LOOSE LEAF BUSINESS DRIVEN INFORMATION SYSTEMS Paige Baltzan, Instructor,2020-02-13 The seventh edition of Business Driven Information Systems discusses various business initiatives first and how technology supports those initiatives second. The premise for this unique approach is that business initiatives should drive technology choices. Every discussion first addresses the business needs and then addresses the technology that supports those needs. Business Driven Information Systems is designed to give students the ability to understand how information technology can be a point of strength for an organization. The new edition of Business Driven Information Systems is state of the art in its discussions, presents concepts in an easy-to-understand format, and allows students to be active participants in learning. The dynamic

nature of information technology requires all students—more specifically, business students—to be aware of both current and emerging technologies. Students are facing complex subjects and need a clear, concise explanation to be able to understand and use the concepts throughout their careers. By engaging students with numerous case studies, exercises, projects, and questions that enforce concepts, Business Driven Information Systems creates a unique learning experience for both faculty and students.

Essentials of Business Driven Information Systems Paige Baltzan, 2009

Business Driven Information Systems Paige Baltzan, Amy Phillips, Kathy Lynch, Peter Blakey, 2009 Business Driven Information Systems (BDIS) took the US market by storm in its first edition thanks to cutting edge content and an unparalleled range of technical resources. Australian and New Zealand academics have optimised the text for the global and local environment whilst retaining its content and technology strengths. The Baltzan and Phillips approach firstly discusses various business initiatives and secondly outlines how technology supports those initiatives. The premise for this unique approach is that business initiatives drive technology choices in a corporation. This approach takes difficult and often intangible MIS concepts, brings them down to the students' level, and applies them using a hands-on approach to reinforce the concepts. BDIS provides the foundation that will enable students to achieve excellence in business whether they major in

operations management, manufacturing, sales or marketing. BDIS is designed to give students the ability to understand how information technology can be a point of strength in an organisation. As educators, Baltzan and Phillips know that time is a scarce resource for lecturers. So, they have built MIS Forum - an online forum that hosts additional current content and links to topical news clips that can be used in lectures. Students can bring the whole thing together by applying their skills to an online cohesion case - the Broadway Cafe. Here lecturers can assign pre-made individual or group assignments as students take the role of small business owners with MIS challenges.
