The School of Arizona Dranes Timothy Dodge,2013-09-12 Arizona Dranes (1889-1963) was a true musical innovator whose recordings made for the Okeh label during the years 1926-1928 helped lay the foundations for what would soon be known as gospel music. Her unique blend of ragtime, barrelhouse, and boogie woogie piano plus her exciting and emotional Pentecostal style of singing influenced the development of gospel music for the next forty years and beyond. The School of Arizona Dranes: Gospel Music Pioneer covers the life and career of Dranes and situates her accomplishments in the broader history of African American gospel music and the rise of the Pentecostal movement. Starting with the earliest recordings of the music in the late nineteenth century, this book provides a history of African American sacred and gospel music that convincingly demonstrates the revolutionary nature of Dranes's musical accomplishment. Using specific examples, the author traces the far-reaching influence of Arizona Dranes on African American gospel piano playing and singing.

Ferruccio Busoni Della Couling,2005 Busoni's radical ideas about music was, is, and could be drew fire from his more conservative contemporaries. His thoughts on musical notation, opera, and the division of the scale were well ahead of his time, but, in many cases, are common currency today. Busoni went into voluntary exile in Switzerland during World War I, unwilling to take sides, and only recently has the veil been gradually lifted from his work and theories. Ferruccio Busoni: A Musical Ishmael shines a revealing light on Busoni's life, concepts, and profound influence on contemporary musical aesthetics and practice.--BOOK JACKET.

Discordant Melody Lorraine Gorrell,2002-09-30 Esteemed by many of his most distinguished contemporaries, including Arnold Schoenberg , Alexander Zemlinsky (1871-1942) was a protégé of Brahms and Mahler. Despite this, he was overshadowed by the composers of the second Viennese school, and for many years after his death was remembered merely as the brother-in-law of Schoenberg. But with centenary celebrations of Zemlinsky's birth, scholars began a careful examination of his works and realized they had discovered a forgotten master. Zemlinsky's wonderful melodic gift was manifested in operas, choral works, chamber music, and symphonic pieces, but was realized most fully in his more than one hundred songs. In this important new study—the first such work in English—Lorraine Gorrell focuses on these songs, revealing the ways in which they represented a bridge between the 19th-century romantic lied and the 20th-century avant-garde. Of interest to scholars studying both the German art song and the development of the second Viennese school, Gorrell's work uses Zemlinsky's songs as a lens through which to examine an important, highly influential musical figure.
