In this new fifth edition there is enhanced accessibility with a new thematic index to help you find the best quotes on a chosen subject, more in-depth details of the earliest traceable source, an extensive keyword index, and biographical cross-references, so you will easily be able to find quotations for all occasions, and identify who said what, where, and when.

Scare Quotes from Shakespeare Martin Harries, 2000 This book argues that moments of allusion to the supernatural in Shakespeare are occasions where Karl Marx and John Maynard Keynes register the perseverance of haunted structures in modern culture. This reenchantment, at the heart of modernity and of literary and political works central to our understanding of modernity, is the focus of this book. The author shows that allusion to supernatural moments in Shakespeare (scare quotes) allows writers to both acknowledge and distance themselves from the supernatural phenomena that challenge their disenchanted understanding of the social world. He also uses these modern appropriations of Shakespeare as provocations to reread some of his works, notably Hamlet and Macbeth. Two pairs of linked chapters form the center of the book. One pair joins a reading of Marx, concentrating on The Eighteenth Brumaire, to Hamlet; the other links a reading of Keynes, focusing on The Economic Consequences of the Peace, to Macbeth. The chapters on Marx and Keynes trace some of the strange circuits of supernatural rhetoric in their work, Marx's use of ghosts and Keynes's fascination with witchcraft. The sequence linking Marx to Hamlet, for example, has as its anchor the Frankfurt School's concept of the phantasmagoria, the notion that it is in the most archaic that one encounters the figure of the new. Looking closely at Marx's association of the Ghost in Hamlet with the coming revolution in turn illuminates Hamlet's association of the Ghost with the supernatural beings many believed haunted mines. An opening chapter discusses Henry Dircks, a

nineteenth-century English inventor who developed—and then lost his claim to—a phantasmagoria or machine to project ghosts on stage. Dircks resorted to magical rhetoric in response to his loss, which is emblematic for the book as a whole, charting ways the scare quote can, paradoxically, continue the work of enlightenment.

*The Feeling of Forgetting* John Corrigan, 2023-07-06 The dual traumas of colonialism and slavery are still felt by Native Americans and African Americans as victims of ongoing cycles of white violence toward people of color. In *The Feeling of Forgetting*, John Corrigan trains our attention on an underexamined aspect of this historical trauma: the trauma experienced by white Americans as perpetrators of this violence. By tracing the practices of remembering and forgetting in the Christian tradition, Corrigan shows how experiences of racial violence and efforts, on the part of white Americans, to deliberately forget race are drivers of Christian nationalism and white supremacy. White trauma, Corrigan says, is detectable as an underground river in American culture. Sometimes it is powerfully joined with evangelical Christianity and surfaces at times in acts of brutality, terrorism, and insurrection. *The Feeling of Forgetting* is an attempt to understand how that process occurs, and how it is braided with the trauma of victims, so that we might be better positioned to address both--

*Untrodden Regions of the Mind* Ghislaine McDayter, 2002 An extensive collection of essays on Romantic literature written from a psychoanalytic perspective. With essays on both Continental and British Romantic writers, this volume explores not only the complex operations of gender and subjectivity but also how textual analysis reveals the ways in which the unconscious of the literary body resists and denies interpretive analysis just as forcefully as the individual unconscious.

**Quips, Quotes and Quests** Vernon K. McLellan, 1982-07

Liffey and Lethe Patrick R. O'Malley, 2017 Patrick R. O'Malley explores two competing modes of political historiography that emerge within Irish literature and culture: one that eludes the unresolved wounds of Ireland's violent history, and one that locates its roots in an account of colonial and specifically sectarian bloodshed and insists upon the moral necessity of naming that history.

*Representations of Forgetting in Life Writing and Fiction* Gunnthorunn Gudmundsdottir, 2016-11-09 This book primarily focuses on the concept of forgetting, with particular emphasis on how we can trace the forgotten in contemporary life writing and memory texts. It consists of two main parts: the first concentrates on life writing in particular and what the author calls "scenes of forgetting"; the second examines both fiction and autobiographies that deal with questions of collective memory/forgetting. The book's principal aim is to map methods and strategies writers employ when writing the forgotten - it argues that forgetting is a constant companion in any memory text and plays a decisive role in the memory work performed

in the texts. The main theoretical objective is to examine carefully the connection between collective memory and personal memory, by drawing from two disciplines at once: memory studies and theories on life writing. By considering both areas of research, the conclusions of this study are able to feed into both theoretical perspectives.

