Scott Bradbury prompts readers to consider what will happen and how to mentally and physically prepare. In ten chapters including: Assessing Your Existing Survival Skills, Civilization After the Fall of Civilization, and Eat, Drink, and Be Wary, Bradbury offers commonsense strategies that exponentially boost one's chances of a bright future. Among other Apocalyptic scenarios, he describes what one might expect after a seismic catastrophe, an ice age event, nuclear war, and alien invasion as well as the stages of disorder, which he breaks down into Instant, Coming Soon, and Slow-Burn events. Where someone lives makes a big difference, but besides new threats, there are also new careers, new hobbies, and a whole new adventure, the only trick is to be ready for it.
