*Rapture Practice* Aaron Hartzler, 2013-04-09 Sometimes salvation is found in the strangest places: a true story. Aaron Hartzler grew up in a home where he was taught that at any moment the Rapture could happen. That Jesus might come down in the twinkling of an eye and scoop Aaron and his family up to heaven. As a kid, Aaron was thrilled by the idea that every moment of every day might be his last one on planet Earth. But as Aaron turns sixteen, he finds himself more attached to his earthly life and curious about all the things his family forsakes for the Lord. He begins to realize he doesn't want the Rapture to happen just yet--not before he sees his first movie, stars in the school play, or has his first kiss. Eventually Aaron makes the plunge from conflicted do-gooder to full-fledged teen rebel. Whether he's sneaking out, making out, or playing hymns with a hangover, Aaron learns a few lessons that can't be found in the Bible. He discovers that the best friends aren't always the ones your mom and dad approve of, and the tricky part about believing is that no one can do it for you. In this funny and heartfelt coming-of-age memoir, debut author Aaron Hartzler recalls his teenage journey to find the person he is without losing the family that loves him. It's a story about losing your faith and finding your place and your own truth--which is always stranger than fiction.

The Little Red Book of Graduate Wisdom Michael Pipper, 2014-04-01 Advice, inspiration, and consolation for those facing life after school. Sometimes graduates need a gift that is a little more comprehensive than Oh, the Places You'll Go! This small book is packed full of wisdom from those who have completed their years of schooling and lived to tell their tales—or those who haven't, but feel the need to add something to the graduation lexicon anyway. From humorous to profound, there's something for everyone inside: "It might be said now that I have the best of both worlds. A Harvard education and a Yale degree." —John F. Kennedy "A graduation ceremony is an event where the commencement speaker tells thousands of students dressed in identical caps and gowns that 'individuality' is the key to success." —Robert Orben "We don't stop going to school when we graduate." —Carol Burnett "Everyone has a right to a university degree in America, even if it's in Hamburger Technology." —Clive James Whether your graduate is feeling excited about his or her future or nervous about

facing challenges, *The Little Red Book of Graduate Wisdom* is the perfect gift to cheer, reassure, and show how proud you are for all that they've accomplished.

**Ways to Go Beyond and Why They Work** Rupert Sheldrake, 2019-01-24 To go beyond is to move into a higher state of consciousness, to a place of bliss, greater understanding, love, and deep connectedness, a realm where we finally find life's meaning - experiences for which all spiritual seekers seek. Dr Rupert Sheldrake, writing as both a scientist and a spiritual explorer, looks at seven spiritual practices that are personally transformative and have scientifically measurable effects. He combines the latest scientific research with his extensive knowledge of mystical traditions around the world to show how we may tune into more-than-human realms of consciousness through psychedelics, such as ayahuasca, and by taking cannabis. He also shows how everyday activities can have mystical dimensions, including sports and learning from animals. He discusses traditional religious practices such as fasting, prayer, and the celebration of festivals and holy days. Why do these practices work? Are their effects all inside brains and essentially illusory? Or can we really make contact with forms of consciousness greater than our own? We are in the midst of a spiritual revival. This book is an essential guide.

*Scale Your Everest* Erik Z. Severinghaus, 2021-04-27 While Erik Z. Severinghaus has been to the top of the physical world (literally climbing Everest) and the business world (exiting companies for hundreds of millions of dollars), what has defined his journey is not the successes but rather the hard times of loneliness and self-doubt that nearly cost him his accomplishments and his life. Every entrepreneur experiences these crippling but unspoken challenges. Not coincidentally, entrepreneurs have three times the rate of addiction and twice the rate of suicide of the general population. This guidebook passes along the lessons needed in those dark times, with the hope that it will help every entrepreneur who is going through this struggle understand their journey and build the mental resiliency to succeed.

**The Ghost and the Haunted Portrait** Cleo Coyle, 2021-05-04 Bookshop owner Penelope Thornton-McClure and her gumshoe ghost team up to solve the stunning mystery at the heart of a madwoman's self-portrait in this all new installment from New York Times bestselling author Cleo Coyle. While gathering a collection of vintage book cover paintings for a special event in her quaint Rhode Island bookshop, Penelope discovers a spooky portrait of a beautiful woman, one who supposedly went mad, according to town gossip. Seymour, the local mailman, falls in love with the haunting image and buys the picture, refusing to part with it, even as fatal accidents befall those around it. Is the canvas cursed? Or is something more sinister at work? For answers, Pen turns to an otherworldly source: Jack Shepard, PI. Back in the 1940s, Jack cracked a case of a killer cover artist, and (to Pen's relief) his spirit is willing to help her solve this mystery, even if he and his license did expire decades ago.

