Common Core Curriculum: English, Grades K-5 Great Minds,2014-05-06 Common Core's English resources empower educators to meet the expectations of the Common Core State Standards (CCSS) for English Language Arts (ELA) and build essential content knowledge for students in grades K-5. Each grade in The Wheatley Portfolio features a comprehensive, coherent sequence of thematic units that engage students in deep study of worthwhile texts and topics. Features of this book include: Six thematic units for each grade, each centered on a curated collection of literary and informational texts Focus standards for each unit that complement the topic and promote student mastery of essential literacy skills Suggested texts and activities to incorporate science, art, and history into English instruction This revised second edition includes a sample text study that guides students through a close read of an exemplary text, updated web resources, and refreshed suggested works. Educators who create their curriculum based on Common Core's Wheatley Portfolioguarantee that students are exposed to content-rich instruction and have ample opportunity to master the reading, writing, speaking, listening, and language skills articulated in the CCSS for ELA.

The Heart of Wisdom Teaching Approach Robin Sampson,2005-04 Details the Bible-based homeschool teaching approach for parents, and discusses Christian education, learning styles, unit studies, bible study, and more.

Common Core Curriculum Maps in English Language Arts, Grades K-5 Great Minds,2011-10-19 The first books to present specific guidance for teaching the Common Core State Standards Forty-three states plus the District of Columbia and the U.S. Virgin Islands have signed on to adopt the Common Core State Standards (CCSS). The need for curriculum guides to assist teachers in helping students meet these standards has become imperative. Created by teachers, for teachers, the research-based curriculum maps in this book present a comprehensive, coherent sequence of thematic units for teaching the skills outlined in the CCSS for English language arts in Grades K-5. The maps address every standard in the CCSS, yet are flexible and adaptable to accommodate diverse teaching styles. Each grade is broken down into six units that include focus standards, suggested works, sample activities and assessments, lesson plans, and more Teachers can use the maps to plan their year and craft their own more detailed lesson plans Any teacher, school, or district that chooses to follow the Common Core maps can be confident that they are adhering to the standards.

The Complete Home Learning Sourcebook Rebecca Rupp,1998 Lists all the resources needed to create a balanced curriculum for homeschooling--from preschool to high school level.

Finding Ruth Roxanne Henke,2003-01-01 Ruthie Hammond had a dream. After high school she was moving to a big city...anywhere but Brewster. Surely God had a plan for her, and it wasn't in this small, nowhere town. Twenty years later she's back in Brewster working at a failing radio station with her boyfriend Jack. She's given up on God and if she wants to get out of town, she'll have to do it solo. But when her first love, Paul, moves back, Ruthie wonders if happiness really does lie beyond this podunk town. In this second novel in the Coming Home to Brewster series, Roxanne Henke offers another wonderful story about relationships, choices, and spiritual growth.

Pathways to Independence Jo Worthy,Karen Broaddus,Gay Ivey,2001-04-20 This comprehensive text presents a core of research-based approaches to engaging, effective literacy instruction in the middle grades. Methods and materials are described to foster reading skills, content mastery, and writing in different formats and for different purposes. The authors emphasize the need to tailor instruction to the needs, strengths, skill levels, and interests of diverse students. They offer recommendations for reading lists that incorporate critically acclaimed fiction and nonfiction, popular series books, and other student-friendly materials. Special features include case studies, examples of teaching and assessment activities, and commentary from middle-school teachers and students. Appendices contain reproducible forms and lists of recommended reading materials and resources.

Making Sense Juli Kendall,Outey Khuon,2005 Reading is all about understanding, and many English language learners simply do not understand what they are reading. Juli Kendall and Outey Khuon believe that small group comprehension lessons have a key role to play in advancing students' comprehension of texts. Making Sense outlines fifty-two lessons that teach students how to make connections, ask questions, visualize (make mental images), infer, determine importance, and synthesize. The book's five main sections are geared to the stages o