*The Messianic Disruption of Trinitarian Theology* Kornel Zathureczky, 2009-03-16 The unsettling context of late modernity, a terrain of an infinite fragmentation of life, poses a challenge to Christianity to rearticulate its defining doctrine of the Trinity. Christianity's initial messianic weakness in that its canonical writings attest to a universal message of redemption for the victims of Empire was subverted into the strong theology of the Empire. This book demonstrates that Trinitarian discourse was profoundly implicated in this development as it essentially absorbed and took the bite out of the messianic language of the early Christian movement. Zathureczky proposes a retrieval of the messianic discourse of Christianity by way of recapturing its redemptive weakness. Relying on an elective affinity between Walter Benjamin's messianism and Jürgen Moltmann Trinitarianism, he attempts to recapture the 'weakness' and fragility of the language of the initial messianic impulse of the Christian community. The resulting 'weak' Trinitarianism retains the basic character of Christianity as a Trinitarian faith, but now Trinitarian discourse about God is simultaneously messianic discourse, a language that is attuned to give voice to the damaged lives and alienating conditions of our contemporary context.

**Negative Exposures** Margaret Hillenbrand, 2020-03-06 When nations decide to disown their troubled pasts, how does this strategic disavowal harden into social fact? In *Negative Exposures*, Margaret Hillenbrand investigates the erasure of key aspects of such momentous events as the Nanjing Massacre, the Cultural Revolution, and the Tiananmen Square protests from the Chinese historical consciousness, not due to amnesia or censorship but through the operations of public secrecy. Knowing what not to know, she argues, has many stakeholders, willing and otherwise, who keep quiet to protect themselves or their families out of shame, pragmatism, or the palliative effects of silence. Hillenbrand shows how secrecy works as a powerful structuring force in Chinese society, one hiding in plain sight, and identifies aesthetic artifacts that serve as modes of reckoning against this phenomenon. She analyses the proliferation of photo-forms—remediations of well-known photographs of troubling historical events rendered in such media as paint, celluloid, fabric, digital imagery, and tattoos—as imaginative spaces in which the shadows of secrecy are provocatively outlined.

**The Anthropology of Peace and Reconciliation** Nigel Eltringham, 2021-05-09 This book offers a uniquely comparative, case-study perspective on the anthropology of peace and reconciliation. In the contemporary world, the end of violent conflict often gives way to one, or a combination, of five interventions designed to strengthen “peace” and facilitate “reconciliation”. These interventions are: the reinvigoration of “traditional” conflict management mechanisms; the collection and preservation of testimony; truth commissions; international criminal trials; and memorialisation. Social anthropologists have challenged the received wisdom on which these interventions are based, arguing that they fail to adequately take into

account and sensitively manage the needs and expectations of those who have lived through conflict. Exploring the five interventions through detailed ethnographic accounts from around the world, this book demonstrates that although social anthropologists adopt a critical stance, they do not dismiss “received wisdom” out of hand; rather, they advocate that interventions should be subject to continuous evaluation according to the evolving, often contradictory, needs and wishes of those who strive to survive among the ruins of their former lives. This is essential reading for scholars of peace studies, conflict resolution studies and those taking an anthropological approach to conflict, violence, human rights and law.

