## John Scalzi

*Lock In* John Scalzi, 2014-08-26 Not too long from today, a new, highly contagious virus makes its way across the globe. Most who get sick experience nothing worse than flu, fever and headaches. But for the unlucky one percent – and nearly five million souls in the United States alone – the disease causes Lock In: Victims fully awake and aware, but unable to move or respond to stimulus. The disease affects young, old, rich, poor, people of every color and creed. The world changes to meet the challenge.

*Lock In: A Novel by John Scalzi (Trivia-On-Books)* Trivion Books, 2016-09-09 Trivia-on-Book: Lock In: A Novel by John Scalzi Take the challenge yourself and share it with friends and family for a time of fun! In the near future of the human race, there is a new virus that takes the world by storm. Majority of the victims show mere symptoms of fever and headaches. Some suffer from acute meningitis which turns into a serious medical crisis. But 1% of the total number of affected individuals is in a 'locked-in' situation, The Haden's Syndrome – they are aware and awake, but they cannot move or respond to physical stimulus. So technology comes to the rescue and formulates a way of communication among the 'locked-in' patients. One such technology helps victims communicate with the world in a virtual reality. Another breakthrough comes with the discovery of rare humans who can let others into their brains and be controlled by those 'riding' their minds. With the advent of this discovery, greed for power, murderous plots, political strategies and other sinister plans begin to hatch and safety of the human race is compromised till Chris Shane, a victim of this Haden's Syndrome and an FBI agent comes to the rescue. **Consciousness and Science Fiction** Damien Broderick,2018-11-30 Science fiction explores the wonderful, baffling and wildly entertaining aspects of a universe unimaginably old and vast, and with a future even more immense. It reaches into that endless cosmos with the tools of rational investigation and storytelling. At the core of both science and science fiction is the engaged human mind--a consciousness that sees and feels and thinks and loves. But what is this mind, this aware and self-aware consciousness that seems unlike anything else we experience? What makes consciousness the Hard Problem of philosophy, still unsolved after millennia of probing? This book looks into the heart of this mystery - at the science and philosophy of consciousness and at many inspiring fictional examples - and finds strange, challenging answers. The book's

content and entertaining style will appeal equally to science fiction enthusiasts and scholars, including cognitive and neuroscientists, as well as philosophers of mind. It is a refreshing romp through the science and science fiction of consciousness.

*Horror Culture in the New Millennium* Daniel W. Powell, 2018-11-23 *Horror Culture in the New Millennium: Digital Dissonance and Technohorror* explores the myriad ways in which technology is altering the human experience as articulated in horrific storytelling. The text surveys a variety of emerging trends and story forms in the field, through both a series of critical essays and personal interviews with scholars, editors, authors, and artists now creating and refining horror stories in the new millennium. The project posits a rationale for the presence of technohorror as a defining concern in contemporary horror literature, marking a departure from the monstrous and spectral traditions of the twentieth century in its depictions of frightful narratives marked by the qualities of plausibility, mundanity, and surprise as we tell stories about what it means to be human. As our culture explores the dichotomies of the born/made, natural/artificial, and human/computer—all while subsumed within a paradigm shift predicated on the transition from the traditions of print to emerging digital communications practices—these changes form the basis for horrific speculations in our texts and technologies. Ultimately, *Digital Dissonance: Horror Culture in the New Millennium* explores that paradoxical human attraction for peering into the darkness as translated through our lived experiences in an era of rapidly evolving technologies.

**Global Healing** Karen Laura Thornber, 2020-03-02 Read an interview with Karen Thornber. In *Global Healing: Literature, Advocacy, Care*, Karen Laura Thornber analyzes how narratives from diverse communities globally engage with a broad variety of diseases and other serious health conditions and advocate for empathic, compassionate, and respectful care that facilitates healing and enables wellbeing. The three parts of this book discuss writings from Africa, the Americas, Asia, Europe, the Middle East, and Oceania that implore societies to shatter the devastating social stigmas which prevent billions from accessing effective care; to increase the availability of quality person-focused healthcare; and to prioritize partnerships that facilitate healing and enable wellbeing for both patients and loved ones. Thornber's *Global Healing* remaps the contours of comparative literature, world literature, the medical humanities, and the health humanities. Watch a video interview with Thornber by the Mahindra Humanities Center, part of their conversations on Covid-19. Read an interview with Thornber on Brill's Humanities Matter blog.

