Del mito a la historia. Guerrilleros, maquis y huidos en los montes de Cantabria (3ª ed.) Valentín Andrés Gómez ,2019-07-02 ¿Hubo en Cantabria un movimiento guerrillero de oposición al régimen franquista con una organización similar a la de otras regiones? Basado en el testimonio de sus protagonistas, junto a las informaciones de diversas fuentes escritas,

esta obra seria y respetuosa, aporta la visión de algunos de los que permanecieron en el monte durante más de diez años, en condiciones muy duras, de hambre, miseria y miedo, luchando por sus ideales y su supervivencia. El lector conocerá las palabras de los testigos y será espectador de unas páginas de nuestra historia tan emotivas como amargas, tan cercanas como ignoradas.

Contacto cultural entre el Mediterráneo y el Atlántico (siglos XII-VIII a.n.e) Sebastián Celestino Pérez,Núria Rafel i Fontanals,X. L. Armada,2008 Este libro ofrece una aproximación, desde perspectivas diversas y en ocasiones contrapuestas, a uno de los temas más controvertidos de la arqueología protohistórica de los últimos años, el de la llamada precolonización{OCLC#BB}. El debate en torno a la pertinencia y significado de este concepto supone un extenso tratamiento de las dos principales cuestiones suscitadas por el mismo: las dinámicas de contacto cultural entre comunidades atlánticas y mediterráneas durante el Bronce Final y los orígenes de las colonizaciones históricas en el Mediterráneo centro-occidental. La monografía se estructura en varias partes claramente complementarias. La primera aborda diversos aspectos generales, centrándose especialmente en los modelos teóricos y los problemas cronológicos de este período. La segunda parte constituye una sistemática puesta al día de la cuestión precolonial{OCLC#BB} en todas las áreas afectadas por la misma desde el Mediterráneo central hasta el ámbito atlántico. En la tercera se ofrecen algunas aproximaciones a la cultura material, con particular atención a la bronceística, la orfebrería y los carros representados en las estelas del Suroeste. Por último, la cuarta parte contiene una valoración general de los editores, en español e inglés, así como un epílogo a cargo de una de las mayores especialistas en colonialismo antiguo. Aunque se ha buscado de forma decidida la incorporación de distintos enfoques, a nivel general el principal cambio de paradigma que reflejan las páginas de este volumen consiste en la valoración del papel desempeñado por las comunidades locales. Se supera definitivamente el análisis de la precolonización{OCLC#BB} como un proceso protagonizado por una parte activa -las sociedades del Mediterráneo oriental- frente a otra pasiva -las comunidades locales-. Desde la pluralidad de perspectivas, todos los autores coinciden en valorar los contactos precoloniales desde la idea de interacción y desde el análisis del registro arqueológico y el contexto socioeconómico de las poblaciones autóctonas.

Cuba Rachel Carley,1997 Exquisite, rare photographs and timely, illuminating commentary reveal a rich architectural history waiting to be rediscovered as travel to Cuba burgeons among Canadian, European, and Latin American tourists and gradually becomes more accessible to visitors from the United States as well. The lucid, intelligent text and superb

photographs shot exclusively for this book present the architectural treasures of the entire island, from the first India bohíos, early colonial structures, and Mudéjar craftsmanship to baroque churches, classically inspired civic buildings, ambitious modernist designs, and present-day preservation work. Now in this practical paperback edition, this unique reference source will be valued by architects, preservationists, historians, students, and armchair and actual travelers.
