That's a Great Answer! Dr Nancy Boyles, Nancy N. Boyles, 2012 The ability to comprehend and to respond meaningfully to text is a skill students need every day--not just on test day. That's a GREAT Answer! provides complete and ready-to-go support to help teachers get great answers to open-ended comprehension questions from the students who need help the most--elementary students, struggling older readers, and English language learners. In this revised second edition, Nancy Boyles now includes new Common Core State Standards-based objectives, step-by-step lesson sequences, collaborative tasks that link teaching to learning, insightful new teaching tips, updated and enhanced bibliographies, and student targets on the CD that specify how to meet each objective and answer a particular comprehension question. Her ready-to-go student scaffolds then break comprehension objectives into fifty-three specific, measurable, open-ended questions divided among four thinking strands. A chart shows the correlation between all objectives and the Common Core State Standards for comprehension--easily aligned to the literacy objectives of any state curriculum. Each open-ended question includes: a step-by-step lesson sequence; a template for a related oral collaborative task; teaching tips; a bibliography of fiction and nonfiction picture books aligned with the question; a template instructing students how to find key evidence for the objective before writing their response; an answer frame scaffold for initial response practice that helps students at any grade level organize and elaborate; and a target on the CD that specifies for students how to meet each objective and answer a particular comprehension question. The included CD provides all of the answer frames and targets for the open-ended questions, as well as rubrics, criteria charts, planners, and an extensive master bibliography that matches key fiction and nonfiction literature models with appropriate objectives. From setting a foundation with great standards, books, and instruction through guidelines for assessment, That's a GREAT Answer offers a (now more) complete, great answer for teachers who want to empower their students to respond well to open-ended questions.

Think Big with Think Alouds Molly Ness, 2017-07-13 I'm guessing that those two are planning a surprise. . . . The author keeps mentioning the storm because she wants us to think that the character's upset. . . . Wait—yikes, I gotta go back and reread because I'm not getting this part. . . . These are the flickering thoughts of a strategic reader. If only we could bottle all these mental moves and pour them into the minds of our students, then readers' achievement would grow exponentially. In Think Big With Think Alouds, Molly Ness delivers a process that comes close to bottling that magic. Molly spent a year researching teachers' think alouds, and she uses these findings to help you know just what to do. The big time-saver? You

focus on just these five strategies: asking questions, making inferences, synthesizing, understanding the author's purpose, and monitoring and clarifying. Select the one or two strategies that align to your text, and get ready with a stack of sticky notes! Grab a pencil, and you are on your way to dynamic lessons using Molly's three-step planning process: Read Once: Go wild, putting a flurry of sticky notes on spots that strike you Read Twice: Whittle your notes down to the juiciest stopping points Read Three Times: Jot down what you will say so there's no need to wing it in front of the kids Other practical tools include More than 20 ready-made think aloud scripts for favorite texts by Sandra Cisneros, Seymour Simon, Shel Silverstein, and many others, to use for think alouds for fiction, informational text, and poetry. Fun small group and partner activities to gradually transfer comprehension strategies to your students. Downloads on the companion website, including spinner and dice templates, planning forms, and think aloud scripts Molly Ness is an associate professor at Fordham University's Graduate School of Education. She graduated Phi Beta Kappa from Johns Hopkins University and earned her PhD in reading education from the University of Virginia. A former Teach For America corps member, she is an experienced classroom teacher and reading clinician. Her numerous books and articles focus on reading comprehension, the instructional decisions of teachers, and the assessment and diagnosis of struggling readers.

**Summertime Learning, Grade 2** Teacher Created Resources, 2010-04 Here's the question parents ask at the end of every school year: How can we help our kids prepare for the next school year, while allowing them to enjoy their summer vacation? Here's the perfect answer: short lessons presented in a daily schedule for 8 weeks. The Monday-Thursday lessons cover a variety of grade-appropriate subjects. Friday's lessons are fun, brain-teasing kinds of activities. All of the lessons can be done in about 30 minutes, leaving children with plenty of time for play. Each book includes over 300 stickers that can be used to track progress and reward good work.

Mentor Texts Rose Cappelli, 2023-10-10 In their first edition of Mentor Texts, authors Lynne Dorfman and Rose Cappelli

helped teachers across the country make the most of high-quality children's literature in their writing instruction. *Mentor Texts: Teaching Writing Through Children's Literature, K-6, 2nd Edition* the authors continue to show teachers how to help students become confident, accomplished writers by using literature as their foundation. The second edition includes brand-new Your Turn Lessons, built around the gradual release of responsibility model, offering suggestions for demonstrations and shared or guided writing. Reflection is emphasized as a necessary component to understanding why mentor authors chose certain strategies, literary devices, sentence structures, and words. Dorfman and Cappelli offer new children's book titles in each chapter and in a carefully curated and annotated Treasure Chest. At the end of each chapter a Think About It'sTalk About It'sWrite About It section invites reflection and conversation with colleagues. The book is organized around the characteristics of good writing focus, content, organization, style, and conventions. The authors write in a friendly and conversational style, employing numerous anecdotes to help teachers visualize the process, and offer strategies that can be immediately implemented in the classroom. This practical resource demonstrates the power of learning to read like writers.