Home Learning Year by Year, Revised and Updated Rebecca Rupp,2020-01-21 A comprehensive guide to designing homeschool curriculum, from one of the country's foremost homeschooling experts—now revised and updated! Homeschooling can be a tremendous gift to your children—a personalized educational experience tailored to each kid's interests, abilities, and learning styles. But what to teach, and when, and how? Especially for first-time homeschoolers, the prospect of tackling an annual curriculum can be daunting. In Home Learning Year by Year, Rebecca Rupp presents comprehensive plans from preschool through high school, covering integral subjects for each grade, with lists of topics commonly presented at each level, recommended resource and reading lists, and suggestions for creative alternative options

and approaches. Included, along with all the educational basics, are techniques and resources for teaching everything from philosophy to engineering, as well as suggestions for dealing with such sensitive topics as sex education. Now revised throughout with all-new updates featuring the most effective and up-to-date methods and reading guides to homeschool your child at all ages, Home Learning Year by Year continues to be the definitive book for the homeschooling parent.

Content Area Reading and Learning Diane Lapp,James Flood,Nancy Farnan,2016-11-18 How can teachers make content-area learning more accessible to their students? This text addresses instructional issues and provides a wealth of classroom strategies to help all middle and secondary teachers effectively enable their students to develop both content concepts and strategies for continued learning. The goal is to help teachers model, through excellent instruction, the importance of lifelong content-area learning. This working textbook provides students maximum interaction with the information, strategies, and examples presented in each chapter. This book is organized around five themes: Content Area Reading: An Overview The Teacher and the Text The Students The Instructional Program School Culture and Environment in Middle and High School Classrooms. Pedagogical features in each chapter include: a graphic organizer; a chapter overview, Think Before, Think While and Think After Reading Activities - which are designed to integrate students' previous knowledge and experience with their new learnings about issues related to content area reading, literacy, and learning, and to serve as catalysts for thinking and discussions. This textbook is intended as a primary text for courses on middle and high school content area literacy and learning.

Boost Your STEAM Program with Great Literature and Activities Liz Knowles,Martha Smith,2018-06-01 You've created a STEAM program in your library, but how do you work literacy into the curriculum? With this collection of resource recommendations, direction for program development, and activities, you'll have students reading proficiently in no time. Many schools and libraries are implementing STEAM programs in the school library makerspace to promote problem solving by allowing students to create their own solutions to a problem through trial and error. In order to enhance literacy development in the STEAM program, however, they need resources for integrating literature into the curriculum. In this collection of resources for doing just that, veteran education professionals and practiced coauthors Liz Knowles and Martha Smith bring readers over eight hundred recommended and annotated books and web resources, selected based on research on successfully integrating STEAM and literacy programs and organized by the five STEAM areas. Titles are complemented by discussion questions and problem-solving activities that will aid educators in both adding and using the best literature to their STEAM programs for encouraging learning. In addition to promoting literacy, these resources will help to develop creativity, lateral thinking skills, and confidence in students.

Insights ,2003 Students explore the unique characteristics of liquids, compare different liquids, and examine how solids and liquids interact with each other. They discover how three liquids--corn syrup, oil, and water--behave when mixed. Students then investigate floating and sinking and some of the variables that affect how solid objects behave in liquids of different densities. Each Teacher Guide includes: Specific teaching and management strategies Detailed teaching sequences for teaching the first three phases of the Learning Experience (Getting Started; Exploring and Discovering; and Processing For Meaning) Reproducible masters for Student Science Notebook pages, Group Recording Sheets, and Home-School Worksheets Extension activities in science, language arts and social studies Assessment materials (an introductory questionnaire, embedded assessments, and a final questionnaire consisting of performance and written components) Science Background (provides general science concepts as they are introduced and developed in the module) to help prepare teacher Teacher and Student Resources section (annotated lists of children's books, teacher reference books, and technological aids)

Gotcha for Guys! Kathleen A. Baxter,Marcia Agness Kochel,2006-11-30 Research indicates boys are interested in reading nonfiction materials, yet most children's librarians prefer to booktalk fiction. Offering citations for more than 1,100 books, Gotcha for Guys! deals specifically with books to pique the interest of middle grade boys. A series of booktalks are grouped within chapters with like titles such as: Creepy-Crawly Creatures, Disasters and Unsolved Mysteries, Action and Innovation, and All Things Gross. Complete booktalks are presented in a beginning section of chapters 1-9. A second section in each of these chapters contains short annotations and talks for other books of interest, and a third section offers lists of well-reviewed titles to consider for boys. The book is enhanced with book cover art and reproducible lists for teachers and librarians.