**Unlocked** John Scalzi, 2018-07-24 Discover the history of Haden's Syndrome, the virus that created the world of John

Scalzi's inventive near-future thrillers *Lock In* and *Head On*, in the prequel novella *Unlocked*. Not long from now, a virus will sweep the globe. Most will suffer no worse than flu-like symptoms, but an unlucky one percent will be changed forever. Hundreds of millions become locked in, awake, aware, but completely unable to control their bodies. This is the story of the doctors, scientists, engineers, politicians, and heroes who remade the world. It is the story of the chaotic outbreak, the fight for a cure, the changes that followed. It is an oral history, straight from the mouths of those who survived the most dynamic period in human history.

**How to Market a Book** Ricardo Fayet, 2021-01-27 Writing a book is hard. Marketing it can be even harder. Marketing a book in 2023 can seem like a full-time job, what with the crazy number of things authors seem to be expected to do: social media, blog tours, advertising, price promotions, mailing lists, giveaways, you name it. But here's a little secret: you don't need to do all those things to successfully set your book on the path to success. What you need is a solid plan to find the one or two tactics that will work, and start to drive sales... in a minimum amount of time. And that's exactly what you'll find in this book. Instead of drowning you in information or inundating you with hundreds of different tactics and strategies that eventually prove fruitless, this book will guide you through a step-by-step framework to find the ones that actually work for you and your book, so that you can start marketing more efficiently. In particular, you'll learn: □ How to change your mindset and sell more books with less effort.; □ How to write books that guarantee a lasting, profitable career; □ How to get Amazon's Kindle Store to market your book for you; □ How to get thousands of readers into your mailing list before you even release the book; □ How to propel your book to the top of the charts at launch; and □ How to automate your marketing so that you can spend less time marketing and more time writing. After helping over 150,000 authors crack the marketing code through a popular weekly newsletter, Reedsy's Co-founder Ricardo Fayet is sharing everything he's learned over the past few years in this beginner-friendly, jargon-free guide to book marketing. Best of all, the ebook version is and will always remain 100% FREE. Get your copy now and benefit from all the experience of a seasoned marketing professional.

*Living in Digital Worlds* Naomi Jacobs, Rachel Cooper, 2018-01-29 Living in Digital Worlds investigates the relationship between human society and technology, as our private and particularly our public lives are increasingly undertaken in spaces that are inherently digital: digital public spaces. The book unpicks why digital technology is such an inextricable part of modern society, first by examining the historical relationship between technological development and the early progression of human sociality. This is then followed by an examination of the ways in which modern life is currently being impacted by the expansion of digital information and devices into multiple aspects of our lives, including focuses on privacy, bias and ownership in digital spaces. Finally, it explores potential future developments and their implications, and proposes that it is crucial to consider the design of technology and systems in order to support a positive and beneficial direction of change. Each chapter includes case studies, primarily drawn from The Creative Exchange, a fiveyear programme which ran from 2012 to 2016 to explore the notion of the digital public space through collaborative cross-sector research.

**The Year's Best Science Fiction: Thirty-Second Annual Collection** Gardner Dozois, 2015-07-07 The thirty-six stories in this collection imaginatively take us far across the universe, into the very core of our beings, to the realm of the gods, and

the moment just after now--Page 4 of cover.

**Disability, Literature, Genre** Ria Cheyne, 2019 This title brings cultural disability studies and genre fiction studies into dialogue for the first time. Analysing representations of disability in contemporary science fiction, romance, fantasy, horror, and crime fiction, it offers new and transformative insights into both the workings of genre and the affective power of disability.

Poetics of Disturbances, 2024-10-28 This volume calls for a Narratology of Diversity by investigating narratives of non-normative bodies and minds. It explores mental health representations in literature, including neurodiversity, the body-mind nexus, and embodied non-normativities, therein emphasizing the importance of understanding diverse psychological conditions as represented in narratives. The contributions include perspectives from a wide variety of scholars of European, North American, and comparative literature and culture. While post-classical narratology has evolved through phases of diversification and consolidation, this volume represents innovation in understanding narrative development to embrace new areas of social awareness, including gendered narratologies (specifically feminist and queer narratologies) and post-colonial criticism, paving the way for a more inclusive narratology.
