The Universal One Walter Russell, In *The Universal One*, Walter Russell presents a groundbreaking perspective on the nature of the universe and the fundamental principles that govern it. Through a unique blend of science, philosophy, and spirituality, Russell challenges conventional understanding and offers a thought-provoking exploration of the interconnectedness of all things. This book invites readers to expand their consciousness and reconsider their perception of reality, as Russell unveils the universal laws that shape our existence.

The Universal One Walter Russell, 2024-04-08 *The Universal One* is a book written by Walter Russell that explains his new Cosmology. It is a must-read for anyone interested in Russell science and philosophy. The book reveals the possibility of transmutation of the elements and unites spiritual cause and scientifically observable effect in a seamless whole. Russell later revised some of the content of the book in *The Secret of Light* and *A New Concept of the Universe*. The book is a century or more ahead of its time and is now appealing to many people who are examining the nature of science and consciousness. The universe is a multiplicity of changing effects of but one unchanging cause. All things are universal, and nothing is of itself alone. When man knows this in measurable exactness, then he will have no limitations within those which are universal. *The Universal One* is Walter Russell's first expression of his new Cosmology explaining the Mind-centered electric universe. Though he would revise his theory somewhat over the years, this is the first and basic description of his new Cosmology. Lavishly illustrated, it sets out his views on God, the Universe, matter and Man's place in the world as he searches for a path to god. In this historic volume, Walter Russell first reveals the possibility of transmutation of the elements. This illustrated treatise is Russell's scientific explanation of God's ways and processes in the construction of the Universe and provides a guide for illuminating Man's proper way of living during the long journey to the Light of God.

Psychotherapy As If Life Really Mattered Christopher Alan Anderson,2012-09-11 A psychology for the New Age from which we may finally discover through each (opposite) other Who am I? and Why am I here?, bringing closure to our incompleteness. There is only one choice in life--each other. In the one-force paradigm, this is the exact choice we have not been able to make. No wonder why we long ago went crazy. We are blocked from our procreative life together in spirit, mind, and body. But with the understanding of the two forces of creation in making the conscious metaphysical distinction between male and female, we can now rectify this problem. We can accept our other half into our hearts and lives by simply saying, 'I choose you.' Such is the existential choice that will bring life to our lives. Psychotherapy As If Life Really Mattered Author Bio: Christopher Alan Anderson (1950 -) received the basis of his education from the University of Science and Philosophy, Swannanoa, Waynesboro, Virginia. He resides in the transcendental/romantic tradition, that vein of spiritual creativity of the philosopher and poet. His quest has been to define and express an eternal romantic reality from which a man and a woman could together stand in their difference and create a living universe of procreative love. Mr. Anderson began these writings in 1971. The first writings were published in 1985. On a personal note, when Mr. Anderson was asked to describe the writings and what he felt their message was he responded, Spiritual procreation. Mankind has yet to distinguish the two sexes on the spiritual level. In this failure lies the root of our problems and why we cannot yet touch the eternal together. The message of man and woman balance brings each of us together in love with our eternal other half right now. keywords: Psychology, Completeness, Sexuality, Spirituality, Identity, Consciousness

Unfolding Consciousness Edi Bilimoria,2024-03-11 Exploring the Living Universe and Intelligent Powers in Nature and Humans, author Edi Bilimoria heralds the new science of consciousness and offers the readers a roadmap and necessary tools to achieve future growth. Presented in three volumes, plus volume IV contains references, resources & further reading, they reveal the unity of the Eastern and Western branches of our perineal wisdom. Bilimoria shows how science seeks truth using a synthesis of both traditions. Evidence from a wide range of sources— scientific, medical, philosophical, religious, and

cultural— is put forward to argue the case that humans are spiritual beings, primarily, and not merely complicated biological machines. Bilimoria teaches that consciousness is not the product of matter but the primary & 'element' from which all else emanates. This process and its underlying mechanisms are described in detail with much clarity. This work has over 2000 references and is supported by copious tables and diagrams, plus individual chapter summaries and sidenotes to assist readers in navigating the multidimensional terrain traversed. Key areas - The scientific and esoteric worldviews compared and contrasted - The ultimate promise of science - The & 'soft' and & 'hard' problems of consciousness: How external input to the physical senses results in an internal, subjective experience - Quantum physics: its contribution to a new scientific paradigm - The Mystery Teachings of All Ages: their worldwide unity and central message - & 'Wet computers' and computers: Is the brain no different, in principle, from a computer? - Death and after: the transition and continuity of consciousness in other realms - Paranormal phenomena and apparitions - Subtle bodies - Evolution and destiny - Powers latent in human beings - Divinity and the united message of all world religions - The question of immortality - The primacy of consciousness and the manner of its unfoldment from the unmanifest realms to the physical world