**The MotoLady's Book of Women Who Ride** Alicia Mariah Elfving, 2021-05-18 Written and curated by Alicia Mariah Elfving, founder of TheMotoLady.com and the Women's Motorcycle Show, and arguably the most notable advocate for women in the motorcycling hobby, The MotoLady's Book of Women Who Ride subverts all the tired women-and-motorcycle tropes, offering the true stories of the women past and present who ride and wrench as well as anyone, proving every bit as indispensable to maintaining and growing a positive motorcycling culture. Historically, depictions of women in motorcycle culture tend to objectify—from the outlaw motorcycle club “biker babe” to cheesecake photography to posturing celebrities with motorcycles as props. The truth is much different. From the early days of motorcycle culture more than 100 years ago, women have played a central role in making the motorcycle a legitimate form of transportation, recreation, and motorsport. Elfving presents more than 70 figures in the motorcycle world, from the Americas to Europe and even the Middle East and South Asia—stunt riders, racers, builders, customizers, organizers, and more. Elfving links today's women motorcyclists with those of the past and illustrates the freedom represented by two wheels, and how motorcycles allow women to transcend cultural expectations confidently. You'll meet riders such as: Sofi Tsingos, who raises money for charities by building and auctioning motorcycles. Safety ambassador Brittany Morrow, who found her calling after surviving a high-speed crash with no gear. The Van Buren sisters, who in 1916 were among the first motorcyclists to ride coast to coast and the first women to ride to the summit of Pikes Peak. The late Jessi Combs, an iconic TV personality, metal fabricator, and land-speed record holder. Overwhelmingly positive, Elfving instills confidence and can-do rather than providing an echo chamber of common complaints among women in motorcycling. In addition, The MotoLady's Book of Women Who Ride is illustrated throughout with contemporary and historical photos of the author's subjects, comprising a beautiful as well as inspiring package.

**The Fifth Narrative** Benjamin Katz, 2004-05 This book was written for bright, brave and curious people who wish to become farsighted, to find other meanings and necessities beyond our recent Grand Tales (Religion, Pessimism, Capitalism and Science). The Fifth Narrative is about our emergence out of our dung beetle' state. It reveals our unawareness that the dungballs which currently sustain us (Grand Narratives) constrain our ability to be farsighted thus endangering our future evolution. It tells how human folly in our time seems more than ever to confound these grand stories and their bearing meaning. It explains why a new grand Narrative is necessary in order to survive and prevail. And why a new psychology encompassing areas like global ecology, demography, resources and politics is of impending necessity. The book deals with the emergence of a new civilization through technology and farsighted knowledge, which will form and guide our further

evolution. Its essential message is: Let us become wiser ascending Icarus, rising beyond our limiting schemes and perspectives.

**The History of Speed** Martin Roach,2020-10-29 'A special treat...The pictures and stories combine to provide a rich texture to telling the difficult story of why we chase speed like an addiction.' Valerie Thompson, the world's fastest female motorcycle racer Ever since we built machines that could transport us, there has been a desire to find ways to make them go faster. For some, going faster isn't enough - they want to be the fastest. This book celebrates those who have built the machines and driven them at ever greater speeds. This is The History of Speed. Bestselling motorsport writer Martin Roach tells the extraordinary story of those who have come to be obsessed by speed. From Camille Jenatzy, 'the Red Devil', who became the first man to drive at over 100kmh in 1899, through the golden age of Malcolm Campbell and his Bluebird, and on to the modern era of jet- and rocket-propelled cars, we have gone faster and faster. But this book is not just about these record-breakers, Roach also looks at the technology, the engines and the inventors who helped progress in speed at all levels, from Formula One to the supercars from the likes of Ferrari and Mercedes that are eagerly snapped up by collectors, rarely to be seen on the road. Accompanied by some of the most stunning images of the cars and those who made and drove them, Roach tells a wonderful story of innovation and invention. He talks to some of the great drivers to find out what inspires them to risk their lives, and finds out from engineers how they developed their ideas. Along the way, we hear some remarkable tale and anecdotes, but also find out how the pursuit of speed can also have its costs, with many tragic heroes and heroines falling along the way. If you've ever thrilled to the roar of a sports car engine, of loved the feel of the g-force as you accelerate away, or even looked on in wonder at a powerful engine, The History of Speed is a book that you will not want to miss out on.

**The Path to Addiction...** Richard McKenzie Neal, 2008-12-10 While this book is technically a sequel, the hope was that there would never be reason to continue the first book's storyline. That book was left open-ended because we can never be sure of an addict's long-term sobriety. Given the longevity of his addiction, his drug of choice and history of failures, the probability was high that my son could relapse again. He had been clean and sober for 30 months (18 months in prison and 12 months back home) before his regression was triggered by a prescription pharmaceutical. Vicodin was prescribed and that led my son back to the streets for methadone and from there it was just a matter of time before reconnecting with his old friend, heroin. My son's meltdown and the mind-numbing ugliness of the fallout are documented in-depth, during the early chapters of this book. In an effort to better understand the profound difficulties that addicts struggle with, and why they seem powerless to control their lives, the mid-section of the book is devoted to research. The book covers addictions in general, the history of worldwide drug usage, the pros and cons of the various treatment programs, the debate over the difference of opinion regarding the numerous models, the causal triggers and the pharmaceutical companies. Every addict

has two personalities, but the general public only sees the manifestation of the unsightly one the good one goes unnoticed, even when they're clean and sober. The indistinguishable one is no different than you or me; he's just overpowered by his unwanted tenant addiction. In trying to point out that no one wants to be an addict. Once clean, the addict knows that he must always be strong and vigilant because his co-pilot is always waiting in the wings for his chance to once again, take over the flight controls.
