Education Law Michael Imber, Tyll van Geel, 2010-04-02 Education Law provides a comprehensive survey of the legal problems and issues that confront school administrators and policymakers.

Understanding the Teacher Union Contract Myron Lieberman, Unionization of teachers has led to fundamental changes in the management of education and in relations between teachers and school districts. Understanding the Teacher Union Contract explores the implications of this collective-bargaining revolution in education. Through detailed examination Lieberman shows how the kinds of provisions typically found in teacher union contracts affect the educational workplace and education reform, and how they might be revised to the benefit of students, parents, and the public. Lieberman begins with the respective roles of school district management and teacher unions. Unlike managers in the private sector, school district officials are part of a government agency that is legally responsible for operating public schools in the public interest. They must balance the interests of employees with the needs of students, taxpayers, and parents, as well as with district educational goals. Teacher unions' primary objectives are to enhance employee welfare and to promote the union as an effective organization. Unions must balance the differing needs of various groups within their membership -- for example, by resolving tensions between older teachers who want improved retirement benefits and younger teachers who might prefer more rapid salary increases. Lieberman shows how competing union and management goals play out in collective bargaining and are embodied in teacher union contracts. He argues that by developing an understanding of teacher unions, their role, and their needs, district officials and school board members can bargain more effectively and develop a productive ongoing relationship with unions. This highly readable book will be of interest not only to school administrators and board members but also to teacher representatives, parents, taxpayers, and members of the media who report on education.

Latina Bilingual Education Teachers Yukari Amos, 2018-03-19 Using critical race theory and whiteness studies as theoretical frameworks, this book traces two Latina bilingual education teachers in three different professional phases: as paraprofessionals, teacher candidates, and certified teachers. Grounded in a longitudinal case study, this book sheds light on the effects of institutional racism when Latina/o educational professionals attempt inclusion in white dominant organizations,

such as schools. Revealing and analyzing the structural racism present in schools and the obstacles it creates for professionals of color, the author exposes the racist practices that are hidden from view and offer practical solutions to combat them.

Tied for Third (And Still the Winner) A. J. Fagnoli, 2013-12-04 The author shares his story of how he got involved in music, and then his venture into the world of education. This comedic reading and sometimes teary eyed script sets the stage for the reader to imagine the settings the author has experienced. From a demeaning pious authority to silly, innocent youth and territorial secretaries and custodians, 'Tied For Third' will make you laugh, cry and smile from time to time.

From Island Boy to Professor Alberto Luis August, 2019-11-24 This book captures the educational journey of a humble boy who once run around on an island and worked his way up to running around on university campuses as a professor. It illustrates the many challenges as a student, as a teacher, and in an educational system with traditional values. It tracks his elementary life, high school life, university life, then his professional life in education. After seeing a system filled with educational limitations, he decided to establish a school to promote child friendly practices and to encourage a small society to change educational practice to that of classrooms conducive to learning. Going through this process alone posted many challenges, but he was very successful. After the success of establishing a school with contemporary practices, far from the norm, the next challenge was to keep the school open. This book serves as motivation to any student, teacher, or leader of education. After reading, one will be inspired to strive to overcome any challenges in education that one may face.

White Boy Mark Naison, 2010-06-04 How does a Jewish boy who spent the bulk of his childhood on the basketball courts of Brooklyn wind up teaching in one of the city's pioneering black studies departments? Naison's odyssey begins as Brooklyn public schools respond to a new wave of Black migrants and Caribbean immigrants, and established residents flee to virtually all-white parts of the city or suburbs. Already alienated by his parents' stance on race issues and their ambitions for him, he has started on a separate ideological path by the time he enters Columbia College. Once he embarks on a long-term interracial relationship, becomes a member of SDS, focuses his historical work on black activists, and organizes community groups in the Bronx, his immersion in the radical politics of the 1960s has emerged as the center of his life. Determined to keep his ties to the Black community, even when the New Left splits along racial lines, Naison joined the fledgling African American studies program at Fordham, remarkable then as now for its commitment to interracial education. This memoir offers more than a participant's account of the New Left's racial dynamics; it eloquently speaks to the ways in which political commitments emerge from and are infused with the personal choices we all make.

Children's Voices from the Past Kristine Moruzi, Nell Musgrove, Carla Pascoe Leahy, 2019-04-23 This book explores a central methodological issue at the heart of studies of the histories of children and childhood. It questions how we understand the perspectives of children in the past, and not just those of the adults who often defined and constrained the parameters of youthful lives. Drawing on a range of different sources, including institutional records, interviews, artwork, diaries, letters, memoirs, and objects, this interdisciplinary volume uncovers the voices of historical children, and discusses the challenges of situating these voices, and interpreting juvenile agency and desire. Divided into four sections, the book considers children's voices in different types of historical records, examining children's letters and correspondence, as well as multimedia texts such as film, advertising and art, along with oral histories, and institutional archives.