The Man and Woman Manifesto Christopher Alan Anderson, 2017-05-04 In *The Man and Woman Manifesto: What We Believe!*, the author gives an accounting of what this paradigm shift into man and woman balance is about, both individually and for the world at large. We are at a turning point in the conscious evolution of mankind on planet earth. We all feel the change, and turbulence, although we are not sure of which way to turn. We are being offered an empty sexual progressivism through L,G,B,T,Q, as well as an existential threat in Islamic radicalism. In the meantime, our own Constitutional system of governance with its Christian roots seems to comprise a history--what is the way forward? These are not easy questions. This is not an easy book. But if you can capture its essence your life will forevermore have purpose. This writing will forevermore change your life as well as the world at large. Selected Writings--Volume 2 Christopher Alan Anderson, 2012-09-11 Four major writings on the man and woman relationship. These writings reflect the maturing of the author's thoughts revealing the breadth and scope of this metaphysical embodiment. Includes: *Mind and Spirit*; *The Romantic Ideal*; *The Two Forces of Creation*; and *Dimensions in Consciousness*. The man and woman relationship is that which is. It shows itself as reality at any point of consciousness/existence, creating through the two forces of male and female. Male and female hold this sexual universe together, securing form and reproducing it, in their creative balance together. Creative balance is their absolute conscious standing. It is their knowledge of truth and their living of love. One man and one woman... *Selected Writings--Volume 2*

Illumination Christopher Alan Anderson, 2012-09-11 A metaphysical account as well as the author's own experience of illumination. This writing is a step into the light of a procreative metaphysics as well as being the author's most autobiographical statement. The Man and Woman Spiritual Center is only expressed in an actual touch between a man and a woman. It cannot be expressed in any other way. That touch may range from a momentary conscious recognition to a full embrace, but a touch, one to another, it is. The Spiritual Center is not expressed through belief, pledge, worship, ritual, or the paying of alms. It is not something that can be institutionalized, dogmatized, or ratified. There isn't any prescribed path to take, master to follow, or status to attain for its expression. There is only a man and a woman, touching and expressing creation together. Without the Idea of Death Darcie French, 2019-11 Desiring to wholly transcend lifelong afflictions of depression and anxiety, the author declared enlightenment to be her number one goal in life. The State of Nirvana occurred spontaneously several years later, while escaping from a house fire in the middle of the night. As the author surrendered the fear of death to the Inner Voice, she spontaneously went into the Light to realize the eternal ecstasy of the Divine Trinity of knowledge and thinking.

How to Find Your Light of Ecstasy Within Billy Dugger,2010-10-14 How to Find Your Light of Ecstasy Within. In How to Find Your Light of Ecstasy Within, author Billy Dugger offers readers a new and very effective way to simply commune with God and get the answers you need. He explains in an everyday conversational style just how organic life actually got started on earth. This is totally different than the evolution theory or the idea that we were created instantly, as some believe. The book is in three separate sections and is 550 pages long. It also answers the three main questions: Where did you come from? Why are you here? Where are you going? The last section includes a very effective meditation technique that takes only a few seconds to use.

Elastic Architecture Stephen J. Phillips,2017-04-07 Twentieth-century architect Frederick Kiesler's innovative multidisciplinary practice responded to the ever-changing needs of the body in motion, anticipating the research-oriented practices of contemporary art and architecture. In 1960, the renowned architect Philip Johnson championed Frederick Kiesler, calling him "the greatest non-building architect of our time." Kiesler's ideas were difficult to construct, but as Johnson believed, "enormous" and "profound." Kiesler (1890-1965) went against the grain of the accepted modern style, rejecting rectilinear glass and steel in favor of more organic forms and flexible structures that could respond to the ever-changing needs of the body in motion. In Elastic Architecture, Stephen Phillips offers the first in-depth exploration of Kiesler's innovative and multidisciplinary research and design practice. Phillips argues that Kiesler established a new career trajectory for architects not as master builders, but as research practitioners whose innovative means and methods could advance alternative and speculative architecture. Indeed, Kiesler's own career was the ultimate uncompromising model of a research-based practice. Exploring Kiesler's formative relationships with the European avant-garde, Phillips shows how Kiesler found inspiration in the plastic arts, experimental theater, early animation, and automatons to develop and refine his spatial concept of the Endless. Moving from Europe to New York in the 1920s, Kiesler applied these radical Dadaist, constructivist, and surrealist practices to his urban display projects, which included shop windows for Saks Fifth Avenue. After launching his innovative Design Correlation Laboratory at Columbia and Yale, Kiesler went on to invent new houses, theaters, and galleries that were meant to move, shift, and adapt to evolutionary changes occurring within the natural and built environment. As Phillips demonstrates vividly, although many of Kiesler's designs remained unbuilt, his ideas proved influential to later generations of architects and speculative artists internationally, including Archigram, Greg Lynn, UNStudio, and Olafur Eliasson.

