Mac's Giant Book of Quips and Quotes E. C. McKenzie, 1983

The Accomplice Charles Robbins, 2025-08-22 In this stellar debut by journalist turned Washington insider and political writer Charles Robbins, an eager politico finds himself on the rise only to discover the perilous costs of success. When Henry Hatten wangles a job as communications director for Nebraska Senator Tom Peele's presidential campaign, he breathes a huge sigh of relief. Smarting over a recent gubernatorial campaign in which his pulling a political punch may have cost his

boss the race, he's thrilled to be back in action. This time around, Henry is determined to shuck his ethical qualms. But he soon finds he's facing more than he imagined. The new gig turns out to be rife with scandal and corruption— just the kind of politics Henry so fervently sought to banish. Events go from bad to worse as the depths of greed emerge, tracking the acceleration and excitement in the campaign itself. Led by a ruthless chairman and filled with warring aides, hired thugs, fractious union bosses, and snooping reporters, the Peele campaign is shaping up to be quite the circus. And that's before Henry's ex arrives on the scene . . . But when someone close to the campaign is murdered, Henry can no longer turn a blind eye. As he conducts his own covert investigation, still more secrets emerge. So deeply entrenched in the politics and manipulation, Henry must face a staggering reality in which his values are no longer his own. But can he extricate himself and salvage the career he loves? And can he do so with his soul intact? A brilliantly plotted and characterized political novel, *The Accomplice* takes readers into the guts of a brutal presidential campaign.

A Better Me a Better World George J. Butorac, 2023-08-10 Despite unprecedented technological developments and material bounty, our nation and the rest of the world face ever-growing moral quandaries. We are still beset with continuous warfare and religious strife along with a litany of other past transgressions. These are all exaggerated by our population growth along with the growing complexity of life. In addition, our technological progress has created even more severe morality quandaries than our ancestors ever imagined. Brilliant figures of the past espoused many, still admired, moral goals for better living. However, they are mostly rhetoric because they didn't provide a rational approach for achieving them. Thus, we are now saddled with a morality that couldn't even cope with a far simpler age. Fortunately, an explosion of knowledge interrelating genetics, evolution, and human physiology has occurred in recent years that can be used to construct a more relevant moral code. One, based on reality, that can lead us to a more equitable and prosperous future. *A Better Me A Better World* integrates these recent discoveries into a clearer image of reality than any of our revered philosophers could imagine based on their mystical conjectures. Three valid purposes of life are derived from a careful examination of these new discoveries. They are survival, evolution (being the best we can be), and enjoyment. The acronym SEE encapsulates this finding. Next, a physiological morality that guides all human behavior was found. It uses the classic pain-pleasure principle to guide personal behavior toward compliance with the three purposes of life. Next, it was found that the body has always used servo controls to guide all body functions. Servo means using continuous feedback to help control all body actions. The concept was first instituted by man in WWII, being used to guide missiles against targets. Servos are universally applicable. For example, applying them to all laws enacted would eliminate all the out-of-control outcomes we now routinely accept. We will dramatically improve ourselves and the world around us by adopting moral guidelines based on these principles. We are truly living in a time of discovery if we will only open our eyes and SEE.

Anthony T. Hincks: An author of life. Anthony T. Hincks, 2018-03-23 Welcome to Anthony T. Hincks: An author of life, volume 1. This first volume includes all of my quotes and sayings that I have published on the internet to date. There are over fifteen hundred to read and choose from. The quotes have been readily accepted throughout the world are used by individuals, companies, & businesses. They have appeared in newsletters, newspapers, magazines and other online publications. My quotes have also been used to sell different merchandise around the world, from Russia to the U.S.A. My quotes have appeared alongside some of the world's most famous people, and for that I feel very humble indeed. My quotes can cover any topic. I am more Buddhist than anything else, and I do not hold any bias or bigoted thoughts about other religions or people. I believe, since we are all individuals, that we all can think for ourselves. I believe that wars are only used by the greedy to liberate the wealth from others. I think the world needs to look in a new direction because if we don't, then I am fearful about what will happen to this world of ours. I love the environment,, and animals and I believe that instead of looking for a way off, this home of ours, that we should at least look at trying to save it for our children. Mankind is selfish and he always has been. You may disagree, but when I look at the world, I read between the lines, I don't believe everything that I see or read on the TV, the internet or in the print media; to do so otherwise is to believe all the lies that we are fed to keep the wealth of only a select few increasing. I believe in equality and fairness for all. So, if you want to read my quotes & sayings, do so, and if you don't, I won't be offended. All the best for the future and I leave you with this: "Walk through life as if you had brought light into the world & love into everyone's heart."

