**America in Quotations** Howard J. Langer, 2002-02-28 This is history from the inside out. What did Americans say about the great events in their own lifetimes? This book is a grassroots look at the country, as real people tell the story of America in their own voices. Quotations from more than 350 individuals are taken from speeches, interviews, editorials, letters, jokes, songs, and eyewitness accounts represent American thought from the ground up. This compendium includes the words of everyone from politicians and generals, to Native Americans, ethnic minorities, women, labor representatives, and slaves. The book is divided into 18 traditional historical periods from the pre-Columbus explorers to the terrorist attacks of September 11, 2001. We hear the voices of Jefferson, Lincoln, Teddy and FDR, but also of Joe McCarthy, Huey Long, and Susan B. Anthony. We hear American law in action through watersheds like *Brown v. the Board of Education*, the Scopes case, the prosecution of Sacco and Vanzetti, and the Salem witch trials. Then there are the grace notes, the forgotten but significant stories—a black woman beaten and humiliated for encouraging others to vote; the G.I. who overthrew a German bunker at Normandy; the last letter of a Union soldier soon to die in battle. Their words are woven into American history, remembered and illuminated in this kaleidoscopic collection.

**The World of Angela Carter** Dani Cavallaro, 2014-09-24 Angela Carter, a prolific author who worked in numerous genres, remains one of the most important British writers of the last century. She was particularly renowned for her investigation of cultural mythologies, which shape our lives but which we often leave unexamined. This text explores a selection of Carter's novels and short stories, supplemented with her perspectives on politics, society and aesthetics, and her attempts to redefine popular genres such as the fairy tale. This critical work is a strong addition to the scholarship on this important but often overlooked writer.

**Seductions in Narrative** Gemma López, 2007 *Seductions in Narrative* is a highly original, academic study which provides a critical discourse in which desire, narrative, and subjectivity are explored. Through the critical reading of two novels by contemporary English authors, Angela Carter and Jeanette Winterson, the book cleverly assesses the ways in which desire allows the subject to imagine an alternative, utopian location where a narrative of the self, in all its multiplicity and ambiguity, can be effected. This book is unique as general studies on these issues tend to focus on the literature produced over the nineteenth century, but not on contemporary literature. The pieces which examine desire and narrative in

contemporary novels tend to do so in the work of post-colonial authors. Specific works on the production of Angela Carter and Jeanette Winterson also tend to focus on a somewhat close reading of their novels, but do not make use of their fiction in order to debate specific, poststructuralist issues, as this book successfully undertakes.

A Picture Held Us Captive Tea Lobo, 2019-05-20 While there are publications on Wittgenstein's interest in Dostoevsky's novels and the recurring mentions of Wittgenstein in Sebald's works, there has been no systematic scholarship on the relation between perception (such as showing and pictures) and the problem of an adequate presentation of interiority (such as intentions or pain) for these three thinkers. This relation is important in Wittgenstein's treatment of the subject and in his private language argument, but it is also an often overlooked motif in both Dostoevsky's and Sebald's works. Dostoevsky's depiction of mindset discrepancies in a rapidly modernizing Russia can be analyzed in terms of multi-aspectivity. The theatricality of his characters demonstrates especially well Wittgenstein's account of interiority's interrelatedness with overt public practices and codes. In Sebald's *Austerlitz*, Wittgenstein's notion of family resemblances is an aesthetic strategy within the novel. Visual tropes are most obviously present in Sebald's use of photography, and can partially be read as an ethical-aesthetic imperative of rendering pain visible. Tea Lobo's book contributes towards a non-Cartesian account of literary presentations of inner life based on Wittgenstein's thought.