Literacy Assessment and Intervention for Classroom Teachers Beverly DeVries,2017-07-05 The fourth edition of this comprehensive resource helps future and practicing teachers recognize and assess literacy problems, while providing practical, effective intervention strategies to help every student succeed. The author thoroughly explores the major components of literacy, providing an overview of pertinent research, suggested methods and tools for diagnosis and assessment, intervention strategies and activities, and technology applications to increase students' skills. Discussions throughout focus on the needs of English learners, offering appropriate instructional strategies and tailored teaching ideas to help both teachers and their students. Several valuable appendices include assessment tools, instructions and visuals for creating and implementing the book's more than 150 instructional strategies and activities, and other resources.

Building Foundations of Scientific Understanding Bernard J. Nebel Ph.D.,2014-10-09 Building Foundations of Scientific Understanding (BFSU) - BFSU is for teachers, homeschoolers, and other educators to deliver a first-rate science education to K-8 students and older beginning-science learners. Vol. I (here) is for grades K-2 and older beginning-science learners. Volumes II and III are for grades 3-5, and 6-8, and older progressing science learners. BFSU provides both teaching

methodologies and detailed lesson plans embracing and integrating all the major areas of science. BFSU lessons follow structured learning progressions that build knowledge and develop understanding in systematic incremental steps. BFSU lessons all center around hands-on experience and real-world observations. In turn, they draw students to exercise their minds in thinking and drawing rational conclusions from what they observe/experience. Therefore, in following BFSU, students will be guided toward conceptual understanding of crosscutting concepts and ideas of science, as well as factual knowledge, and they will develop mind skills of scientific thinking and logical reasoning in the process. Implementing BFSU requires no particular background in either science or teaching. Teachers/parents can learn along with their children and be excellent role models in doing so. Already widely used and acclaimed in its 1st edition form, this second edition of BFSU contains added elements that will make it more useful in bringing students to master the Next Generation Science Standards (NGSS).

Two Books Are Better Than One! Shari Frost,2016-06-03 Coming in June 2016! Today's early literacy programs are more demanding than ever. No longer is it sufficient to teach letters, letter sounds, sight words, and simple texts in kindergarten through second grade. Children are expected to read and comprehend texts in a variety of genres with increasing complexity. Then they must integrate the ideas and concepts from those texts into their own writing. Two Books are Better Than One: Reading and Writing (and Talking and Drawing) Across Texts in K-2 helps teachers meet those demands. Each chapter contains an anchor lesson focused on a different way of connecting texts, including: by theme, characters, perspective, structure, or genre. The lessons feature research-based and common core aligned strategies: interactive read-alouds; shared reading and writing; scaffolded small group reading; accountable talk; close reading; and opinion, narrative, and explanatory writing. Each anchor lesson features two high-quality children's books, and each chapter is rounded out with a list of other recommended book pairs to support you in creating your own lessons.

Readers' Advisory for Children and 'Tweens Penny Peck,2010-04-09 This complete guide to youth readers' advisory covers genres, reading interests, and issues, as well as provides lists of sample titles and recommended reading. Finding children and 'tweens great books to read is still a key library service, even in the age of computers. Readers' Advisory for Children and 'Tweens is an easy-to-use, practical guide that will help any library staff member become more comfortable offering this service—and more adept at producing satisfying results. Beginning with basic advice on the readers' advisory interview, the book details how to find books for different age groups, including young children and their parents, emergent readers, transitional readers, and adept readers. It explores genre fiction for 'tweens, nonfiction, poetry and folklore, and graphic novels, and it offers techniques on promoting books and reading. Potentially sensitive issues such as book challenges, assisting English language learners, serving children from various cultures, working with teachers, and helping reluctant readers are addressed, as well. The advice is augmented with handy booklists and descriptions of dozens of websites that aid

in youth readers' advisory.
