The three literary letters Dionysius (of Halicarnassus.),1901

The Three Literary Letters W. Rhys Roberts,2019-06-12 Published in 1987: In this volume, the author presents the Three Literary Letters of Dionysius of Halicarnassus. The works of Dionysius are regarded particularly for their value as histories and works of rhetoric.

Dionysius of Halicarnassus. The three literary letters ed. with Engl. tr. by W.R. Roberts Dionysius (of Halicarnassus.),1901

The Paths of Greek Enzo Passa,Olga Tribulato,2019-08-19 This volume proposes a multidisciplinary approach to the history of Ancient Greek. Each of its ten papers offers a methodological example of how the study of Greek can be greatly enhanced by a truly multidisciplinary perspective in which the analysis of language interacts with epigraphy, textual philology and comparative linguistics, yet without neglecting the role that linguistic features play in the texts in which they are used, and hence in the culture which produced both. The first four papers tackle epic language, addressing eccentric pronouns and formulas, the role and semantics of the middle perfect, and the development of hexameter poetry in the colonial West. The next two papers are devoted to lyric poetry and its linguistic influence in Greek literature and tackle fragments by Corinna and Epicharmus respectively. The remaining four contributions look into a variety of topics spanning from early Ionic prose to the diachronic development of the Greek lexicon and its reception in Byzantine lexicography. They all provide examples of how Greek literary language evolved across the centuries, how it was perceived by ancient scholars, and what contribution modern linguistic approaches can provide to our understanding of both these issues.

My Lots are in Thy Hands: Sortilege and its Practitioners in Late Antiquity AnneMarie Luijendijk,William E. Klingshirn,2018-10-08 Sortilege—the making of decisions by casting lots—was widely practiced in the Mediterranean world during the period known as late antiquity, between the third and eighth centuries CE. In *My Lots are in Thy Hands: Sortilege and its Practitioners in Late Antiquity*, AnneMarie Luijendijk and William Klingshirn have collected fourteen essays that

examine late antique lot divination, especially but not exclusively through texts preserved in Greek, Latin, Coptic, and Syriac. Employing the overlapping perspectives of religious studies, classics, anthropology, economics, and history, contributors study a variety of topics, including the hermeneutics and operations of divinatory texts, the importance of diviners and their instruments, and the place of faith and doubt in the search for hidden order in a seemingly random world.

Hellenism and Empire Simon Swain, 1996 Hellenism and Empire explores identity, politics, and culture in the Greek world of the first three centuries AD, the period known as the second sophistic. The sources of this identity were the words and deeds of classical Greece, and the emphasis placed on Greekness and Greek heritage was far greater then than at any other time. Yet this period is often seen as a time of happy consensualism between the Greek and Roman halves of the Roman Empire. The first part of the book shows that Greek identity came before any loyalty to Rome (and was indeed partly a reaction to Rome), while the views of the major authors of the period, which are studied in the second part, confirm and restate the prior claims of Hellenism.

Simon of Samaria and the Simonians M. David Litwa, 2024-03-07 Who were the Simonians? Beginning in the mid-second century CE, heresiologists depicted them as licentious followers of the first “gnostic,” a supposedly Samaritan self-deifier called Simon, who was thought to practice “magic” and became known as the father of all heresies. Litwa examines the Simonians in their own literature and in the literature used to refute and describe them. He begins with Simonian primary sources, namely The Declaration of Great Power (embedded in the anonymous Refutation of All Heresies) and The Concept of Our Great Power (Nag Hammadi codex VI,4). Litwa argues that both are early second-century products of Simonian authors writing in Alexandria or Egypt. Litwa then moves on to examine the heresiological sources related to the Simonians (Justin, the book of Acts, Irenaeus, the author of the Refutation of All Heresies, Pseudo-Tertullian, Epiphanius, and Filaster). He shows how closely connected Justin's report is to the portrait of Simon in Acts, and offers an extensive exegesis and analysis of Simonian theology and practice based on the reports of Irenaeus and the Refutator. Finally, Litwa examines Simonianism in novelistic sources, namely the Acts of Peter and the Pseudo-Clementines. By the time these sources were written, Simon had become the father of all heresies. Accordingly, virtually any heresy could be attributed to Simon. As a result-despite their alluring portraits of Simon-these sources are mostly unusable for the historical study of the Simonian Christian movement. Litwa concludes with a historical profile of the Simonian movement in the second and third centuries. The book features appendices which contain Litwa's own translations of primary Simonian texts.

Dionysius of Halicarnassus Dionysius (of Halicarnassus.), 2011-02-03 In this volume, the eminent classicist William Rhys Roberts (1858-1929) presents the Three Literary Letters of Dionysius of Halicarnassus. Well established in the classical canon, the works of Dionysius are regarded particularly for their value as histories and as works of rhetoric. First published in 1901, this is an edition that encourages speakers of modern English to see Greek sources through the eyes of contemporary Greek

critics. The original Greek text is printed with a facing-page English translations, and accompanied by notes, a glossary of rhetorical and grammatical terms, a bibliography, and an introductory essay on Dionysus as a literary critic. It remains an important early edition and translation of Dionysus that will be of interest to classicists and amateur readers of Greek.

Great Thoughts from Master Minds ,1906

The Divine Heartset Crispin Fletcher-Louis,2023-11-21 The fruit of a decade's research, this volume offers a new interpretation of the dense Christological narrative in Philippians 2:6-11, taking inspiration from recent advances in our understanding of the letter's Greek and Roman setting and from insights made possible by recently created linguistic databases (such as TLG and PHI). The passage's praise of Christ engages the language of Hellenistic ruler cults, Platonic metaphysics and moral philosophy, popular (Homeric) beliefs about the gods, and Greek love (eros), to articulate a scripturally grounded theology in which God is revealed to be one in two persons (God the Father and LORD Jesus Christ). The volume also explores hitherto unseen ways in which the central Christ Hymn is tightly connected to the rest of Paul's argument. The hymn presents Christ as an epitome of the ideals of Greek (and Roman) virtue, to support Paul's summoning his readers to a life of praiseworthy and exemplary civic conduct (in 1:27). New or recently proposed translations are advanced for numerous words and phrases (in, e.g., 1:8, 11, 27; 2:3, 4, 6, 11; 3:2, 4) and a new (non-Stendahl) approach to Paul's boasting in 3:4-6, that is Christological rather than biographical, is put forward.

Urban Disasters and the Roman Imagination Virginia M. Closs,Elizabeth Keitel,2020-09-21 This book affords new perspectives on urban disasters in the ancient Roman context, attending not just to the material and historical realities of such events, but also to the imaginary and literary possibilities offered by urban disaster as a figure of thought. Existential threats to the ancient city took many forms, including military invasions, natural disasters, public health crises, and gradual systemic collapses brought on by political or economic factors. In Roman cities, the memory of such events left lasting imprints on the city in psychological as well as in material terms. Individual chapters explore historical disasters and their commemoration, but others also consider of the effect of anticipated and imagined catastrophes. They analyze the destruction of cities both as a threat to be forestalled, and as a potentially regenerative agent of change, and the ways in which destroyed cities are revisited — and in a sense, rebuilt— in literary and social memory. The contributors to this volume seek to explore the Roman conception of disaster in terms that are not exclusively literary or historical. Instead, they explore the connections between and among various elements in the assemblage of experiences, texts, and traditions touching upon

the theme of urban disasters in the Roman world.