The Life You Save May Be Your Own Paul Elie, 2024-06-04 A Chicago Tribune Best Book of the Year: A fascinating multiple biography of four of the most influential Catholic literary figures of the 20th century. — Booklist Winner, PEN/Martha Albrand Award for First Nonfiction * Finalist, National Book Critics Circle Award * An Atlantic Monthly Book of the Year * A San Francisco Chronicle Best Book of the Year * A San Jose Mercury News Top Book of the Year Thomas Merton was a Trappist monk in Kentucky; Dorothy Day the founder of the Catholic Worker movement in New York; Flannery O'Connor a Christ-haunted literary prodigy in Georgia; Walker Percy a doctor in New Orleans who quit medicine to write fiction and philosophy. In the mid-twentieth century, these four American Catholics came to believe that the best way to explore the questions of religious faith was to write about them, in works that readers of all kinds could admire. A friend came up with a name for them—the School of the Holy Ghost—and for three decades they exchanged letters, ardently read one another's books, and grappled with what one of them called a predicament shared in common. A pilgrimage is a journey taken in light of a story; and in *The Life You Save May Be Your Own*, Paul Elie tells these writers' story as a pilgrimage from the God-obsessed literary past of Dante and Dostoevsky out into the thrilling chaos of postwar American life. It is a story of how the Catholic faith, in their vision of things, took on forms the faithful could not have anticipated. And it is a story about the ways we look to great books and writers to help us make sense of our experience, about the power of literature to

change—to save—our lives. Reminds us of what it means to live authentically in a world that seems determined to dull our senses and our intellect and our spirits with doublespeak, nonsense, meaningless distraction. —Alice McDermott, *Commonweal* Lucid, humane, poignant, and wise. As a work of the spirit, it is universal and in no way sectarian. —Harold Bloom [An] engrossing, smartly conceived and perfectly realized work. —Tom Nolan, *San Francisco Chronicle* An elegant, intelligent blend of biography and literary criticism. —Ben Lytal, *Atlanta Journal-Constitution*

Extravagance and Misery Alan Thomas, Alfred Archer, Bart Engelen, 2024-10-22 In *Extravagance and Misery: The Emotional Regime of Market Societies*, Alan Thomas, Alfred Archer, and Bart Engelen investigate the extensive and growing economic inequalities that characterize the affluent market societies of the West. Drawing on insights from political philosophy and the new science of happiness, they show the damaging impact that existing inequalities have on our well-being, and offer an explanation for what went wrong in our highly unequal and frequently unhappy societies. Combining the approaches of philosophy and political economy, the authors expose the economic, social and political mechanisms that create and perpetuate economic inequalities. They employ research from the new science of happiness to assess the impact of those mechanisms on the well-being of the poor, the middle class and the rich. They scrutinize the role of key emotions, such as shame (amongst the poor), envy and admiration (towards and for the rich) as well as discussing which emotional narratives serve to justify and entrench excessive inequalities in income and wealth. The result is an explanation of the emotional regime that characterizes our capitalist societies and that perpetuates the unfair gap between the extravagance of the rich and the misery of the poor. *Extravagance and Misery* concludes with a proposal of how to re-shape this emotional regime in the interests of justice and solidarity.
