Empathy and the Strangeness of Fiction Maria C. Scott,2020-03-02 Explores how and why narrative fiction engages empathy, including Theory of MindOffers a broad overview of current scientific work on the effects of fiction-reading on empathy, including Theory of MindProvides an original intervention in the field of literary theory, centring on the reflexive properties of the fictional strangerIncludes stand-alone close readings of three novels by important French authorsThis book studies recent psychological findings which suggest that reading fiction cultivates empathy, encouraging us to be critically reflective, suspicious readers as well as participatory, 'nave' readers. Scott draws on literary theory and close readings to argue that engagement with fictional stories also teaches us to resist uncritical forms of empathy and reminds us of the limitations of our ability to understand other people. The book treats figures of the stranger in Balzac's *La Fille aux yeux d'or*, Stendhal's *Le Rouge et le Noir* and Sand's *Indiana* as emblematic of the strangeness of narrative fiction, both drawing us in and keeping us at a distance.

Marriage in Ireland, 1660-1925 Maria Luddy,Mary O'Dowd,2020-06-25 What were the laws on marriage in Ireland, and did church and state differ in their interpretation? How did men and women meet and arrange to marry? How important was patriarchy and a husband's control over his wife? And what were the options available to Irish men and women who wished to leave an unhappy marriage? This first comprehensive history of marriage in Ireland across three centuries looks below the level of elite society for a multi-faceted exploration of how marriage was perceived, negotiated and controlled by the church and state, as well as by individual men and women within Irish society. Making extensive use of new and under-utilised primary sources, Maria Luddy and Mary O'Dowd explain the laws and customs around marriage in Ireland. Revising current

understandings of marital law and relations, Marriage in Ireland, 1660-1925 represents a major new contribution to Irish historical studies.

Spanish Society, 1400-1600 Teofilo F Ruiz,2014-09-11 Spanish Society depicts a complex and fascinating country in transition from the late Middle Ages to modernity. It describes every part of society from the gluttonous nobility to their starving peasants. Through anecdotes, a lively style and portraits of figures such as St Teresa of Avila and Torquemada, the book reflects the character and humour with which the common Spaniard endured an often-wretched lot. Beginning with a description of the geography, political life, and culture of Spain from 1400 to 1600, the unfolding narrative charts the country's shifts from one age to the next. It unveils patterns of everyday life from the court to the brothel, from the 'haves' of the aristocracy and clergy to the 'have nots' of the peasantry and the urban poor. Historical records illuminate details of Spanish society such as the transition from medieval festivities to the highly-scripted spectacles of the early modern period, the reasons for violence and popular resistance and the patterns of daily living: eating, dressing, religious beliefs and concepts of honour and sexuality. This compelling account includes historical examples and literary extracts, which allow the reader direct access to the period. From the street theatre of village carnivals to the oppressive Spanish Inquisition, it gives an abiding sense of Spain in the making and renders vivid the colours of a passionate history.
