**Spirituality and Meaning Making in Chronic Illness** Kelly Arora,2020-02-21 Many spiritual caregivers, including chaplains, spiritual directors and clergy, are unaware of how they can support people with chronic health conditions. This book combines insights on chronic illness with spiritual care skills and suggestions to enhance well-being for people living with long-term illness. Using a narrative approach, the author reflects on the stories of two women - Dorothy from The Wizard of Oz, who travels from Kansas (a state of health) to Oz (an illness experience), alongside the author's personal experiences of managing an incurable autoimmune disease. Chapters will include guidelines and exercises that help equip caregivers to facilitate healing with people who live with long-term health conditions.

*The State of Medicine* J.W. Todd,2012-12-06 As a young general practitioner new to the field I recall how stimulated and excited I was by reading Dr John W. Todd's papers in the Lancet some 20-30 years ago. It was as though a lot of dust had been blown away and I was able for once to see the situation of medicine much more clearly. He became one of my medical heroes to add to John Ryle, Henry Cohen and Rene Dubois - all of whom have influenced my own approach to medical care and caring of my patients. Now in 1981, it is a pleasure to write an introductory foreword to this book. The State of Medicine represents the clear and honest thoughts of a most unusual person. Until his retirement John W. Todd was a general physician in Farnham, Surrey. He was relatively unknown to the medical profession outside Surrey apart from his occasional writings. The ten chapters show the build-up of wide experience and deep philosophy that accumulated during his years in practice. I find that I am as stimulated and excited now reading them, as I was 20-30 years ago. I may not agree with all that he writes and others likewise may disagree completely - but I commend the work as an invigorating experience.

**As My Body Attacks Itself** Kelly Morgan Dempewolf,2014-12-02 50 million Americans suffer with an autoimmune disease and countless more deal with chronic pain, fatigue and illness. These diseases are often invisible yet they touch every part of a person's life and of the lives of the people they love. This book is an honest, raw look at my thoughts, concerns, fears and struggles. as I deal with Sjogren's Syndrome (the second most common autoimmune disease). The story isn't just about Sjogren's, or even just autoimmune disease. It's for everyone impacted by chronic disease of any kind. My hope is that patients will find solace and validation; friends and family will gain understanding and the abilities to empathize, communicate and support loved ones; and medical professionals will gain understanding and ability to empathize - impacting the way they interact with patients.

**Drying My Tears** Liz Wilkey,2017-08 A heartwarming blend of medical mystery, intimate journal, comic survival guide, and zenchanted map to acceptance, this memoir recounts the story of a family's journey within the often-invisible world of autoimmunity. The book leads the reader through the misery and mayhem encountered while one woman attempted to raise

three daughters with autoimmune conditions, such as lupus, Guillain-Barre syndrome, Hashimoto's thyroiditis, and spondyloarthritis. It then details what happened when a life-altering, autoimmune disease called Sjogren's Syndrome swooped down to hit her squarely in the eyes as well. Covering topics as diverse as Identity Theft, The Doctor-Patient Fit, Little House of Illness and Using Buddhist Philosophy to Deal with Chronic Illness, this book serves as a handbook of sorts for all those who wish to understand the emotions and obstacles encountered in living with chronic illness and provides a strategy for coping for the 50 million Americans who are currently living with autoimmune diseases.

Travels with the Wolf Melissa Anne Goldstein, 2000 The Lupus Foundation of America estimates that between .5 and 1.5 million people have been diagnosed with lupus, a chronic autoimmune disease that can attack any part of the body. The elusive nature of the illness often becomes a source of overwhelming helplessness and frustration to its victims, their loved ones, and the physicians who treat it. Narrated through both poetry and prose, *Travels with the Wolf* is an autobiographical account of Melissa Anne Goldstein's experiences with lupus. It is her story of becoming a young woman, writer, and teacher in the presence of severe, often debilitating disease. It is an exploration of her relationships with her family and friends as the illness steals into their lives, and the record of her struggle to maintain her independence and identity despite disease. Finally, it is an author's journey to find her spiritual core. This book is not just about lupus. Goldstein uses her experience of the illness as well as sociological, literary, and historical research, to portray and understand the dilemmas faced by the chronically ill person in our society. In her conclusion, she calls for reform of today's health care system, which does not meet the needs of the chronically ill or their physicians.

**The Gift Within** Margie Kugler, 2013-05-13 In 2001, I was confronted with the most frightening challenge of my life, the diagnosis of a disease called scleroderma. I gradually learnt that this was no ordinary condition, as both my immune and

vascular systems are compromised. The body is overproducing collagen throughout the body's cells, tissues, organs, and systems, causing scarring or fibrosis. I felt strongly compelled to stay positive and explored many areas of help by seeking medical, holistic, and spiritual ways of healing. My book reveals the challenging and yet empowering journey I am living. Through a natural desire to express myself, I began writing my thoughts down daily and led to much insight and inspiration. My journal of poems, affirmations, and dedications brings to light a culmination of years of fear, bravery, pain, faith, desperation, and enlightenment. I sincerely hope this reaches the many thousands of people who are struggling just like me, dealing with their day-to-day tribulations of managing an autoimmune disease. I endeavour to deliver comfort and recognition by openly sharing my story and I wish with all my heart and soul that it helps people in some reassuring way or hopefully in a most miraculous way. This is my dream.
