is designed to coordinate and control the flow of resources for global accessibility to all goods and services. To navigate in common, humanity must also decide in common. Herein, individuals maintain a relationship to resources that focuses on access rather than possession, maximizing the advantages of sharing, and incentivizing cooperative, rather than competitive, interest. All requirements relevant to human fulfillment and ecological well-being are factored in to the allocation of resources, optimizing quality-of-life for all, while ensuring the persistence of the commons. The standard's decision processes produce tasks that are acted upon by an intersystem (a.k.a., "interdisciplinary") team involving the coordinated planning and operation of projects. Through this comprehensive and transparent decisioning

process individuals know precisely what needs to be accomplished to sustain and evolve their fulfillment. Herein, through formalized decisioning and cooperation humanity may continuously restructure society toward a higher potential dynamic of life experience for all. The use of a common social approach and data set allows for the resolution of societal level decisions through common protocols and procedural algorithms, openly optimized by contributing users for aligning humanity with its stated values and requirements.

Local Dollars, Local Sense Michael Shuman,2012 *Local Dollars, Local Sense* is a guide to creating Community

Resilience. Americans' long-term savings in stocks, bonds, mutual funds, pension funds, and life insurance funds total about \$30 trillion. But not even 1 percent of these savings touch local small business-even though roughly half the jobs and the output in the private economy come from them. So, how can people increasingly concerned with the poor returns from Wall Street and the devastating impact of global companies on their communities invest in Main Street? In *Local Dollars, Local Sense*, local economy pioneer Michael Shuman shows investors, including the nearly 99% who are unaccredited, how to put their money into building local businesses and resilient regional economies-and profit in the process. A revolutionary toolbox for social change, written with compelling personal stories, the book delivers the most thorough overview available of local investment options, explains the obstacles, and profiles investors who have paved the way. Shuman demystifies the growing realm of local investment choices-from institutional lending to investment clubs and networks, local investment funds, community ownership, direct public offerings, local stock exchanges, crowdfunding, and more. He also guides readers through the lucrative opportunities to invest locally in their homes, energy efficiency, and themselves. A rich resource for both investors and the entrepreneurs they want to support, *Local Dollars, Local Sense* eloquently shows how to truly protect your financial future--and your community's.

Go Golden Dillon Naber Cruz, 2018-12-13 Symptoms of broken systems are all around us, due to our over-consumptive lifestyles, nearly unfettered capitalism, failure to live peaceably together, and the societal dismissal of nature's limits. Climate change is our new reality, and we must respond to that immediately. Fortunately, the world's faith traditions in general--and Christianity specifically--have given us a spiritual path to follow that can alleviate these problems. When the golden rule is coupled with the ethics and principles of permaculture in theory and in practice, then humanity and the diversity of other species can harmoniously thrive together. *Go Golden*, like a weather vane, points the reader towards the path forward.
