Orientación vocacional Marina Müller, 1986-01-01 : Este libro fue realizado con el propósito de compartir ideas y experiencias con todos aquellos que se dedican a trabajar en Orientacion vocacional y ocupacional, incluyendo no solo a psico-pedagogos y psicologos educacionales, sino tambien a educadores y, por que no, a padres deseosos de participar creativamente en el prolongado aprendizaje que hacen sus hijos de las elecciones vocacionales y ocupacionales. La autora, a lo largo de este trabajo, pone de relieve la importancia de la Orientacion en el futuro de la busqueda de su futuro. Pero la obra no solo va dirigida al estudio de la relacion con los orientados, sino que su mira tambien se dirige hacia el accionar de los orientadores, con un material teorico y practico de cuya relevancia el lector tendra prueba fehaciente en cuanto ahonde en la lectura de los textos. El fin de la Orientacion vocacional tiene como meta principal, antes que la eleccion de una profesion, la construccion de si mismo del orientado, meta que la autora estima muy necesaria, pues es el esclarecimiento de quien se es y adonde se desea llegar el que permitira saber que se quiere hacer.

Orientación Vocacional Marina Müller, 2020-06-02 Este libro acompaña y sigue acompañando el aprendizaje de la orientación vocacional profesional. Ha sido y es utilizado en la formación de grado y de posgrado, en carreras de Psicología, Psicopedagogía, Ciencias de la Educación. En esta nueva edición, el texto ha sido revisado y profundizado cuidadosamente, agregando las temáticas que reclaman los nuevos desafíos afrontados por quienes orientan y quienes buscan orientación. Incluye nueva bibliografia, sitios de Internet y una breve lista de DVD de temas conexos utilizables en tareas de orientación. Esta obra contiene muchas de las ideas que la autora fue desarrollando sobre la teoría y la práctica orientadora. La orientación va mucho más allá de lo que se denomina orientación vocacional. Es orientación para la vida, para los cambios, para el ser y el quehacer. Es acompañar para aprender a ser, a elegir, a conocerse, a conocer los contextos. Es acompañar a convivir, a construir, a sostener y concretar proyectos, a aprender y desaprender, a afrontar adversidades...Este libro contiene el desarrollo de los siguientes temas entre otros: Qué es la orientación vocacionalLa identidad de los orientadores Instrumentos de la orientación vocacionalGrupo operativo en orientación vocacional El sujeto de la orientación vocacionalSalud y enfermedad en el ámbito educacional y en la orientación vocacionalCon este libro tendrá un clásico de la docencia completamente renovado. ¡Descargue ya este libro y comience a aprender con este manual profesional! La orientación vocacional como experiencia subjetivante Sergio Rascovan, 2023-02-21 iPor primera vez en formato digital! La orientación vocacional como experiencia subjetivante es una obra que invita a pensar las problemáticas denominadas vocacionales desde el reconocimiento de las potencialidades del sujeto, el respeto por su singularidad, el registro de los atravesamientos propios del contexto sociohistórico, la inexistencia de un saber certero sobre el enigma de la vida y las vicisitudes del elegir. Por fuera de toda estandarización, Sergio Rascovan sostiene que el proceso de orientación vocacional es, ante todo, un espacio para que circule la palabra, un dispositivo para alojar a un sujeto en la búsqueda de su qué hacer a través de la transformación de la pregunta socialmente instituida en otra singular, propia. Reedición de un libro fundamental para soñar, imaginar y pensar una elección vocacional frente a los imperativos sociales y los valores dominantes de época.

Orientación Vocacional 5 da continuidad a Orientación Vocacional 4, que en conjunto buscan coadyuvar en la construcción de la personalidad del estudiante, proporcionándole un sentido de identidad que le sea útil no solo en una de las etapas más complejas en la vida del ser humano, a la cual se le ha denominado adolescencia, sino durante todo su desarrollo como persona, estableciendo un proyecto de vida que considere los cambios que en los diferentes escenarios se vienen dando tanto desde una perspectiva regional como en todo el mundo. Para lograrlo, el presente libro se conforma de tres unidades. La primera es la Construcción de la identidad en un mundo complejo y cambiante, cuyo objetivo es analizar el papel que tiene la cultura en la construcción de la identidad social, para ello el contexto multicultural es considerado como elemento referencial en la reflexión. La segunda unidad es Deconstrucción de las identidades profesionales y laborales, en esta unidad se analizarán algunos problemas que buscan solucionar las profesiones actuales, es m

Manual de orientación educativa Ana Cobos Cedillo,2022-05-31 Este libro es un manual de orientación educativa que recoge los pilares teóricos y prácticos que necesita conocer un profesional de la orientación para abordar esta compleja labor en el siglo XXI. Comienza por asentar las bases teóricas de la Psicopedagogía para a partir de ahí, conocer cómo se ha ido materializando esta ciencia teórica en otra aplicada: la orientación educativa. Desde los orígenes de la orientación en el siglo XX, y desde una perspectiva universal, trasciende la normativa española a fin de que los orientadores dispongan de un manual susceptible de uso en otros contextos y territorios. Se tratan con profundidad las técnicas, instrumentos y procedimientos de la orientación educativa y se disecciona cada intervención en las dimensiones académica, personal, socioafectiva y emocional. El objetivo es que este manual se constituya en una referencia para quienes se están formando para ejercer como orientadores, docentes u otra profesión del ámbito educativo. El conocimiento que recoge este libro está fundamentado en décadas de práctica de la orientación, por lo que las propuestas indicadas pueden extrapolarse a contextos reales. Para ello hay un capítulo específico en el que se expone un Método práctico de aplicación durante un curso completo. Como colofón del manual se dedica un capítulo a la deontología, asunto imprescindible para el desarrollo de un perfil profesional. Un siglo después del nacimiento de la orientación, con profesionales trabajando en todo el mundo, era necesario sistematizar el saber basado en la experiencia. Un manual pertinente para recopilar lo aprendido y sugerente para seguir abordando los retos del futuro.