**Politics Out of History** Wendy Brown, 2018-06-05 What happens to left and liberal political orientations when faith in progress is broken, when both the sovereign individual and sovereign states seem tenuous, when desire seems as likely to seek punishment as freedom, when all political conviction is revealed as contingent and subjective? *Politics Out of History* is animated by the question of how we navigate the contemporary political landscape when the traditional compass points of modernity have all but disappeared. Wendy Brown diagnoses a range of contemporary political tendencies--from moralistic high-handedness to low-lying political despair in politics, from the difficulty of formulating political alternatives to reproaches against theory in intellectual life--as the consequence of this disorientation. *Politics Out of History* also presents a provocative argument for a new approach to thinking about history--one that forsakes the idea that history has a purpose and treats it instead as a way of illuminating openings in the present by, for example, identifying the haunting and constraining effects of past injustices unresolved. Brown also argues for a revitalized relationship between intellectual and political life, one that cultivates the autonomy of each while promoting their interlocutory potential. This book will be essential reading for all who find the trajectories of contemporary liberal democracies bewildering and are willing to engage readings of a range of thinkers--Freud, Marx, Nietzsche, Spinoza, Benjamin, Derrida--to rethink democratic possibility in our time.

**Jews and Arabs in Israel Encountering Their Identities** Maya Kahanoff, 2016-04-13 *Jews and Arabs in Israel Encountering their Identities* reveals the powerful potential of inter-group dialogues to transform identities and mutually negating relations. Using meetings with Israeli Jewish and Palestinian Arabian students who attend the Hebrew University of Jerusalem as case studies, Kahanoff examines the hidden psychological dimensions of the Israeli-Palestinian conflict and illustrates how each participant's sense of identity shifted in response to encounters with conflicting perspectives. Kahanoff contends that an awareness of the limitations of dialogue, without the renunciation of its value, is the most realistic basis upon which to build a sustainable agreement. This book is recommended for scholars of psychology, sociology, religious studies, political science, and communication studies.

**Troubled Legacies** Allan Hepburn, 2007-01-01 Last wills and testaments create tensions between those who inherit and those who imagine that they should inherit. As Victorian, modern, and contemporary novels amply demonstrate, seldom is more energy expended than at the reading of a will. Whether inheritances bring disappointment or jubilation, they create a

pattern for the telling of stories, stories that involve the transmission of legacies - cultural, political, and monetary - from one generation to the next. *Troubled Legacies* examines these narratives of inheritance in British and Irish fiction from 1800 to the present. The essays in this collection set out to juxtapose legal and novelistic discourse. This reading of literature against law produces intriguing and often provocative assertions about the specific relationship between novels and inheritance. As the contributors argue, novels reinforce property law, an argument bolstered by the examples of women, workers, Jews, and Irishmen dispossessed of their rights and unable to claim their cultural inheritances. *Troubled Legacies* thoroughly examines the connection between narrative and claims to legal entitlement, a topic that has not, to date, been comprehensively broached in literary studies.

*The Oxford Handbook of Montaigne* Philippe Desan, 2016-10-14 In 1580, Michel de Montaigne (1533-1592) published a book unique by its title and its content: *Essays*. A literary genre was born. At first sight, the *Essays* resemble a patchwork of personal reflections, but they engage with questions that animate the human mind, and tend toward a single goal: to live better in the present and to prepare for death. For this reason, Montaigne's thought and writings have been a subject of enduring interest across disciplines. This Handbook brings together essays by prominent scholars that examine Montaigne's literary, philosophical, and political contributions, and assess his legacy and relevance today in a global perspective. The chapters of this Handbook offer a sweeping study of Montaigne across different disciplines and in a global perspective. One section covers the historical Montaigne, situating his thought in his own time and space, notably the Wars of Religion in France. The political, historical and religious context of Montaigne's *Essays* requires a rigorous presentation to inform the modern reader of the issues and problems that confronted Montaigne and his contemporaries in his own time. In addition to this contextual approach to Montaigne, the Handbook also establishes a connection between Montaigne's writings and issues and problems directly relevant to our modern times, that is to say, our age of global ideology. Montaigne's considerations, or essays, offer a point of departure for the modern reader's own assessments. The *Essays* analyze what can be broadly defined as human nature, the endless process by which the individual tries to impose opinions upon others through the production of laws, policies or philosophies. Montaigne's motto -- What do I know? -- is a simple question yet one of perennial significance. One could argue that reading Montaigne today teaches us that the angle defines the world we see, or, as Montaigne wrote: What matters is not merely that we see the thing, but how we see it.