Induction Malfunction Leonid Chernyak, 2006 In *Induction Malfunction: Leaving Teachers Behind*, Dr. Leonid Chernyak, utilizing his investigative reporting skills, showcases what happens to novice teachers, specifically at a Florida charter middle school, when a mentored induction program is purposefully and neglectfully disbanded. The study - which took almost an entire school year to chronicle, research, and exhaustively reference is seen through the points of view of three novice teachers who, despite efforts to (a) collaborate, (b) grow professionally together, and (c) take lessons learned from the first year into the next, witness first hand (a) how easily promises made can be broken, (b) how easily the building of collaborative bridges can be burned, and (c) how hard incorporating highly regarded education theories into practice can be. Dr. Leonid Chernyak is a former member of the Society of Professional Journalists and the National Honor Society. He has appeared twice in *Who's Who Among American High School Students* and was honored by the Florida Department of Education for his writing. At the University of Florida, he earned a Bachelor of Science degree in print journalism and a

Master of Arts degree in Mass Communication. At Argosy University, he earned an Education Specialist degree and a Doctor of Education degree, both in curriculum and instruction. Dr. Leonid Chernyak has, so far, worked as a freelance reporter, a substitute teacher, a language arts instructor and tutor, a translator, a collector, and a customer relations representative. His philosophy of life revolves around breaking routine, a team spirit, thinking outside the box, questioning everything, reading between the lines, standing up against the few who rule the many, not limiting yourself to others' criticisms, and taking a world view of everything. His first book, *Breaking Routine: A cosmic outlook on our comic world*, was published in 2005.

Love Was There Susan Patrice Guarascio, 2022-07-29 For everyone who needs and believes, or doesn't believe, in miracles, my memoir, *Love Was There: A Testimony of Faith*, is a must read. If you need God's divine mercy, you should read this book. If you need a reminder of how much God loves you, you should read this book. If you need to know that God is with you every step of the way on your journey of a lifetime, you should read this book. If you need to believe that prayer is powerful, read this book. I wrote this spiritual memoir to give testimony to God's love and mercy and to give my readers hope and inspiration. It's a true story tracing my spiritual growth from childhood through my personal Pentecost transformation. My faith evolved and deepened after being miraculously cured of stage four cancer at a Catholic Healing Mass where I rested in the Spirit. The focus of my memoir is on miracles I've witnessed throughout my life, the faith that sustained me during my suffering, the love manifested in suffering, and my evolving relationship with God.

Chinese Intellectuals on the World Frontier J. A. English-Lueck, 1997-05-30 This is the study of the status of intellectuals in the People's Republic of China during and after the events of Tiananmen Square. Currently intellectuals find themselves on the cusp of change as the socialist state monopoly on academia, scientific and technical research is yielding to market pressures. Universities must be, at least partially, self-sustaining. Entrepreneurial niches, outside of state control, are opening for intellectuals as industry privatizes. The entire society has shifted its focus from ideology to material wealth. These dramatic changes have forced choices on China's thought workers. English-Lueck, in conducting over a hundred interviews, highlights the choices and constraints of nonestablishment Chinese intellectuals at the end of the 20th century as they establish a new identity for themselves, and perhaps even for China.

The Law and the Pauline Doctrine Paul Sides, 2016-07-11 This book could very well have been titled "How to Apply The Law in Righteous Judgement!" Self-righteousness and unrighteous use of The Torah by those who believe they have the authority to impose their opinion of The Law in other's lives, is a CANCER! A cancer that has consumed the body of the Messiah, and that cancer is terminal. Those who abuse the Torah in this way, will be judged by The Law outside of Grace and will not inherit the Kingdom. Proper judgement is the foundation of being a Priest and a King, and no human will be transposed into that eternal Kingdom if they have not learned proper judgement. The purpose of this book is to help the Nazarenes understand The Law, how to discern intent, how to apply The Law in our OWN lives, and how to avoid the

temptation to apply it to the lives of others. The Law is a personal guide to Righteousness that is used by Yahuah as the vehicle by which He trains us within the context of a personal relationship... We are never to use The Law to judge another's servant! In this book I am going to build the foundation and beliefs of The Nazarene, the true sons of Yahuah and followers of The Branch. I am also going to then establish the beliefs of Sha'ul the Apostle as he was one of the most influential Nazarenes who ever lived. I am going to then address The Pauline Doctrine and dismantle that false doctrine point by point. The Pauline Doctrine is a Greek appropriate "doctrine" born out of sound bite implied lies, twisted scriptures, and ignorance of the scriptures. This book will establish the place of The Law in The Plan of Salvation, in each covenant, in our lives, in The Yahushaic Covenant, and most importantly in the Kingdom to come. In this book I am going to break down The Law in all its aspects, explain the transposition of The Law from Oral to Written to Intent, and define what each part of The Law applies to us specifically. This life is training for the next, The Law is the governing constitution of that coming Kingdom, where we serve as Priests and Kings. This life is law school as those positions are founded on Righteous Judgement. This book is the text book for The Law 101 which is this life as we are trained as Lawyers, an introductory class to understanding Yahuah's Intentions in giving us His Torah.

Media, Policy and Interaction William Housley, Richard Fitzgerald, 2016-04-29 Situated within the field of discourse-oriented approaches to policy and media, this collection explores the interface between government, media and the public, highlighting the increasing importance placed on media channelled 'public opinion' as part of a democratic process. The authors use a variety of discourse analytic methods including CA/MCA, Discourse Analysis and Interactionism, to provide discussions around the social organization of policy debate in media sites including news interviews, public access broadcasts, broadcast debates, panel discussions, mediated government initiatives, newspapers and news broadcasts. The book's geographical coverage spans the USA, Canada, the UK, Europe, Asia and Australia. This volume offers a major contribution to discourse analysis and its emphasis on policy substance will appeal to a broad audience in social and public policy, political communication, journalism and politics.
