Economía política de la urbanización Paul Singer,1998-01-01 Reúne ensayos acerca de la problemática del crecimiento urbano, especialmente en América Latina. Explica el problema a la luz de una concepción que efectivamente vincule la dinámica de la población con el desarrollo económico y correlacione la estructura de las ciudades con las contradicciones de las clases sociales y las formas de dominación.

**La ciudad intermedia** Paolo Andrés Jiménez Oliveros,2020-06-15 Este libro hace, a partir de un raciocinio deductivo, un análisis preliminar de lo que se entiende por ciudad intermedia y sus características, tomando como objeto de estudio a la ciudad de Girardot. Dicho esto, se recopilan y analizan variables cualitativas y cuantitativas con el fin de establecer la importancia actual de las ciudades intermedias dentro del sistema urbano colombiano; un sistema donde las ciudades, de acuerdo a sus relaciones funcionales con otras ciudades, pueden formar aglomeraciones urbanas producto de estrechas relaciones socioeconómicas creadas y consolidadas en el espacio-tiempo.

la enseñanza del español LE/L2: de la teoría a la práctica presents state-of-the-art theory and teaching practices for integrating reading skills into the teaching of Spanish. The book bridges a conspicuous gap between research supporting reading as a key component of language acquisition and actual practice by discussing how to implement reading successfully in and out of the classroom. Written entirely in Spanish, the book focuses on the needs of Spanish language learners with the goal of motivating students to read in the target language and work with diverse types of texts and genres. Written in a clear and accessible manner, La comprensión lectora en la enseñanza del español LE/L2: de la teoría a la práctica is an essential resource for teachers of Spanish at all levels. It is an excellent reference book for language teachers who wish to integrate reading into the teaching of the Spanish language.

en restauración ecológica con prestigio internacional, propone y argumenta en este novedoso libro la tan necesaria transición agroecológica, ya que nuestra alimentación es el principal vínculo entre la salud humana y la salud del planeta. Para ello, se basa en su experiencia investigadora, proyectos aplicados de agroecología y vivencias como agricultor ecológico. Se propone la reconexión de las personas con la naturaleza a través de la agricultura. La agricultura industrial, dominante hoy en día, es la actividad humana que causa un mayor impacto ambiental. Sin embargo, un tercio de los alimentos se pierden o desperdician. En el otro lado, distintas estrategias y técnicas permiten que la producción agrícola vaya unida de la mano de la recuperación de la naturaleza. El contenido del libro, tratado en forma didáctica y amena, resalta las soluciones existentes para enfrentar la crisis climática y la pérdida de biodiversidad. Muestra la más completa revisión de la evidencia científica relacionada con los cambios positivos en la biodiversidad, los servicios ecosistémicos y la economía que resultan de la transformación de la agricultura convencional en distintos tipos de agricultura agroecológica. Inspira una nueva agricultura para un planeta más sostenible e inspira e informa a un nuevo consumidor para la adopción de pautas de consumo responsable.