**White Coat Tales** Robert B. Taylor, 2016-04-18 This new edition of *White Coat Tales* presents intriguing stories that give historical context to what we do in medicine today—the body's "holy bone" and how it got its name, a surprising reason why gout seemed to be so prevalent several centuries ago, and the therapeutic misadventure that shortened the life of Eleanor

Roosevelt. In addition to many new tales, this revised edition contains 128 illustrations, such as images of Baron von Münchhausen aloft with cannonballs and Vincent van Gogh's portrait of his doctor showing a clue to the painter's health. Read about legendary medical innovators, diseases that changed history, illnesses of famous persons, and some epic blunders of physicians and scientists. The author is Robert B. Taylor, MD, Emeritus Professor, Oregon Health & Science University School of Medicine, and Professor, Eastern Virginia Medical School. *Media Inequality* Victoria Fielding, 2024-09-04 News media notionally underpins a vibrant and diverse democracy by representing political, industrial and social conflict to mass audiences. Yet, few studies measure how equitably journalists frame public contestation. Despite framing theory's extensive use in media and communication scholarship, little is known about how frames are created and disseminated - how frames are built - to explain how and why journalists frame news the way they do. *Media Inequality* proposes that frame building occurs through a two-step process of frame adoption and replication. This two-step frame-building process is explored by identifying the newspaper master narratives used in five historical industrial dispute case studies. These master narratives are then mapped to public narratives used by unionised firefighters and their employer in the Australian case of the 2016 Victorian Country Fire Authority industrial dispute. By theorising about the causes of journalists' inequitable framing of contested narratives, *Media Inequality* tells the story of unconscious structural media bias, interrogates the power of news media to reinforce dominant frames, offers valuable theoretical perspectives about the influence of media power on the accumulation of power in society, and provides lessons for groups communicating in competitive contexts. *Media Inequality* is thus valuable to scholars, academics and research students in the fields of journalism, communication, and media, particularly scholars interested in how journalists represent political, industrial, and social contestation.

*The Perfect Response* Gary C. Woodward, 2010-09-20 *The Perfect Response* is a lucid account of the social origins of fluency from a scholar recognized as a leading analyst of the dramaturgical dimensions of politics. In this imaginative study Gary C. Woodward creates and elucidates the idea of The Rhetorical Personality, using a deft blend of communication theory, social history and rhetorical criticism. With unusual capacities for expressiveness, persuasiveness, and sensitivity, Rhetorical Personalities thrive in settings that call for communication that will transcend differences and engage others. They typically have a heightened sense of their own persuasive power, a skill for reading audiences, and the capacity to function effectively in unfamiliar settings. Each chapter of *The Perfect Response* probes the nature of these uniquely social persons from a

different perspective: through the sympathetic characters of a prolific Hollywood filmmaker; by examining the nature of the social isolation in individuals with autism-spectrum disorders; through cross-cultural comparisons; and by assessing seminal and recent social science research on key benchmarks of rhetorical skill, such as high self monitoring, other-direction, and the capacity for engagement with others. Focusing on public figures that range from comedian Steve Martin to political leaders as diverse as Bill Clinton and Tony Blair, Woodward builds a detailed conceptual map for profiling the kinds of individuals who naturally maximize the possibilities of communication in public settings.

Superevil. Villains in Silver Age Superhero Comics Anke Marie Bock,2023-10-18 Superevil: Villains in Silver Age Superhero Comics sheds light on the often-disregarded supervillains in the American superhero comic of the 1960s. From Loki to Killmonger – they all possess famous cinematic counterparts, yet it is their comic origin that this study examines. Not only did The Silver Age produce countless superheroes and supervillains who have conquered the screens in the last two decades, but it also created complex villains. Silver Age supervillains were, as the analyses in Superevil show, the main and only means to include political and societal criticism in a cultural product, which suffered from censorship and belittlement. Instead of focusing on the superheroes once more, Anke Marie Bock pioneers in putting the supervillain as such in the center of the attention. In addition to addressing the tendency to neglect villains in superhero-comic studies, revealing many important functions the supervillains fulfill, among them criticizing Cold War politics, racism, gender roles and the often unquestioned binary of good and evil on the examples of i.a. The Fantastic Four, Spider-Man and Black Panther comics.

