2012 and the End of the World Matthew Restall,Amara Solari,2011-01-16 Did the Maya really predict that the world would end in December of 2012? If not, how and why has 2012 millenarianism gained such popular appeal? In this deeply knowledgeable book, two leading historians of the Maya answer these questions in a succinct, readable, and accessible style. Matthew Restall and Amara Solari introduce, explain, and ultimately demystify the 2012 phenomenon. They begin by briefly examining the evidence for the prediction of the world's end in ancient Maya texts and images, analyzing precisely what Maya priests did and did not prophesize. The authors then convincingly show how 2012 millenarianism has roots far in time and place from Maya cultural traditions, but in those of medieval and Early Modern Western Europe. Revelatory any myth-busting, while remaining firmly grounded in historical fact, this fascinating book will be essential reading as the countdown to December 21, 2012, begins.

Celeste Parrish and Educational Reform in the Progressive-Era South Rebecca S. Montgomery,2018-12-05 Celeste Parrish and Educational Reform in the Progressive-Era South follows a Civil War orphan's transformation from a Southside Virginia public school teacher to a nationally known progressive educator and feminist. In this vital intellectual biography,

Rebecca S. Montgomery places feminism and gender at the center of her analysis and offers a new look at the postbellum movement for southern educational reform through the life of Celeste Parrish. Because Parrish's life coincided with critical years in the destruction and reconstruction of the southern social order, her biography provides unique opportunities to explore the links between southern nationalism, reactionary racism, and gender discrimination. Parrish's pursuit of higher education and a professional career pitted her against male opponents of coeducation who regarded female and black dependency as central to southern regional distinctiveness. When coupled with women's lack of formal political power, this resistance to gender equality discouraged progress and lowered the quality of public education throughout the South. The marginalization of women within the reform movement, headed by the Conference for Education in the South, further limited women's contributions to regional change. Although men welcomed female participation in grassroots organization, much of women's work was segregated in female networks and received less public acknowledgement than the reform work conducted by men. Despite receiving little credit for their accomplishments, by working on the margins, women were able to use the southern movement and its philanthropic sponsors as alternate sources of influence and power. By exploring the consequences of gender discrimination for both educational reform and the influence of southern progressivism, Rebecca S. Montgomery contributes a nuanced understanding of how interlocking hierarchies of power structured opportunity and influenced the shape of reform in the U.S. South.

Capital Markets Union and Beyond Franklin Allen, Ester Faia, Michael Haliassos, Katja Langenbucher, 2024-03-12 Experts from economics, finance, law, policy, and banking discuss the design and implementation of a future capital market union in Europe. The plan for further development of Europe's economic and monetary union foresees the creation of a capital market union (CMU)—a single market for capital in the entire Eurozone. The need for citizens and firms of all European countries to have access to funding, together with the pressure to improve the efficiency and risk-sharing opportunities of the financial system in general, put the CMU among the top priorities on the Eurozone's agenda. In this volume, leading academics in economics, finance, and law, along with policy makers and practitioners, discuss the design and implementation of a future CMU. Contributors describe the key design challenges of the CMU; specific opportunities and obstacles for reaching the CMU's goals of increasing the economic well-being of households and the profitability and viability of firms; the role that markets—from the latest fintech developments to traditional equity markets—can play in the future success of CMU; and the institutional framework needed for CMU in the aftermath of the global recession. Contributors Sumit Agarwal, Franklin

Business and Company Legislation 2021/2022 Jason Ellis, 2021-07-15 Published annually, Business and Company Legislation details the main regulations governing the operation of companies in England and Wales. It also includes relevant legislation on insolvency, partnerships (including limited liability partnerships) and financial services.

EU Securities and Financial Markets Regulation Niamh Moloney, 2023-03-25 Over the decade or so since the global financial crisis rocked EU financial markets and led to wide-ranging reforms, EU securities and financial markets regulation has continued to evolve. The legislative framework has been refined and administrative rulemaking has expanded. Alongside, the Capital Markets Union agenda has developed, the UK has left the EU, and ESMA has emerged as a decisive influence on EU financial markets governance. All these developments, as well as the Covid-19 pandemic, have shaped the regulatory landscape and how supervision is organized. *EU Securities and Financial Markets Regulation* provides a comprehensive, critical, and contextual account of the intricate rulebook that governs EU financial markets and its supporting institutional arrangements. It is framed by an assessment of how the regime has evolved over the decade or so since the global financial crisis and considers, among other matters, the post-crisis reforms to key legislative measures, the massive expansion of administrative rulemaking and of soft law, the Capital Markets Union agenda, the development of supervisory convergence as the means for organizing pan-EU supervision, and ESMA's role in EU financial markets governance. Its coverage extends from capital-raising and the Prospectus Regulation to financial market intermediation and the MiFID II/MiFIR and IFD/IFR regimes, to the new regulatory regimes adopted since the global financial crisis (including for benchmarks and their administrators), to retail market regulation and the PRIIPs Regulation, and on to the EU's third country regime and the implications of the UK's departure from the EU. This is the fourth edition of the highly successful and authoritative monograph first published as *EC Securities Regulation*. Heavily revised from the third edition to reflect developments since the global financial crisis, it adopts the in-depth contextual and analytical approach of earlier editions and so considers the market, political, institutional, and international context of the regulatory and supervisory regime.