The Metaphysics of Sex ...in a Changing World! Christopher Alan Anderson, 2014-07-16 Is sex metaphysical? This is to say, does it have a purpose and a nature that is encoded in the very construct of the universe? These are the questions the author takes up in this day and age where most everything is up for grabs. This writing is not without an examination of sensitive issues and explicit terms. Think of it as a third way, if you will. It resides between the fixed identity of our declining religions and the fluid identity of the emerging L,G,B,T,Q movement. In that it presents to us all another choice. In the end, it is about a construct for sexual balance that any reader can understand and use as a guide for his or her life. Near-Death Experiences, The Rest of the Story P.M.H. Atwater, 2009-01-09 Real-life stories of out-of-body experiences, encountering a special light, greeters from the afterlife, life reviews, tunnels, and 360-degree vision--are all part of this intriguing look at near-death experiences (NDEs) by one of the world's noted authorities, P.M.H. Atwater. Atwater shares her amazing findings, based on her sessions with more than 4,000 adults and children and over 40 years of research; a breathtaking culmination to a successful and controversial career. Atwater examines every aspect of the near-death phenomenon: from first-hand accounts of survivors experiencing flash forwards, waking up in morgues, and developing psychic abilities, to stunning cases of groups experiencing NDEs together. Atwater offers statistics from her findings to show the distinctive common patterns that people experience, as well as the common aftereffects and how it changed their lives. She also explores the physiological and spiritual changes that result from near-death experiences and looks at the connections between the NDE experience and what is often called "enlightenment. Near Death Experiences not only provides a glimpse of what lies beyond the veil of our temporal existence, but points to what--or who--we really are and what we are meant to be.

Shiva's Hologram Padma Aon Prakasha, 2023-08-15 The Maheshwara Sutra is the key teaching on sound consciousness in the Vedic tradition, given by Shiva over 2,200 years ago, after his iconic dance of destruction and creation. It is the clearest exposition of the world being created by sound vibration ever recorded. The Maheshwara Sutra was revealed by Shiva through his Drum. Each beat weaves the matrix of life, dynamically creating the universe and human being in 42 sound vibrations. Each sound unfolds the universal creative process, from the quantum field and Big Bang to the mind, breath, sexuality, chakras and all elements of creation. The Maheshwara Sutra is Shiva's holographic Creation of Everything, the original yoga of sound. Its 42 Sound Keys create 42 vibrational shifts within you, which can align you into the quantum blueprint of creation. Shiva's Hologram: The Maheshwara Sutra is a science of consciousness, a profound synthesis of Vedic

and western wisdom and practices that articulates a path into wholeness through sound. Thorough and well researched, it explains the sounds that form your self, opening doors into using sound never revealed before. Shiva's Hologram: The Maheshwara Sutra translates this ancient wisdom into contemporary relevance and practice through quantum physics, sacred geometry, the union of masculine and feminine Shiva-Shakti, and the wisdom of India's greatest masters. Shiva's Hologram is written for the beginner and advanced practitioner and reveals the yoga of the 42 sounds, their meanings and practical applications. Use the sounds for sound-healing and to resonate into the harmonious Blueprint of Creation: Create mantras to resonate every part of you into health and well-being: Use it for yoga, self-inquiry and to expand your consciousness in meditation. The deeper wisdom of the Maheshwara Sutra has been kept within the Saivite Indian lineage for millennia, and has not been released to the general public until now.

The exception being the first article which was written in 2005. These articles are written on a number of different topics for the purpose of enlightening and enlarging the theme of Man and Woman Balance as a metaphysical construct. Can we now define love? Might we begin with the terms Father and Mother? Or how about Husband and Wife? Procreant balance--(the Omnific term)--and a child, son or daughter, is born. Spiritual procreation--(the Omnific term)--operating everywhere at all times, reflecting back to us the love the resides in our hearts. I Carry the Cross, Too Christopher Alan Anderson, 2012-09-11 No doubt, anyone who attempts to complete the message of Jesus Christ opens himself up to question and perhaps ridicule. But, I ask, what are we now to do? We are at a crossroads, not knowing which way to turn. In this work, I try to provide a direction and so carry that responsibility for, you see, I carry the cross, too, just as you will upon receiving this work. The speaking of the truth is the taking of the stand for life. Of course,

our words must come from the balance (silence), and they will as we stand up for life. Each time a man stands up for a woman and a woman stands up for a man, life is consecrated.
