*Encyclopedia of Ancient Deities* Charles Russell Coulter, Patricia Turner, 2021-12-06 Throughout history, humans have pondered the question of their existence. In nearly every society, part of the answer has included some form of god or goddess. For the Mayans, one such deity was Ajtzak, who tried to create humans from wood; for the Yorubas of Africa, Shango controlled the thunder and lightning. The Chinese of the Shang dynasty era worshipped Shang Ti. Evil deities were also part of the answer, as in the case of the Kuvera, the Hindu chief of evil in the Vedic period, and Tu, the Persian or Islamic demon of fatal accidents. All of the known ancient gods, many heretofore obscure or known only from mythological literature, are included in this exhaustive reference work. The focus is on their origins, histories, and functions. The people who believed in each deity are identified, along with alternate names or spellings both old and modern. The descriptions that follow are of the functions, origins and physical nature of the deities. Extensive cross references are provided for alternate spellings and names.

*Thai Ceramic Art* Nicol Guérin, Dick van Oenen, 2005 This publication is a detailed study of the 14th - 16th century Thai ceramic wares that played a role in the local Buddhist, Brahman and Animist religious ceremonies, approached from an art historical point of view. It also establishes the degree of interaction between the many cultures that influenced the form, design, function and usage of these wares, and draws on the underlying historic, religious and stylistic linkages with India, China, Sri Lanka, Burma Cambodia and other parts of Southeast Asia. A background to the history, politics and cultural practices of Thailand introduces the subject, followed by a systematic analysis of the Thai products. Throughout the study, comparisons are made with other Asian cultures, decorative styles and chronology, all of which add further dimensions to a hitherto relatively unexplored art form. This voluminous and painstaking research was undertaken by the authors over a period of twenty years, inspired by their personal interest in the subject. The resultant major reference work on Thai ecclesiastical ceramics has had the help of many international museum curators, archaeologists, collectors and dealers. The authors have had access to practically all known major collections around the world, many of which have not been published before. Aided by over 830 photographs, maps and specially commissioned line drawings, the subject is explicitly illustrated, compiled and discussed in great detail. By drawing these different aspects together, this major study should appeal equally to collectors, researchers and those with a wider interest in the rich religious and cultural life of the area.