EU Market Abuse Regulation Kalss, Susanne, Oppitz, Martin, Torggler, Ulrich, Winner, Martin, 2021-12-07 This comprehensive Commentary examines the implications of the EU's Market Abuse Regulation, introduced following the 2008

financial crisis after gaps were identified in the existing regulatory framework. It explores whether and how the Regulation achieves its aims of preserving the integrity of financial markets by preventing insider dealing and market manipulation, providing a harmonised legal framework, and increasing legal certainty for all market participants.

End Me a Tenor Joelle Charbonneau, 2013-04-02 Murder takes center stage in the second Glee Club mystery from the New York Times bestselling author of the Testing trilogy. Singing in a production of the Messiah and rehearsing her show choir for a holiday concert may be more than Paige Marshall can handle. Not only does she have to contend with the overblown ego of world-renowned tenor David Richard, she now has to quickly revamp the show choir's number, since not one but two other high schools are performing the same song for the quickly approaching competition season. The tempestuous tenor may have a voice to die for, but when he drops dead during rehearsal after drinking poisoned water, Paige has to compose herself and once again solo as a sleuth to find a killer who's no choirboy...

Regulating Primary Markets in the Capital Markets Union Konstantinos Serdaris, 2025-01-09 Stay ahead of the curve with this essential book, offering a concise, comprehensive and up-to-date analysis of the Prospectus Regulation (including its recent amendment by the EU Listing Act) and the pathbreaking Regulation on European Crowdfunding Service Providers (ECSPR). Placing the discussion in the context of the Capital Markets Union (CMU), this book provides a fresh and insightful perspective on the ever-evolving regulatory landscape of EU primary capital markets, setting out a practical roadmap for achieving effective and inclusive regulation. With a keen focus on the dynamic relationship between legal uniformity and differentiation, the book addresses 2 pivotal questions: how can the imperative of investor protection be balanced with the goal of providing businesses with improved and cost-effective access to EU primary securities markets, and how can the pursuit for greater unification be practically reconciled with the growing demand for regional solutions in a post-Brexit era? Unveiling a unique normative framework, the book provides a holistic perspective; it explores the underlying objectives and intricate complexities of the CMU, critically evaluates the transformative potential of regulatory actions, sheds light on potential inconsistencies, and offers insightful suggestions for future reforms. A must-read for policymakers, scholars, legal practitioners and anyone seeking to comprehend the current and emerging challenges in the regulation of EU primary capital markets.

Financial Regulation in the EU Raphaël Douady, Clément Goulet, Pierre-Charles Pradier, 2017-08-29 Financial

regulation has dramatically evolved and strengthened since the crisis on both sides of the Atlantic, with enhanced international coordination through the G-20 and the Financial Stability Board and, at the regional level, a definite contribution from the European Union. However the new regulatory environment has its critics, with many divergent voices arguing that over-regulation has become a root cause of our current economic stagnation. This book provides a bigger picture view of the impact and future of financial regulation in the EU, exploring the relationship between microeconomic incentives and macroeconomic growth, regulation and financial integration, and the changes required in economic policy to further European integration. Bringing together contributions from law, economics and management science, it offers readers an accessible but rigorous understanding of the current state of play of the regulatory environment, and on the future challenges. Coverage will include:

- A review of the recent regulatory changes from a legal and economic perspective
- Analysis of how the economic model of financial institutions and entities is impacted by the new frameworks
- How to improve securitization and new instruments under MIFID II
- Issues in the enhanced supervision under delegated acts for AIFMD, CRR-CRD IV and Solvency II
- How long term funding can be supplied in lieu of the non-conventional monetary policies
- A new architecture for a safer and more efficient European financial system

Financial Regulation in the EU provides much needed clarity on the impact of new financial regulation and the future of the economy, and will prove a must have reference for all those working in, researching and affected by these changes.
