The Ultimate Guide to Pregnancy for Lesbians Rachel Pepper, 2008-09-05 *The Ultimate Guide to Pregnancy for Lesbians* covers everything you need to make the thrilling and challenging journey to motherhood: from choosing a donor to tracking fertility to signing the right papers on the dotted lines. Rachel Pepper's lively, easy-to-read guide is the first place to go for up-to-date information and sage advice on everything from sex in the sixth month to negotiating family roles. Why a second edition? When the acclaimed first edition appeared, the author's daughter was only a few months old. This new edition takes into account the parenting know-how Pepper has developed over the intervening six years, as well as the evolving legal status of lesbian parents, and the increasing importance of the Internet for information on fertility, sperm banks, and donors. The resource section is greatly expanded, as are the sections on each trimester of pregnancy, on childbirth, and on life with a newborn. And Pepper provides more insight into preconception planning for both single lesbians and couples. An indispensable resource, *The Ultimate Guide to Pregnancy for Lesbians* is now bigger and better.

Tapping into the vast dreaming experiences and lore of the world's cultures--from the Siwa people of the Libyan desert to the Naskapi Indians of Labrador--Sarvananda Bluestone challenges the assumption that all symbols universally signify the same thing to all dreamers. The World Dream Book encourages readers to develop their own, personalized symbols for understanding their consciousness and provides a series of stories, multicultural techniques, and games to help them do so. Playful explorations, such as the aboriginal Sipping the Water of the Moon, teach how to induce, recall, interpret, and utilize the power of dreams. Readers will discover how a stone under a pillow can help us remember a dream and will explore their own dormant artist and writer as they reclaim the power of their sleeping consciousness. Sarah Buckley might be called a third-wave natural birth advocate. A doctor and a mother, she approaches the question of how a woman and baby might have the most fulfilling birth experience with respect for the wisdom of both medical science and the human body. Using current medical and epidemiological research plus women's experiences (including her own), she demonstrates that what she calls undisturbed birth is almost always healthier and safer than high-technology approaches to birth. Her wise counsel on issues like breastfeeding and sleeping during postpartum helps extend the gentle birth experience into a gentle parenting relationship.