Radical Thinking Peter Lamont,2024-07-18 'Will change how you see the world' Derren Brown Radical Thinking is a book about how you view the world. It's about the things that shape your thoughts, from what you notice and how you interpret it, to what you assume, believe and want. It's also about how, if you think in a radical way, you can look beyond your limited view of the world to see the bigger picture . This isn't one of those books that points out why you get things wrong, or offers you a set of rules to get it 'right'. Instead, Peter Lamont (a former magician, now Professor of History and Theory of Psychology at the University of Edinburgh) takes us on a curious tour. As he looks at the things around him, he reveals how we look at everything. He discovers – in nearby streets and buildings, and quirky local history (about Sherlock Holmes, the birth of Encyclopaedia Britannica, and the original self-help book) – the things that shape how we view the world. He shows how, from a local point of view, we create a worldview. No wonder that we disagree. However, if you're curious, then you can see the bigger picture. And, in a world of urgent noise and competing truths, you can make sense of anything.

Heroes in the Night Tea Krulos,2013-10-01 The Watchman didn't arrive in a Batmobile but drove a tan, four-door Pontiac.

He was in costume, of course—a trench coat, motorcycle gloves, army boots, a domino mask, and a red hooded sweatshirt emblazoned with a W logo. Journalist Tea Krulos had spoken to him over the phone but never face-to-mask. By the end of the interview, he wasn't sure if the Watchman was delightfully eccentric or completely crazy. But he was going to find out. Heroes in the Night traces Krulos's journey into the strange subculture of Real Life Superheroes, random citizens who have adopted comic book-style personas and hit the streets to fight injustice. Some concentrate on humanitarian or activist missions—helping the homeless, gathering donations for food banks, or delivering toys to children—while others actively patrol their neighborhoods looking for crime to fight. By day, these modern Clark Kents work as dishwashers, pencil pushers, and executives in Fortune 500 companies. But by night, only the Shadow knows. Well, the Shadow and Tea Krulos. Through historical research, extensive interviews, and many long hours walking patrol in Brooklyn, Seattle, San Diego, Minneapolis, and Vancouver, British Columbia, Krulos discovered what being a RLSH is all about. He shares not only their shining, triumphant moments but some of their ill-advised, terrifying disasters as well. It's all part of the life of a superhero. As the Watchman explains, &“If everyone made little changes in what they did, gave a little more to charity, watched out for their neighbors, we wouldn't have the problems that we have.&”

**Decades of Chaos and Revolution** Stephen J. Nelson, 2012-03-22 Decades of Chaos and Revolution: Showdowns for College Presidents is the story and comparison of two eras in the history of higher education. The first era covers the period of the 1960s through the mid-1970s, and the second is the first decade of the twenty-first century. Both decades were marked by events that shook the foundations of colleges and universities, and society as a whole. Nelson weaves an engaging story, told through the eyes of the presidents of the institutions that were involved in the chaos of those eras. For colleges and universities and their presidents, these two decades are the toughest, most tense and demanding of times in the last hundred years, and likely in the entire history of colleges and universities in America. The enduring images are equal parts chaos and change, revolution and recovery, dashed dreams and unflagging hopes. Nelson asks, of the two eras, which faced the greater challenges? Which era required more profound leadership? And which was the more difficult and demanding of their time to navigate successfully? It is clear that Steve Nelson sees the era of the 1960s and '70s as the most difficult. He believes that it was the presidents of that earlier era who confronted dilemmas and controversies unimagined before and not witnessed since. Decades of Chaos and Revolution presents an insightful picture of the tension and tumult that presidents of the 1960s and '70s had no choice but to face. Nelson traces the roots of ideological battles in the university that have persisted over the last sixty years. He examines what worked and what didn't in the tactics used by presidents in the face of the demands inspired by the protests and politics of the 1960s and shows how they have shaped succeeding generations of presidents. Then he unravels the parallel issues and unfinished business of the 1960s, which evolved in ensuing decades, and with which

presidents in the twenty-first century must also grapple. Watch the author talk more about the book on YouTube: Part I: Triggers leading up to the revolutions of the 60s/70s. Part II: Changes in the college presidency, and the inspiration for the book.
